Mechanical, Electrical & Low Level Access Specialists

Access Equipment Specialists

Hire With Us...

We provide low-level access products to the UK's specialist building services trades.

As a member of Vp plc, we are part of a multi-national group with nine operating divisions, providing the rental and sale of specialist products and associated services within the UK and overseas.

With a rich history spanning over 65 years, MEP Hire is uniquely positioned to ensure continued investment in our fleet and network. This allows us to offer our customers the most innovative and quality hire solutions available.

Improving Safety & Increasing Productivity

The Working at Height Regulations 2005 aims to prevent death or injury caused by falls from height. However, since the regulations were brought in, falls from height in the construction sector continue to be a big issue...

We understand that safety is paramount to the prosperity of your business and so we have developed a Low Level Access range that will do more than support your compliance and improve safety, it will increase your productivity too!

MEP Hire has one of the largest, widest ranging and well-maintained Low Level Access fleets available in the UK. We work with some of the largest construction firms in the UK, delivering for some of the biggest building and fit-out projects in Europe.

A Significant Risk to Site Safety

Construction worker fatalities in the UK are

70% higher

than before the Covid pandemic, according to the annual statistics from the Health and Safety Executive (HSE)

CONSTRUCTION NEWS JULY 2024

The estimated cost of **work-related ill-health** and **injury** in the construction sector was over

1.4 million in 2022/23

HSE, CONSTRUCTION STATISTICS IN GB 2024

OVER **2.5 million**

working days were lost during 2023/4 in the construction industry due to **workplace illness** and **injury**

HSE, CONSTRUCTION STATISTICS IN GB 2024

Falls from height

remain the highest kind of fatal accident for workers in the construction sector at

52%

HSE, CONSTRUCTION STATISTICS IN GB 2024

Falls from height accounted for

33%

of work related injuries during 2023/4

HSE, CONSTRUCTION STATISTICS IN GB 2024

The 2023/24 figure for fatal falls from height now sits at an unacceptable

35% above

the five-year average

The Benefits of Low Level Access (LLA)

Safe

Designed to be the safest possible way of working at heights. Features include fail-safe mechanisms, 'anti-surf' locking wheels, auto-brakes, safety gates and guards, as well as MEWP tags.

Quick & Simple

Much faster than ladders or podiums to erect. The Pecolift for example takes just 11 seconds to reach full elevation.

Reliable

Fully tested and calibrated machines mean you only receive equipment that is ready for the job. Our non-powered machines are battery and electric free so avoid any downtime.

Efficient

Proven to reduce the time it takes to complete tasks; increasing your productivity.

Versatile

Wide range of machines to suit multiple applications and working heights up to 6.5 metres.

Cost Effective

Designed for versatility and use across multiple applications, helping you to manage your costs and maximise usage.

Sustainable

Our non-powered, self-propelled machines are the sustainable and environmentally friendly choice.

Choose **MEP Hire...**

We've put safety at the heart of our offering.

With specialist knowledge of the Low Level Access market, we have worked with suppliers to develop products that better address your safety needs when working at height.

Our team of dedicated engineers receive enhanced training to ensure our fleet of machines only enters the market when it is fully safe to do so and compliant with all associated regulations.

See the benefits of...

- One of the largest access fleets in the UK, with capacity to support the largest demands
- Innovative CORE RFID process for LOLER certification and compliance
- Support to prevent unauthorised use through our range of accessories, ensuring only competent and experienced staff can access our machinery
- Thorough and fully independent inspections to meet LEEA and IPAF obligations
- Support with access to training, certifications and machine familiarisation
- Dedicated team of engineers across the UK, reducing downtime for faults and servicing
- Additional safety features such as MEWP tags, anti-climb side guards, tool tethering, telematics and secondary guarding devices.

The Complete Solution...

We can offer you a complete range of access solutions, suitable for a wide range of applications, including, fit-out, mechanical, electrical and HVAC environments.

Non-Powered Access

These access machines are powered with the simple rotation of a handle – no batteries mean no downtime when charging!

See pages 10 - 12

Powered Access

Our range of powered access machines help you to reach heights of up to 7m in a matter of seconds.

See pages 13 - 19

Alloy Towers

Suitable for use indoors or outdoors, these towers will allow you to access heights from 3.2 - 32.2m.

See pages 20 - 22

Podiums & Platforms

Certified to BS8620 standards and suitable for lower level work from 2.2 – 8m.

