MEP Hire

Mechanical, Electrical & Low Level Access Specialists

Hire With Us...

MEP Hire is the UK's market leading building services rental specialist. We provide tooling and accessories, materials handling solutions and Low Level Access equipment to the UK's M&E, Plumbing and Commercial Fit-out trades.

As a member of Vp plc, we are part of a multi-national group with nine operating divisions, providing the rental and sale of specialist products and associated services within the UK and overseas.

With a rich history spanning over 65 years, MEP Hire is uniquely positioned to ensure continued investment in our fleet and network. This allows us to offer our customers the most innovative and quality hire solutions available.

Improving Safety & Increasing Productivity

With increasing legislation to protect operators from injury and work-related musculoskeletal disorders, MEP Hire work closely with manufacturers and designers to offer ergonomically designed solutions that support compliance, whilst increasing productivity.

Ergonomically Designed Solutions

Wide Range of Hire Equipment

Musculoskeletal disorders accounted for

52%

of work-related absences in the construction sector for 2024

HSE, CONSTRUCTION STATISTICS IN GB 2024

Surelock Pro Eco Patented Technology

The SureLock Pro (SLP) Eco range is produced using 85% less welding, 92% power consumption reduction and a carbon reduction of 71.4%. SLP delivers annual carbon savings of 5,950kg CO2 (5.95 Tonnes) - based on 1,000 units. Look out for this symbol where SLP is available on some of our hire fleet items.

SOLD SECURE TESTED TO REDUCE CRIME

SLP products are also Sold Secure Silver certified to ensure materials within benefit from enhanced protection against theft.

Choose **MEP Hire**

We've put safety at the heart of our offering...

With our specialist knowledge of the Construction Industry, we truly understand your requirements. We work in collaboration with our suppliers to further develop products that better address your safety needs when moving, securing and storing materials on-site.

Our team of dedicated engineers receive enhanced training to ensure our fleet of equipment only enters the market when it is fully safe to do so and compliant with all associated regulations.

See the benefits of...

- Large range of equipment designed to reduce manual handling, increase safety and optimise efficiency
- Fully tested and safe equipment delivered across the UK from 13 dedicated hire branches
- Support with access to training and machine familiarisation
- Dedicated team of engineers across the UK, reducing downtime for faults and servicing
- Products specifically selected to support your sustainability priorities.

The Complete Solution...

We can offer you a complete range of materials handling solutions, suitable for a wide range of applications, including; mechanical, electrical, HVAC and fit-out environments.

Moving Materials

Solutions for safe and efficient movement of a wide range of materials on-site

Auto-braked Range

The ultimate in safety - brakes are applied, and on, when units are stationary.

Auto-braked Load Trolley

Hire Code: 310135

The Auto-braked Load Trolley can withstand loads of up to 2 Tonnes. It's conveniently located anchor points enable the load to be strapped down for safe transit. With a compact footprint, the trolley can also fit through standard doorways and in commercial lifts.

- Enables easy transfer of heavy goods
- Compact footprint of 1010mm x 1560mm
- Safe working load of 2 Tonnes
- Two person operation
- Brakes applied and on when stationary
- Stackable
- Forklift slots both sides.

Auto-braked Panel Trolley

Hire Code: 310160

The Auto-braked Panel Trolley is designed to facilitate the safe movement of flat panels, for example plasterboards, glass panels and other materials.

- Features SLP technology - a sustainable choice
- Safe Working Load of 1000kg
- Quick and easy to load from one side
- Easy to push, pull, steer and park
- Turns 180 degrees on its own axis for easy manoeuvrability
- Easy adjustment for standard panel sizes up to 3000mm.

Auto-braked Ductwork Rack

Hire Code: 310130

With a mandatory requirement to cover all ductwork stored on-site, this cleverly designed solution does just that; whilst helping you to improve efficiency, prevent accidents and reduce wastage costs.

- Wrap-over protective cover sheets – easily secured with bungee cords
- Easy, two person manoeuvrability
- 750g load capacity
- Adjustable, two tier storage.

Trolleys

We offer a wide range of trolleys designed to secure and manoeuvre a wide range of materials efficiently around site.

Loadall LA750 PRO Trolley With Clamps

Hire Code: 360166

This ingenious trolley is a game-changer when it comes to moving plasterboard, wood, metal and other large-sheet materials around site.

- Unique space-saving trolley for transporting sheets of material - can be folded down when not in use
- Easily collapsed with storage provisions for the upright supports
- Unique H-frame design to manoeuvre easily around corners
- Safe working load of 750kg.

