## Executive summary

Offshore Bitcoin is a sophisticated, fast and secure platform opening innovative doors in the crypto-industry and reduces all the pain points of crypto-enthusiasts with its best features. In crypto-industry, users prefer accessible & secure exchanges to keep, buy or sell the cryptocurrencies. With this in mind, we have configured offshore Bitcoin or merchant gateway service. As security is the primary concern of our exchange, we offer high anonymity to our users to enhance the security of the transactions.

In fact, we know bitcoin is more popular because of its ease of exchange currency and anonymity. Similarly, offshore Bitcoin allows traders to exchange currency with low transaction fees. The high transaction fee is the hindrance for the crypto-enthusiasts, offshore Bitcoin taken into an account and procures only low trading fees for their currency exchanges.

Offshore Bitcoin's aim is to become a top exchange among highly anonymous exchanges, to offer freedom of exchanging your currency with multiple trading pairs along with higher security.

Offshore Bitcoin enables traders to attain more profit and it is handy for the users. We respect our trader's privacy, so we recommend users to employ the ProtonVPN or ProtonMail to add anonymity for their transactions that save from vulnerabilities. You can use this anonymity service with no fear of locking your money. Also, APIs can make your website compatible with Bitcoin payments. Unlike major exchanges, we do not regulate connections from VPNs or Tor, nor do we freeze users' accounts with mixing services.

Offshore Bitcoin aiming to raise a fund 450 BTC during initial exchange offerings to evolve a full-fledged platform with high-level security. The whitepaper deliberates the information about offshore Bitcoin exchange and its plans. We hope that you are going to enjoy the reading.

## Introduction

---

As Crypto-industry is evolving, it's the right time for crypto-enthusiasts to invest in offshore Bitcoin exchange as it provides exciting benefits to its traders.

Offshore Bitcoin is a dream of Satoshi Suzuki, a founder of this virtual currency exchange platform where the traders can exchange their cryptos with low transaction fee and high security. Not conducts KYC for the users.

Offshore Bitcoin exchange - a sophisticated, simple and fast crypto exchange platform configured by the experts who strive to unlock the potential of the technology to revitalize the exchange platform. Using tokens, you can pay your transactions which cut down the commissions by half and also rewarded with special discounts.

Unlike other exchanges, offshore Bitcoin offers high anonymity for its users by recommending them to use a ProtonVPN or ProtonMail. Offshore Bitcoin exchange is a gamechanger of crypto-industry and furnishes you with many cryptocurrency and crypto asset-related services.

## Vision & Mission

---

**Our vision** is to create a highly anonymous platform to increase the privacy of the traders. Moreover, Offshore Bitcoin is offering multiple trading pairs for our customers to let them exchange currency as per their wish. In addition, our trading fee for transactions is less than the other exchanges to adopt huge crypto-enthusiasts.

**Our mission** is to protect the customer's privacy that avoids data theft and other security threats.

## Challenges on the Traditional Exchanges

- ⬢ Lack of Liquidity due to shortage of traders to buy or sell the crypto-assets, less trading volume, various regulations upon specific countries and denial of exchange platforms by merchants.
- ⬢ Higher trading fees i.e. commission fees to brokers is the major problem still faced by the traders.
- ⬢ Does not meet the customers privacy.
- ⬢ Most of the exchanges are not regulated which leads to huge losses or disruption.

## Offshore Bitcoin Solutions

We inspect all the ways to overcome the challenges of current crypto-currency exchange platforms. Offshore Bitcoin offers

### Low trading fee

Procuring a low trading fee is our primary concern for creating exemption while trading

### High Anonymity

As we all know, privacy is the crucial part of the exchange, we add anonymity for your transactions through proton-email

### Multiple Trading Pairs

Extensive list of trading pairs allows traders to choose their desirous trading pair. Trading pairs helps you to establish the value of the crypto-asset while trading with other assets

Offshore exchange is the first exchange providing high anonymity via protonmail, thus enhancing the security of transactions. Crypto-enthusiasts can signup/ login with simple steps, it saves time and it won't take much from your pocket for transactions.