See pages 23 - 25

Tool Tethering

Save lives and improve your productivity with our robust, tried and tested range of tool tethering options.

See pages 26 - 27

Working height up to 6.7m

MiStairs Alloy Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

A safe, quick and easy to assemble alloy tower, providing a strong and robust access option around staircases. Suitable for one-person operation.

- Easy to assemble in just 20 minutes
- Available in a range of working heights from 4.2 - 6.7m
- Compact design means it is the ideal scaffold to move into a narrow stairwell
- Circular welded and pinched claw-brace connections make it the strongest, most stable scaffolding of its kind.

Working height up to 6.7m

Bridge Quick Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

A versatile and high quality mobile tower, offering a safe, yet speedy build. Provides an incredibly stable working platform with a generous working area.

- Fast assembly
- Six options to choose from depending on your desired working height
- Provides platform heights between 1.7 - 4.7m
- Choose working heights of 3.7 - 6.7m
- Suitable for both internal and external use
- Tower components compliant with BS EN 1004-1, bridging components compliant with BS 1139.

Working height up to 8m

MiTower Alloy Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

This quick assembly alloy access tower provides a safe and convenient platform for working at Low Level Access heights for up to two people.

- Reach heights of up to 8m
- 6m supplied as standard, 8m achieved when using 2m extension pack
- Assemble in less than 15 minutes by one person
- Available in two compact platform sizes
- EN1004 Class 3 compliant
- Suitable for both internal and external use.

Working height up to 14.2m

Eiger 250 and Safe Quick (AGR) Alloy Access Towers

For Hire Codes, please contact an MEP Advisor or visit our website.

A versatile and EN1004 compliant LLA scaffold tower, suitable for both internal and external use by up to two people. **Choose our Safe Quick AGR option for added safety features, in a new lighter and easier to assemble construction.**

- Quick and easy to assemble
- Reaches working heights of up to 14.2m
- Compact advanced guardrail system
- Single and double width options
- Easy to use and assemble
- Lightweight and strong
- No ladder frame required
- Suitable for use by up to two people
- EN1004 Class 3 compliant.

