MEP Hire

Commercial Fit-out Specialists

Improving Safety & Increasing Productivity...

Hire With Us...

We provide a wide range of tool hire and access solutions to the UK's specialist building services trades.

As a member of Vp plc, we are part of a multinational group with nine operating divisions, providing the rental and sale of specialist products and associated services within the UK and overseas.

With a rich history spanning over 65 years, MEP Hire is uniquely positioned to ensure continued investment in our fleet and network. This allows us to offer our customers the most innovative and quality hire solutions available.

Specialists in Commercial Fit-out

Having worked with our customers to supply hire solutions to some of the largest fit-out projects in Europe, we have the equipment and expertise to make sure that you have the right kit and practices in place for your projects.

Our focus is on helping you to achieve a safe site environment, alongside increasing your productivity. We can work with your procurement teams to ensure your people understand what hire products will keep them safe, as well as exploring how they can speed-up fit times.

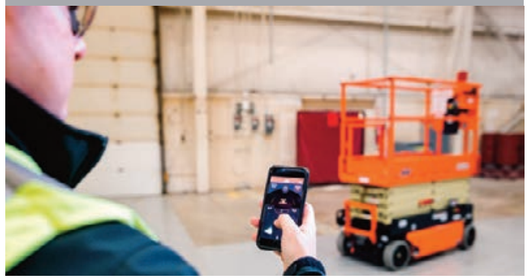

ACCREDITED MEMBER FIS

We are proud to be an accredited member of the FIS, the industry's top representative body for the £10 billion fit-out, finishes and interiors sector.

We can support you to ensure your sites run smoothly with designated drop-off and pick-up times, as well as tool familiarisation and training.

Sustainability

Sustainability is something that we take very seriously and we know that our customers do as well. Many of our hire products have been chosen for their environmental credentials, which in-turn helps you to better manage your environmental impacts and achieve your sustainability goals.

To find out more about our sustainability objectives, please visit: www.vpplc.com/esg-and-governance/

SCIENCE BASED TARGETS
DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

Choose **MEP Hire**

We've put safety at the heart of our offering...

With specialist knowledge of the commercial fit-out sector, we have worked with our suppliers to develop products that better address your safety and productivity needs.

Our team of dedicated engineers receive enhanced training to ensure that our fleet of hire products only enter the market when they are fully safe to do so and are compliant with all associated regulations.

See the benefits of...

- One of the largest hire fleets in the UK, with capacity to support the largest demands
- Innovative CORE RFID process for LOLER certification and compliance
- Support to prevent unauthorised use of hire products through our range of accessories, ensuring only competent and experienced staff can access our machinery
- Thorough and fully independent inspections to meet LEEA and IPAF obligations
- Support with access to training, certifications and machine familiarisation
- Dedicated team of engineers across the UK, reducing downtime for faults and servicing
- Additional safety features such as MEWP tags, anti-climb side guards, tool tethering, telematics and anti-entrapment when working at height.

Commercial Fit-out Specialists

Working at Height

No matter what your access needs, our range of LLA machines and Alloy towers have been designed to keep you safe, help you to comply with your HSE obligations and increase your productivity.

Working height up to 6m

MiTower Alloy Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

This quick assembly alloy access tower provides a safe and convenient platform for working at Low Level Access heights for up to two people.

- Reach heights of up to 6m
- Assemble in less than 15 minutes by one person
- Generously sized platform
- EN1004 Class 3 compliant
- Suitable for both internal and external use.

Working height up to 6.7m

Bridge Quick Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

A versatile and high quality mobile tower, offering a safe, yet speedy build. Provides an incredibly stable working platform with a generous working area.

- Fast assembly
- Six options to choose from depending on your desired working height
- Provides platform heights between 1.7 - 4.7m
- Choose working heights of 3.7 - 6.7m
- Suitable for both internal and external use
- Tower components compliant with BS EN 1004-1, bridging components compliant with BS 1139.

Working height up to 6.7m

MiStairs Alloy Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

A safe, quick and easy to assemble alloy tower, providing a strong and robust access option around staircases. Suitable for one-person operation.

- Easy to assemble in just 20 minutes
- Available in a range of working heights from 4.2 - 6.7m
- Compact design means it is the ideal scaffold to move into a narrow stairwell
- Circular welded and pinched claw-brace connections make it the strongest, most stable scaffolding of its kind.

Working height up to 14.2m

Eiger 250 and Safe Quick (AGR) Alloy Access Towers

For Hire Codes, please contact an MEP Advisor or visit our website.

A versatile and EN1004 compliant LLA scaffold tower, suitable for both internal and external use by up to two people. **Choose our Safe Quick AGR option for added safety features, in a new lighter and easier to assemble construction.**

- Quick and easy to assemble
- Reaches working heights of up to 14.2m
- Compact advanced guardrail system
- Single and double width options
- Easy to use and assemble
- Lightweight and strong
- No ladder frame required
- Suitable for use by up to two people
- EN1004 Class 3 compliant.

Working height up to 32.2m

MiTower LiftShaft Alloy Access Tower

For Hire Codes, please contact an MEP Advisor or visit our website.

Reach heights in lift spaces and confined areas safely and quickly. Easy one person build and operation. Multiple size options available from 4.2 - 32.2m.

