### When your body craves salsa

Is a Latin American trend about to sweep through the globe? Almost overnight it seems, Latin American music has taken over the airwaves, Latin American cuisine (from Argentina, Cuba and Mexico) has conquered restaurants the world over and fashion from countries like Brazil, Colombia and the Dominican Republic is suddenly hip, hot and happening. This issue of Aishti Magazine takes a spin through Latin America, exploring and uncovering the most seductive fads and fashions to emerge from all places existing south of the US border.