Working height up to 32.2m

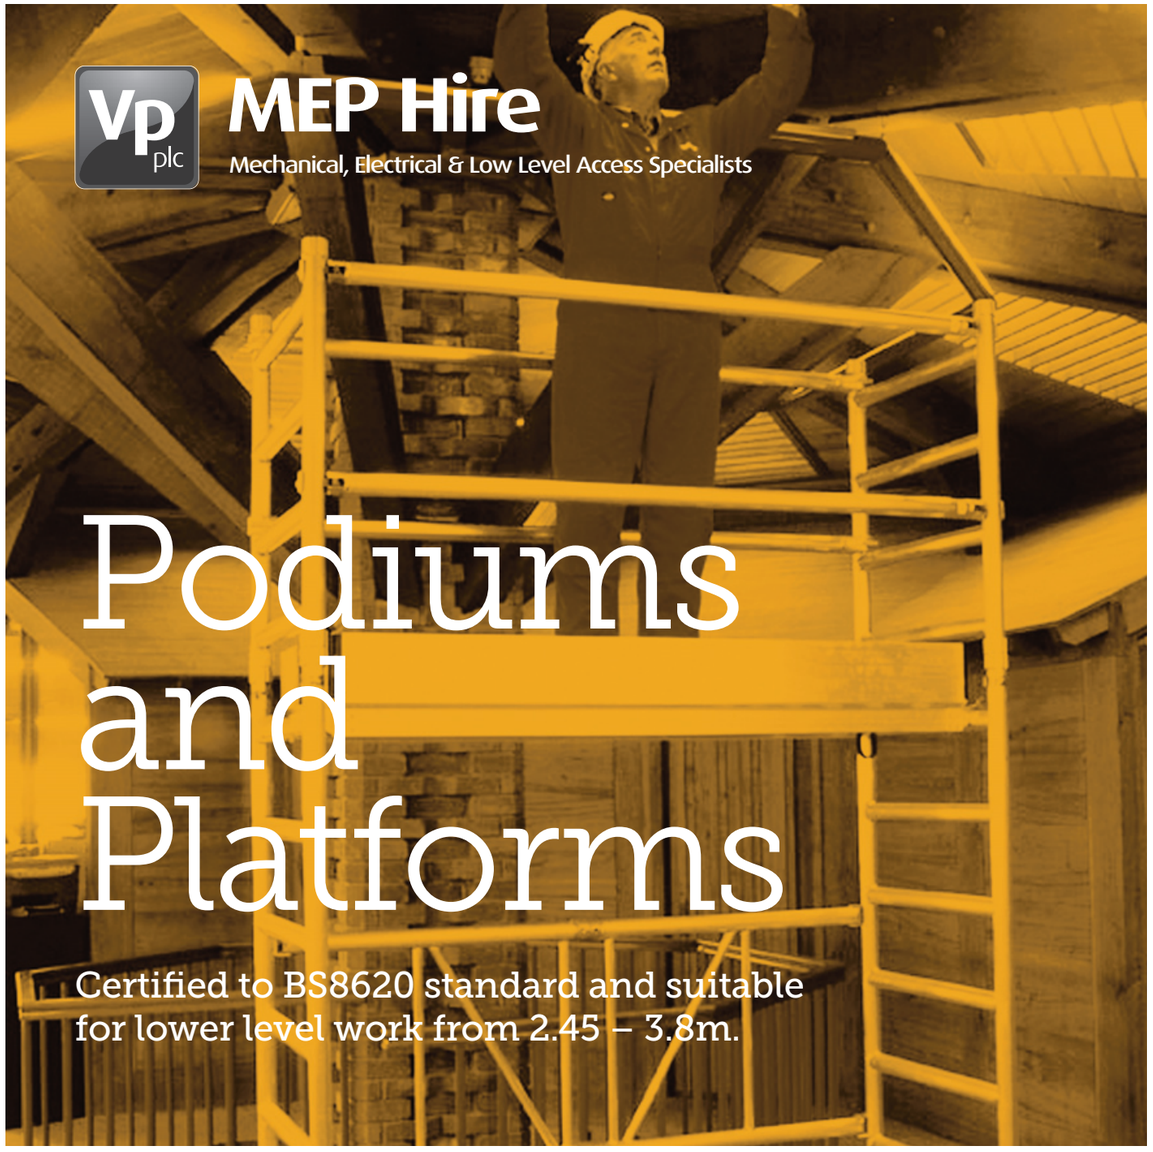

MiTower LiftShaft Alloy Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

Reach heights in lift spaces and confined areas safely and quickly. Easy one person build and operation. Multiple size options available from 4.2 - 32.2m.

- Fast and easy set up
- Suitable for one or two people
- Stable, strong and robust
- Small footprint
- EN 1004 Class 3 and EN 1139-6 compliant.

Working height up to 1.45m

Euro Towers Stepfold Podium with Swing Gate

Hire Code: 010233 (1-1.2m) / 010234 (1.2-1.45m)

These Stepfold podiums are BS 8620 certified steps - a great solution for working safely at low-level heights.

- Available in two sizes for a range of working heights
- Telescopic guardrails ensure easy access to working platform
- Battery free and BS 8620 certified.

Working height up to 2.5m

Stair Podium

Hire Code: 010231

Ideal podium for use on different surface levels such as stairways, as well as narrow spaces.

- Reaches working heights of 2.5m
- Fast and easy assembly
- One person operation
- Maximum load of 150kg.

Working height up to 2.87m

DELTADECK® Low Level Work Platform

Hire Code: 010221

The DELTADECK® Low Level Access work platform is an innovative access solution, ideal for those needing flexibility when working at heights. Offers multiple working heights from 2.45 - 2.87m.

- Quick, easy and safe to use
- Compact, lightweight and easy to transport
- Suitable for multiple applications
- Battery free folding platform.

Working height up to 3.32m

Rolguard Telescopic Work Platform

Hire Code: 010284 (4 rung) / 010288 (5 rung) / 010286 (6 rung)

A Low Level Access platform ladder with all-round guard protection, saloon-bar gate style entry and an extra-large working platform. Allows the user to work comfortably with both hands free.

- Reaches heights of up to 3.32m
- Easy to move folding work platform
- Telescopic quick-lock stabilisers
- Variable height
- Optimal standing comfort
- Handy tool tray.

Working height up to 3.5m

Podium Step

Hire Code: 010224 (1m) / 010226 (1.2m) / 010227 (1.5m)

Reach Low Level Access heights with this set of podium steps available in three heights from 1 - 1.5m. Certified to BS 8620 standard.

