THE FABRICATION PROCESS

Our easy-to-use online fabrication tool makes customising your worktops simple.

wextrade
YOUR TRUSTED WORKTOP PARTNER

You can order through the website using our online fabrication worktop tool, or contact the fabrication team, to create your customised cuts. Easily select your preferred cuts, finishes, and dimensions, ensuring a seamless and efficient ordering experience from start to finish.

Got a complex design or need multiple cuts? Our fabrication experts are here to help.

FOLLOW OUR 6-STEP PROCESS

- 1 Design Your Order:** Customise your worktop design and confirm the final layout.
- 2 Add to Cart:** Once your design is confirmed, add it to your cart along with any additional items.
- 3 Payment and Design Confirmation:** Complete your payment and finalise the design diagram online.
- 4 Order Review:** Your order is sent to the team to check all details for accuracy.
- 5 Production:** Once everything in your order has been checked and approved it is scheduled for production, with a lead time of 6-10 working days.
- 6 Delivery Notification:** You'll receive an email confirming your delivery date.

Alternatively, email your requirements to the team and they will be in touch.

PRE-OILING SERVICE

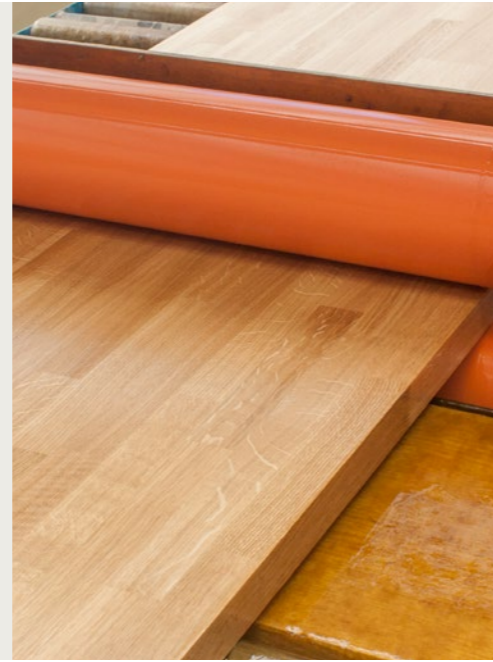

All solid wood worktops require oiling before installation. To save you time and hassle, we offer a convenient pre-oiling service.

Whether you order just the worktop with a 5 working day lead time or choose our full fabrication service, we'll apply one layer of industrial HABiol oil before dispatch.

If additional cuts are made during installation, you'll need to oil the exposed areas to ensure full sealing.

We offer premium Osmo oil, available in clear or matt finishes, as part of our worktop accessories range.

DELIVERY

Our delivery service ensures your worktop is brought directly to your site by our two-person team. With flexible scheduling options, you can select a delivery day that fits your schedule.

On the day of delivery, you can expect the following:

- Your worktop will arrive between 7:30 AM and 6 PM.
- You'll receive an email with a 2-hour delivery time slot prior to arrival.
- Our delivery team will give you a courtesy call 30 minutes before they arrive.

We strive to ensure your delivery experience is seamless and convenient!

SUPPORT EVERY STEP OF THE WAY

Our in-house fabrication team is here to support you every step of the way. From providing quotes and CAD diagrams to answering any general or technical questions, our experts will manage your order from start to finish. If you prefer not to use the Online Fabrication tool, our experts will handle every step of your order process for you.

To get started, please include a worktop sketch or plan with overall dimensions in metric, along with specific details such as sink position and size. Our team is available via email, webchat, or phone to assist you.

Once we receive your requirements, we'll provide a quote, request payment, and create the diagrams within 3 working days. After your diagrams are confirmed, your order will move into production.