## Token details

Symbol: **Offshore Bitcoin Token**

Token type: **ERC 20**

Token Price: **\$ 0.50 (USD)**

Expected procurement amount: **450 BTC**

Maximum Token Supply: **3,034,600 token**

## Our Development Team

We have a dedicated inhouse team that works hard to improve the standard of exchange by integrating the abiding features. Our experts have well-versed knowledge in the exchange platform and know-how to finetune the exchange services by unwrapping the power of the technology.

Our team was tasked with analyzing our offshore Bitcoin exchange, to determine if it continues to meet the demands of crypto-enthusiasts. In our analysis, we have predicted that our unique characteristics like anonymity, a low transaction fee will certainly revolutionize the crypto-world and meet the demands of exchanges.

## Benefits of buying offshore Bitcoin token

Offshore Bitcoin token runs under the ERC 20 protocol which is widely used by blockchain developers. Tokens will be sold out at lesser cost during IEO when compared to the nominal fee of \$1 of its launch in phase 5. Once it is launched on an exchange, the tokens will be open to market value and it is used as a commission payment on exchange. The token price is expected to be increased due to an increase in demand for acquiring tokens on the exchange.

By leveraging offshore Bitcoin token, you will acquire a capital gain which means more than your purchase amount. Also, our transaction fees are comparatively lesser that reduces the burden of traders and increases the trading volume too.

# Why offshore Bitcoin Exchange?

---

Offshore Bitcoin is the next-gen cryptocurrency exchange offering many benefits to its users and meets all the stringent requirements of the exchange.

Offshore bitcoin recommends a proton mail option to add anonymity for your transactions. So, no one can hack your details because your data is highly encrypted with this proton mail.

Offshore Bitcoin exchange is gearing up its beta launch in the first year offering cost-free transactions.

Users need not pay the exchange fee for three months to one year (maker, taker withdrawal fees are assumed to be 0% and withdrawal fee are assumed to be around 0.01%)

Once the services commences, we offered eight cryptocurrency trading pairs that are BTC / USDT, Ethereum / BTC, XRP / BTC, BitcoinCash / BTC, LiteCoin / BTC, Monero / BTC, Grin / BTC, OUR\_ERC20TOKEN/BTC. We further extend our plan to have access to over 100 cryptocurrency trading pairs. This makes users trade with their desired cryptocurrency pairs.

Unlike major exchanges, we do not regulate connections from VPNs or Tor, nor do we freeze users' accounts with mixing services. We utilize most of our funds on server maintenance for the effective performance of the server. Our server is built with ultra-high security and it meets the highest standards.

While all the features of offshore Bitcoin are fascinating, high anonymity is a real highlight of this exchange.

Offshore Bitcoin aimed at raising the fund through IEO token sale to provide unbeatable services to users in the future. We expect most of the users for our exchange as we offer unrivaled features.

# Project Development Milestone

We are actively working to enhance the features of offshore Bitcoin that boosts the revenue by grabbing users attention. The scheduled procurement details of the offshore Bitcoin platform are given below

## I.Scheduled Procurement Details:

Phase	Expected procurement amount	One Token Price	Sales Token Quantity
Phase 2	₿ 5BTC	\$ 0.50	84,000 tokens
phase 3	₿ 30 BTC	\$ 0.50	321,600 token
Phase 4	₿ 45 BTC	1 dollar	392,000 tokens
phase 5	₿ 120 BTC	1 dollar	700,000 tokens
phase 6	₿ 250 BTC	1 dollar	1,537,000 tokens
<b>Total BTC : 450 BTC</b>		<b>Token Supply: 3,034,600 tokens</b>	

## II.Extending Features, Financial planning and Expected Outcomes:

- The fund raised through IEO will be utilized for the process of offshore Bitcoin exchange. We have listed our plan
- support costs for over 100 new currency pairs
- support for Forex trading
- server costs for several years until users increase and commission income stabilizes
- service maintenance
- 24 hours of customer service
- The remaining amount will be funded for insurance in case of theft of funds.
- Used for labor costs such as security and security measures.