- Choose from three platform heights - 1m, 1.2m and 1.5m
- Stabilisers and anti-surf functionality provided for added safety and security
- BS 8620 certified.

Working height up to 3.8m

Euro Towers Eurofold Work Platform

Hire Code: 010208

Quick and easy to use work platform suitable for multiple applications.

- Reaches working heights of up to 3.8m
- Maximise efficiency with 'snap open' design that assembles in minutes
- Lightweight and compact
- Easy to transport and store.

Tool Tethering

Dropped Objects Rank in the UK's Top 3 for Workplace Killers!*

Save lives and improve your productivity with our robust, tried and tested range of tool tethering options.

Clever Tool Tethering That Stops Drops!

Adding tool tethering solutions direct to the access machine is the safest possible way of ensuring tools aren't dropped. MEP Hire offers a full range of tethering solutions from NLG; who engineer the safest tool lanyards available. We have also worked with suppliers to allow tools to be fixed direct to the machine via innovations like tool trays.

Just follow these three simple steps to ensure your site is a safe one...

1. **Create a Tether Point** - a load rated point that allows you to connect your lanyard to your tool.
2. **Create a Lanyard** - depending on your environment choose either coil, bungee, fixed webbing or retractable.
3. **Select an Anchor Point** - attach your lanyard to a suitable anchor point, such as a wrist band, workbelt or harness.

*HSE Riddor Report, 2022/23

Find our full range at:

Consumables

MEP Hire offer a wide range of consumables and PPE that will support you to be compliant with your safety obligations and protect workers. Simply visit: **www.mephire.co.uk** to view our full range.

