AccountGST is an accounting ERP software developed in 2017 by GridsonLab Private Limited.

AccountGST is a leading provider of ERP Software to growing business Industries. With a team of experts boasting extensive experience in the field, we are well placed to help our clients grow and thrive - even in challenging times. By really getting to know our customers, our talented team are able to offer unique and customized solutions backed by data driven analysis and broad research.

As a company we believe in building long lasting client partnerships which help us all grow. To learn more about how our tailor made ERP Software solutions can help client's business flourish, read on.

AccountGST which not only provides accounting software but also **adds complete business automation** in a single program

1. CRM
2. Ecommerce
3. CMS (Complaint Management System)
4. RMA (Return Goods Authorization, repair, replacement, warranty)
5. Customer Turnover (Customer Retention)
6. OPM (Order Process Management)
7. Workflow, approval and Pending Tasks
8. Production / Manufacturing / Cost Accounting
9. Financial Accounting & Taxation

It enhances business productivity, improves employee efficiency and increases business revenue. It gives complete business automation to small and medium company.

What we can do

• • • •

Outdated software technology causes us a lot of losses and hurts the growth of our business. We moved on to AccountGST, and AccountGST transformed our entire business operations and built our business on a secure and managed IT program.

Manoj Kumar Jain – Director
Hasti Computers Pvt. Ltd.

Hasti Computers Pvt Ltd lost its data 3 times due to ransomware attack on tally data. Moreover, they were also found unable to manage the data of multiple branches on the offline platform. Their main core member also kept the data and opened a company against them, becoming a competitor to Hasti Computers.

Hasti Computers is just one example of the thousands of growing SMB businesses that are facing such challenges and losing business growth and productivity.

This is where – AccountGST comes into play.

Account GST provided cutting edge IT technology of ERP cloud based program to Hasti Computers. Hasti Computers overcame all its challenges and moved forward towards business expansion. They benefited from complete data security, benefits of cloud computing and hassle-free business operations.

AccountGST Cloud Benefits

Online Technology always better than offline technology:

- **Encrypted Data Protection**: Protects data from hacking and theft. Your data is secure on LAN and WAN.

- **Minimize IT Cost**: Save money by eliminating server, storage, backup, firewall, router, UPS and branch connectivity router cost.

- **Give Latest Technology to your Business:** You'll always be the first to get the latest software updates and the latest cloud technology.

- **Improve Employee Productive**: Cloud promotes employee collaboration in your business by mobile apps.

- **Better Consistency:** Cloud computing provides the highest level of software stability through clustered services and load balancer technology. Not possible in offline platform

- **Hassle Free Support**: Web base technology provides installation free platform and get remote desk support in real time.

- **Multiply Business Globally**: Multiply your business globally, access your business data Anytime, Anywhere & Anyplace. Connect your team through any interface like web and mobile.