Loadall LA1500 PRO Auto-braked Board Trolley With Straps

Hire Code: 360196

Robust, swivelling wheels make light work of manoeuvring a fully loaded trolley – even through doorways and around corners! Features a clamping system to secure loads when in transit and a telescopic handle for enhanced safety. Can be folded down for easy storage.

- Features Auto-braked technology
- Unique trolley for storing and transporting sheets and lengths of material
- Telescopic safety handle and adjustable clamps
- Unique H-frame design to manoeuvre easily around corners
- Side load facility with easy grab handles
- Safe working load of 1500kg.

Adaptakart Auto-braked Work Trolley

Hire Code: 360198

Designed for large sheet materials, Adaptakart features a pivoting rack to hold and rotate boards through 90°; making them safer to slide and load. The SafeStop deadman braking system means greater control on slopes and while loading, with a 750kg load capacity and forklift pockets to make light work of large and heavy loads.

- Features Auto-braked technology
- Ensures safe and fast loading and transportation of large sheet materials around site
- Features a pivoting rack that can hold and rotate boards through 90°
- In the horizontal position, Adaptakart doubles as a handy workbench
- SafeStop deadman braking system ensures the trolley remains still while loading materials
- Safe working load of 750kg
- Forklift pockets.

Pallet Trucks

We stock a wide range of options to suit the type of site you are working on and task in-hand.

Manual Pallet Trucks

Hire Codes:
Standard: 367200, **Wide:** 367210,
Long reach: 367215, **Braked:** 367205

Designed for the transportation of long palletised goods and box pallets.

- Heavy-duty, ergonomic soft-touch handle
- Three position control lever offering progressive hand operated lowering
- Suitable for both Euro pallets and larger 4-way entry pallets
- Robust steel constructed frame and forks
- 180 degree steering arc
- 2500kg load capacity
- Brake only on hire code: 367205.

Powered Pallet Truck

Hire Codes:
Light 1500kg: 367220, **Battery only:** 367225

A powered, convenient solution that can be used across any site to make your job easier, combining manual and electric function for easy usability.

- High speed, yet silent motor
- Front OLED display provides valuable info on truck activity and allows performance setup
- Electric/manual switch - switching to manual mode enables easy movement in narrow spaces and in eventual case of low battery
- 1500kg load capacity.

Please note: product provided may vary from images shown.

Moving Materials Product Information

Mobile Pipe Rack

Hire Code: 250125

This 2 Tonne Pipe Rack is designed for the easy and safe storage and movement of pipe and conduit. In transport, or when not in use, they can be stacked where space is limited.

- Strong, durable and load tested to 2 Tonnes
- Pipe support arms fold flat for easy storage and transportation
- 150mm rubber tyre wheels with two swivel castor braked wheels
- Welded construction with industrial powder-coated finish
- Complete with uprights for the stacking of units
- Welded mesh base for extra storage of boxes
- W: 1700 x D: 800 x H: 1910mm.

Lifting Materials

Equipment to support the safe lifting of materials to where you need them to be

Porta Gantry

For Hire Codes, please see page 15.

The top quality and highly durable Porta Gantry is lightweight and extremely strong. This portable lifting system can be manually assembled, using just four bolts and can safely lift materials, making it ideal for multiple applications. Porta Gantry is available in a range of configurations and can be customised in line with your requirements. Choose your trolley, add your frame and then choose the correct size beam for your needs.

- EN795:2012 & ATEX Certified
- Can support goods and personnel lifting
- Can be moved whilst in use
- Beams and A-frames can be interchanged
- Ergonomic 360° swivel-locking castors, as standard
- Ease of assembly including height and span adjustment
- Anodised for increased corrosion resistance
- Engineered designs and bespoke sections reduce weight, providing lightweight portability.

Lifting

Our range of equipment for lifting materials makes manoeuvring loads safer and more efficient.

Genie Superlift Advantage Range (SLA)

Hire Codes:
SLA-10: 360020, **SLA-15:** 360025,
SLA-20: 360030, **SLA-25:** 360035

The Genie Superlift Advantage lifts are purpose-built, manually operated material lifts that offer multiple load-handling options. A range of accessories are available to complement the SLA range on page 15.

- Easy and quick to set up
- Removable attachments for easy storage and loading
- Multiple load-handling options
- Glide rails allow one person to easily load and unload the unit
- Strong and lightweight for easy transport and storage
- Multibase winch and load handling options available.

