### **MADE IN BRITAIN®**

Forrest & Brook's quality kitchens are robust and durable with a stunning array of styling options. The rigid cabinets are made to your order, using precision glue and dowel construction, creating a true rigid kitchen, with squarer, stronger cabinets and no visible screws or fixings.

Our kitchens have been awarded the Made in Britain status.

#### PLANNING YOUR KITCHEN

The kitchen triangle was based on the three main work areas: the sink, the refrigerator, and the stove. The purpose of the kitchen triangle was to allow you to move easily between working areas of the kitchen.

Often cooking is no longer the responsibility of one person in the modern household. Because many families now might have more than one cook operating at a time, the points of the triangles are now likely to be 'working zones' (the cooking, cleaning, prep and storage zone).

It is best not to focus on the triangle, but to think about how your family moves around the kitchen. You will then find out which layout works best for you, and the 'zoning' will fall into place of its own accord.

## WHAT'S ON YOUR WISHLIST?

Analysing what you currently have in your existing kitchen versus what you need and want from your new kitchen design is the most important step. What appliances or luxury gadgets do you desire? Make a list of everything you've always wanted.

You can include more intangible ideas on this list that will help your designer get a feel for what you need. Do you prefer a cosy cottage style, or modern minimalism? Or even a mix of both?

Search online for inspiration. Magazines and brochures are useful resources too, furnishing you with the latest kitchen ideas. The more you see, the more you'll understand the style of kitchen you prefer and what will suit your home.

## LET YOUR HABITS DICTATE YOUR LAYOUT

How do you use a kitchen? Do you like to entertain, or do you sit down as a family for a meal every evening? Do you need areas for the kids to do their homework, or a space that can be used as an office area? All these things should be taken into consideration, and your kitchen layout should be designed to perfectly fit your lifestyle.

Check out the shape of your kitchen - it will probably fit into one of the categories below. Use this list as a guide when searching for inspiration.

- The galley layout
- The L-shaped layout
- The U-shaped layout
- The island layout
- The peninsula layout
- The one-wall kitchen

#### CONVENIENCE COMES FIRST

To make full use of one of the most important rooms in your home, consider all the elements that will make this space work best for you.

Give yourself plenty of counter space to prep and allow more freedom while you cook. Don't clutter your worktops - hide everything away in nifty storage spaces with envy inducing pantry units and pull-out wirework.

Plan integrated appliances for a clean, streamlined look and position them for optimum performance. Anything that makes your life easier is always a plus.

#### **EXPRESS YOURSELF**

Do you want it to complement the style or period of your home or contrast it? To match the decor of your other rooms, or to stand out? What style of units do you want to go for? How will you use colour or bring texture into the room with materials?

All these questions can only be answered by you personally - so let your imagination run free (with a little guidance from the experts, of course) and check out the following pages in this brochure for a little more inspiration.

#### **CUSTOMISE YOUR KITCHEN**

## CHOOSE YOUR DOOR

The key to long-term happiness with your newly-renovated kitchen is to find the style that suits you best.

Do you like sleek modernism or farmhouse chic? Is your home the epitome of urban cool or a cosy cottage?

Over the next few pages you will find a whole host of doors that can be tailored to suit your desired kitchen scheme perfectly.

## CHOOSE YOUR COLOUR

Once you've chosen your door, there are a number of elements to consider before making a colour choice. How much natural light do you have? Will it clash with the flooring? Will the colour you choose suit the rest of your home?

Not all your kitchen needs to be one colour. You can mix in a number of colours if you wish. Select a bold shade for a statement island or darker shades for a dramatic yet cosy space.

## CHOOSE YOUR ACCESSORIES

Choosing the right accessories can help to enhance your scheme by adding character and colour. We have countless options to suit everything from classic to ultra-modern kitchens.

Check out our selection of handles, worktops, sinks and taps to complete your finished look and create the kitchen of your dreams.

# SETOSA PAINTED DUNE WITH WALNUT

Tall units provide an abundance of storage space to minimise clutter. The restful tones of Dune and Walnut with black profiles create a neutral but warm backdrop for an elegant and confident style.

#### PROMOTE THE FLOW...

As open plan living becomes more popular, handleless kitchens have become the perfect choice, as they offer a seamless transition between living areas and the kitchen area.

When planning your layout, factor in exactly how the kitchen will work in relation to the rest of the house, and how the overall space will flow and feel. Style your spaces with complementary colours and harmonious textures to link them together.

# SUPER MATT JET WITH WOODGRAIN NATURAL OAK

Super Matt Jet doors have a richness and depth which creates a luxurious atmosphere and elevates the whole look of your kitchen. This sophisticated dark hue contrasts perfectly with the warm tones of Woodgrain Natural Oak to offer a balanced look for a relaxed and inviting atmosphere.

Black profiles, matching shelving and accessories create a cohesive space, with subtle layering that delivers individualism and personality.

#### INDUSTRIAL REVELATION

The back-to-basics style of an industrial style kitchen is the epitome of effortlessly cool luxury. Raw materials and tough fixtures and finishes take centre stage think of surfaces like concrete and steel, exposed brick, natural wood and plenty of open space.

Combining functionality with simplistic beauty can create quite a restrained style, so soften with patterns and textures for a welcoming ambience.

#### **SETOSA PAINTED**

**PEBBLE** 

Larger spaces look outstanding in a bright and airy colour scheme. Combine subtle, natural shades and textures to create a warm, relaxed vibe that is effortlessly elegant and refined. Accessorise with charcoal profiles for defined linearity, which displays the streamlined style of this kitchen to perfection.

#### **OUTSIDE IN**

A large glazed door is great to separate your kitchen from outdoor areas. It will increase the feeling of open space, making the garden more accessible during the summer months and letting in natural light throughout the year.

As a quick and easy fix, fill two large planters, one with ferns for inside the home and one with ferns for outside. Place them opposite each other - inside and out - and you'll instantly link the spaces.

#### JAPANDI SIMPLICITY

Japandi is a mix of Japanese and Scandinavian styles - a calming fusion from two different sides of the world. This trend lends itself perfectly to the kitchen space as it blends the smooth, modern lines of Scandinavian design with the elegant yet functional Japanese aesthetic. Japandi style is designed to create warm inviting spaces, full of texture and tone. Mixing neutral colours with natural materials - a minimalist's dream.

# SUPER MATT QUARTZ WITH WOODGRAIN NATURAL OAK

The warm tones of Woodgrain Natural Oak doors and brushed brass profiles, alongside pristine Super Matt Quartz cabinetry, create a restful, relaxed ambience. This modern space is calm and harmonious, whilst remaining functional and easy to use. The neutral tones can work with any colour scheme, for a wide range of decorating and accessorising options.

The kitchen and living area are blended seamlessly together using black framed shelving. This way colours and textures can be coordinated, so there are no jarring elements to your scheme.

#### SMALL BUT PERFECTLY FORMED

For a smaller space, make use of every available inch of space by planning units with pull out internal storage. Use these to keep any mess out of sight and work surfaces clear of clutter.

Don't be afraid to use colour in a smaller kitchen - mix a bolder shade with timeless, elegant natural tones and soft textures for an appealing layered look.

#### **RUSTIC RETREAT**

Whilst it is important to ensure your kitchen is practical and functional, you don't have to sacrifice style for substance. By integrating state-of-the-art appliances and cooking technology, you can maintain a clean, minimalist style which will showcase the architectural elements of your home whilst still providing modern convenience and comfort.