## Phase 1

Launching a Beta version of Offshore Bitcoin. We invite you all to try this beta version. No transaction fees for 3 months to 1 year Maker and taker fees are assumed to be 0% and withdrawal fees are assumed to be around 0.01%

## Phase 2

Estimate of 18 pairs (add 10 pairs)

Development: **\$ 10,000**

Wallet server: **\$ 2,500 / year x 1 = \$ 2,500**

Advertising costs: **\$ 5,000**

Translation: **\$ 3,000**

Annual budget: **\$ 20,500 \$ 1,709 per month**

In phase 2, our expected procurement amount is **3BTC**, token sale quantity is **84,000** tokens with the price range of about \$0.25 per token

## Phase 3

Estimate 48 pairs (add 30 pairs)

Development: **\$ 30,000**

Wallet server: **\$ 250 / month \* 12 months \* 2 units = \$ 6,000**

Customer support staff: **\$ 15 / hour \* 8 hours \* 20 days \* 12 months = \$ 28,800**

Development, network management and security staff

(concurrent customer support): **\$ 25 / hour \* 8 hours \* 20 days \* 12 months**

Labor costs: **\$ 48,000 per year \* 2 people = \$ 96,000**

Additional \$ 160,800 per year required (\$ 13,400 per month)

23 BTC is the expected procurement amount in phase3.

sales token quantity is 321,600 tokens and each token cost is \$0.50

Subtotal annual budget: **\$ 181,800 (\$ 15,150 per month) Transaction volume and profit required for maintenance**

If the rate is \$ 7,000,90 BTC / month, 3 BTC / day required  
That will save \$ 15,750 a month

## Phase 4

Estimate 98 pairs (add 50 pairs)

Development: **\$ 50,000**

Wallet server: **\$ 2,500 / year x 5 units = \$ 12,500 24 hours / 365 days support**

Customer support staff: **\$ 15 / hour \* 8 hours \* 20 days \* 12 months = \$ 28,800**

**x3 = \$ 86,400**

Development, network management and security staff (concurrent customer support): **\$ 25 / hour \* 8 hours \* 20 days \* 12 months**

Labor costs: **\$ 48,000 per year \* 3 people = \$ 144,000**

*At Phase 4, our expected procurement amount is 42 BTC for 392,000 token sales with a price range of \$ 0.75 per token.*

*Additional \$ 292,900 per year required (\$ 24,409 / month)*

*Subtotal annual cost: \$ 474,200 required (\$ 39,517 / month)*

## Transaction volume and profit required for maintenance

*If the rate is \$ 7,000,  
240 BTC / month, 8 BTC / day required  
That will save \$ 42,000 a month*

Annual server fee:

Web servers: 2

**\$ 2,500 x 2 units = \$ 5,000**

Wallet server: 8 units

**\$ 3,000 x 8 = \$ 24,000**

**\$ 29,000 total**

Annual labor costs:

Support: **28,800x3 / month = \$ 86,400**

Engineer: **48,000x4 / month = \$ 192,000**

**\$ 278,400**

**\$ 307,400 total**

*44BTC is required if all is covered by IEO*

## Phase 5

- Forex trading support
- Support and security personnel increase
- Server costs
- Funds for cryptocurrency theft

At phase 5, the scheduled procurement amount is **100 BTC**. Our sales token quantity is **700,000 tokens** with a price range of 1 dollar per token.

## Phase 6

*Collect server fee and labor cost by ICO, and make the user's commission as free as possible.*

2-year server fee: **\$ 58,000**

Two-year labor costs: **\$ 556,800**

Total: **\$ 614,800**

3-year server fee: **\$ 87,000**

3-year labor: **\$ 835,200**

Total: **\$ 922,200**

5-year server fee: **\$ 145,000**

5-year labor: **\$ 1,392,000**

Total: **\$ 1,537,000**