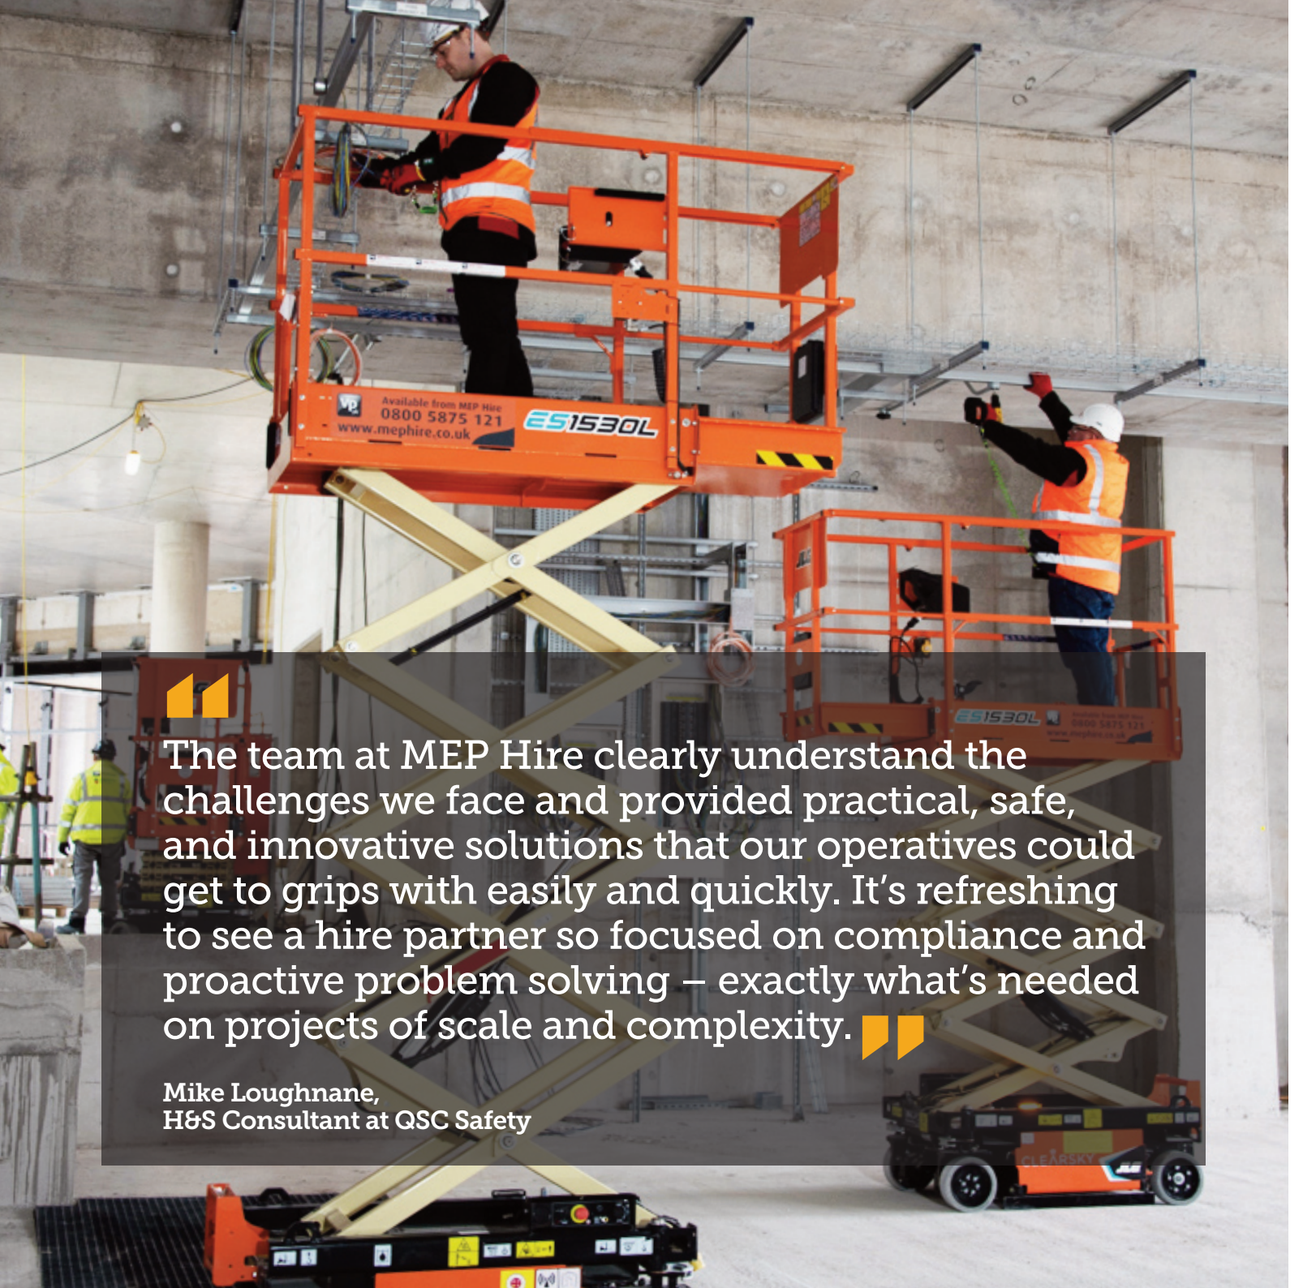

Safety Comes First...

All users must have the appropriate training to operate LLA machines and we can help you to access this training if you need it. Our staff hold IPAF Demonstrator Licences and can provide a Machine Familiarisation Service.

Each of the machines in our fleet goes through rigorous safety checks, including the LOLER examination. This ensures our machines are always compliant to the latest regulations and will keep your operators safe.

MEP Hire offer additional safety features for many of our access machines, making them the safest in the market. These include MEWP tags, anti-climb side guards, tool tethering, telematics and secondary guarding devices.

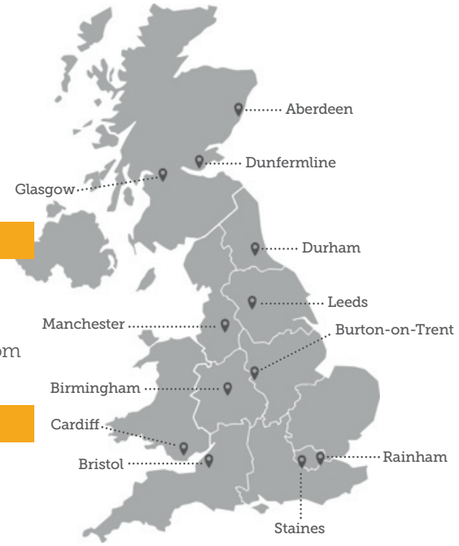

IPAF Rental+ L.O.L.E.R.

> The team at MEP Hire clearly understand the challenges we face and provided practical, safe, and innovative solutions that our operatives could get to grips with easily and quickly. It's refreshing to see a hire partner so focused on compliance and proactive problem solving – exactly what's needed on projects of scale and complexity.
