

## ETFS Magnificent 7+ ETF (HUGE)

### Benchmark

Solactive Magnificent 7+ Index

### Benchmark Provider

Solactive

### Benchmark Description

Construction of the Index starts out with the companies in the Solactive GBS United States Large & Mid Cap Index PR. Companies are then whittled down such that only companies that are headquartered in the US (this determination is based on which country they are primarily listed in; which country they are incorporated in; and which country they are domiciled in); and are listed on the NASDAQ, are included in the Index.

On each quarterly selection day, companies that fulfill the above criteria are ranked in order of free float market capitalisation. The top 10 companies by market capitalisation are selected for inclusion in the Index and equally weighted.

A selection day occurs 20 business days before rebalance day.

**Solactive is an independent company of ETF Shares.**
