MAINTENANCE AND CARE

Protect your furniture from extreme weather conditions by moving it to a covered area. Alternatively, use furniture covers or traps for added protection.

Avoid dragging or placing heavy objects on the furniture to prevent potential damage.

Regularly inspect your furniture for signs of wear, loose strands, or damage. Address any issues promptly.

Hardware may loosen over time. Periodically check to make sure all connections are tight. Re-tighten if necessary.

Do not dispose of any packaging or contents of the shipping carton until assembly is completed to avoid accidentally discarding small parts or hardware.

Do not use sharp objects that may scratch the painted surface.

Clean with a damp cloth soaked in warm soapy water or a specialized, suitable cleaning product.

Conclude the cleaning process by wiping with a clean, dry cloth.

Ensure proper drying after cleaning or exposure to rain to prevent mold or mildew growth.

MANTENIMIENTO Y CUIDADO

Proteja sus muebles de condiciones climáticas extremas moviéndolos a un área cubierta. Alternativamente, use fundas o protectores para muebles para una protección adicional. Evite arrastrar o colocar objetos pesados sobre los muebles para prevenir posibles daños. Inspeccione regularmente sus muebles en busca de signos de desgaste, hilos sueltos o daños. Trate cualquier problema de inmediato.

Los herrajes pueden aflojarse con el tiempo. Revise periódicamente para asegurarse de que todas las conexiones estén ajustadas. Vuelva a apretar si es necesario.

No deseche ningún embalaje o contenido de la caja de envío hasta que se complete el ensamblaje para evitar descartar accidentalmente partes pequeñas o herrajes.

No use objetos afilados para rascar la superficie pintada. No recomendamos el uso de limpiadores químicos, abrasivos o pulidores de muebles en nuestro acabado lacado.

Limpie con un paño húmedo empapado en agua jabonosa tibia o un producto de limpieza especializado y adecuado.

Concluya el proceso de limpieza secando con un paño limpio y seco.

Asegúrese de que los muebles se sequen adecuadamente después de la limpieza o la exposición a la lluvia para evitar el crecimiento de moho o hongos.

Evite colocar vasos transparentes sobre la superficie del panel de madera-plástico durante mucho tiempo para evitar que la luz solar concentrada derrita la superficie.