- Fast and easy set up
- Suitable for one or two people
- Stable, strong and robust
- Small footprint
- EN 1004 Class 3 and EN 1139 6 compliant.

Working height 5.4m

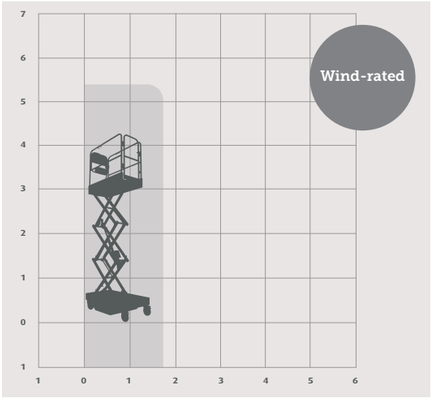

BOSS PA Scissor Lift

Hire Code: 020039

A versatile scissor lift, reaching heights of up to 5.4m indoors and 4.6m outdoors.

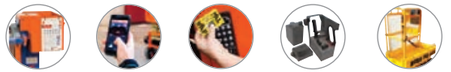

- Compact and easy to manoeuvre
- Indoor and outdoor capability
- Fits through standard doorways and passenger lifts
- Confined space handrail and anti-climb guards available for added safety in use.

Working Envelope

Working height	5.4m indoors / 4.6m outdoors
Platform height	3.4m indoors / 2.6m outdoors
Width	0.76m
Length	1.28m
Height	1.76m
Weight	375kg
Max load	250kg
Outdoor / indoor	Both
Wind rated	Yes

Materials Handling & Storage

With increasing legislation to protect operators from injury and work-related musculoskeletal disorders, MEP Hire work closely with manufacturers to offer ergonomically designed solutions that support compliance, whilst increasing productivity.

Armorgard Loadall LA750-Pro Trolley

Hire Code: 360166

Robust, swivelling wheels make light work of manoeuvring a fully loaded trolley – even through doorways and around corners!

- Unique space-saving trolley for transporting sheets of material
- Easily collapsed with storage provisions for the upright supports
- Unique H-frame design to manoeuvre easily around corners
- 750kg capacity.

Armorgard Loadall LA1500-Pro Board Trolley With Clamps

Hire Code: 360196

Designed to move plasterboard, wood, metal and other large-sheet materials around site. Features a side load facility with telescopic safety handle and adjustable clamps.

- Heavy duty swivel castors with brakes
- Side load facility with easy grab handles
- Powder-coated finish with anti-corrosive undercoat
- 1500kg capacity
- Clamps included.

Auto-braked Panel Trolley

Hire Code: 310160

Designed to enable safe, secure and easy transfer of goods and materials around site.

- Safe working load of 1 Tonne
- Two person operation
- Automatically brakes when stationery
- Conveniently located anchor points to secure load
- Compact footprint; fits commercial lifts
- Stackable for transport to site
- Forklift slots.

Armorgard Adaptakart Work Trolley

Hire Code: 360198

Take the strain out of loading, lifting and transporting large sheet-type materials with the Adaptakart from Armorgard.

- Ensures the safe and quick load and transportation of large sheet materials around site
- Features a pivoting rack that can hold and rotate boards through 90°
- In the horizontal position, Adaptakart doubles as a handy workbench
- SafeStop deadman braking system ensures the trolley remains still while loading materials
- 750kg load capacity.

Auto-braked Load Trolley

Hire Code: 310135

The Auto-braked Load Trolley is designed to enable safe, secure and easy transfer of goods and materials around the construction site.

- Enables easy transfer of heavy goods
- Compact footprint of 1010mm x 1560mm
- Safe working load of 2 Tonnes
- Two person operation.

Cutting Station 900S With Index Table & Saw

Hire Code: 310150

This mobile, multi-purpose work station has been designed to offer maximum safety, accessibility and durability when cutting materials on site.

- Easy manoeuvrability around site
- Durable steel construction
- Internal 110V power source
- Lockable for safe storage of materials
- Lockable cabinet beneath workbench area
- Includes index table and mitre saw
- External dimensions (including arms extended): W3100mm x D780mm x H1670mm.

Materials Handling & Storage Product Information

Tool Tethering

Dropped Objects Rank in the UK's Top 3 for Workplace Killers!*

Save lives and improve your productivity with our robust, tried and tested range of tool tethering options.

Clever Tool Tethering That Stops Drops!

Adding tool tethering solutions direct to the access machine is the safest possible way of ensuring tools aren't dropped. MEP Hire offers a full range of tethering solutions from NLG; who engineer the safest tool lanyards available. We have also worked with suppliers to allow tools to be fixed direct to the machine via innovations like tool trays.

Just follow these three simple steps to ensure your site is a safe one...

1. **Create a Tether Point** - a load rated point that allows you to connect your lanyard to your tool.
2. **Create a Lanyard** - depending on your environment choose either coil, bungee, fixed webbing or retractable.
3. **Select an Anchor Point** - attach your lanyard to a suitable anchor point, such as a wrist band, workbelt or harness.

*HSE Riddor Report, 2022/23

Consumables

MEP Hire offer a wide range of consumables and PPE that will support you to be compliant with your safety obligations and protect workers.

Items include

- Alloy saw blades
- Vacuum bags
- Tags (MEWP/SCAFF)
- Gloves
- Helmets
- Masks
- Goggles.
