

Wireless IR Controller

AC134 is a wireless IR transmitter and receiver used in smart home applications to remotely control IR-enabled home appliances such as air-conditioner, TV and audio systems.

Once the AC134 picks up IR signals from the appliance's remote control, users can control the appliances through the APP. This device is easy to use and can be mounted close to the appliances thanks to its battery operation. It is a member of U-Net series of devices and is fully compatible with any U-Net enabled gateway.

Main Features

- IR transmitter to control home appliances
- Learns IR code from any remote control
- Battery or AC powered
- Wireless two-way communication
- Upgradeable firmware
- Auto-pairing to the gateway