Scissor Lifting Table

Hire Code: 367165

This ingenious scissor lift table provides operators with a versatile platform that can be applied to multiple tasks.

- Large table top at 1016mm x 510mm
- Heavy duty poly wheels with both rear wheels braked - both engaged by a single action
- Foot operated hydraulic raising system
- Hand operated lowering control lever
- Overload bypass valve
- Heavy duty steel construction for high durability
- 1000kg capacity.

Cutting Materials

Solutions designed to reduce noise and dust for safe and efficient on-site cutting

Cutting Materials

Our range of multi-purpose material cutting stations reduce dust and noise to keep users safe, whilst increasing on-site productivity.

Surelock Pro Eco Patented Technology

Cutting Station Plus 1200S

Hire Code: 310084

Designed and manufactured in the UK using SLP technology, these mobile work stations are the sustainable and safe choice for cutting multiple materials on-site. They provide maximum protection for the user, reducing both the dust and noise associated with sawing, chopping and cutting. The innovative 'cut-out' front provides easy access to the work station, whilst its castors allow for easy movement across site.

- Operator works outside cutting area
- Fire resistant 'O' Rated foam minimises fire risk and noise pollution
- Safety microswitch disengages tool when screen is lifted
- Safety light is on when unit is powered
- 110v power supply
- Internal sockets and light within the cutting area
- Adjustable multi-function extending support arms
- Thick rubber mat provides good grip for a chop saw and reduces vibration
- Lockable cabinet beneath workbench area
- Powder coated for maximum durability
- Internal dimensions (cutting area): W1170mm x D560mm x H770mm
- Internal dimensions (storage area): W1230mm x D700mm x H650mm
- External dimensions (including arms extended): W4065mm x D775mm x H1740mm
- Weight: 295kg

Product Features:

5-lever deadlock | Power supply 110V | Light supply | Forklift skids | Heavy-duty 6" castors | Fire resistant | Suitable for site

Cutting Station 900S & 900S With Index Table & Saw

Hire Codes:
900S: 310155, **900S With Index Table & Saw:** 310150

As with the 1200S, the 900S also offers maximum safety when cutting materials. Additionally, its compact design makes it suitable for use in situations where space is limited. Choose the option with an in-built index table and TCT chop saw for everything you need set-up and ready to get cutting!

- Operator works outside cutting area
- Compact design for sites with limited space
- Fire resistant 'O' Rated foam minimises fire risk and noise pollution
- Safety microswitch disengages tool when screen is lifted
- Safety light is on when unit is powered
- 110v power supply
- Internal sockets and light within the cutting area
- Adjustable multi-function extending support arms
- Thick rubber mat provides good grip for a chop saw and reduces vibration

Surelock Pro Eco Patented Technology

- Lockable cabinet beneath workbench area
- Powder coated for maximum durability
- Internal dimensions (cutting area): W900mm x D735mm x H800mm
- Internal dimensions (storage area): W900mm x D690mm x H600mm
- External dimensions (including arms extended): W3100mm x D780mm x H1670mm
- Weight 240kg.

Product Features:

5-lever deadlock | Power supply 110V | Light supply | Forklift skids | Heavy-duty 6" castors | Fire resistant | Suitable for site

Storing Materials

Safe, secure and compliant solutions for storing materials on-site

Storing Materials

Practical and secure on-site storage solutions to mitigate against loss or damage.

Fittings Cabinet With Storage Bins

Hire Code: 310077

Secure and move all of your fittings around site with ease with this moveable and lockable fittings cabinet made from heavy duty steel.

- 150mm rubber tyres with two swivel castors and brakes easily movement around site
- Welded construction with industrial powder-coated finish for durability
- Four, 5 lever dead locks with secure anti theft door
- Cable entry hole for internal charging
- Three reinforced steel shelves and 10 plastic storage bins (bottom shelf slides away for larger items)
- Anchor points "tie down & tether", fork lift access slots
- W:1200mm x D:550mm x H:1730mm
- Weight: 140kg.

Heavy-Duty Mobile Workbench & Vices

Hire Code: 310079

This handy workbench has been designed to make manual handling safer and improve efficiency and productivity.

- Safe, secure and easy to move around site
- Includes 100mm material vice and 150mm pipe vice
- Cable entry hole for internal charging and secure lock
- 150mm rubber tyres with lockable swivel castors for ease of movement
- Welded construction with industrial powder-coated finish for durability
- Fixed shelf brackets and heavy duty steel shelf for superior load bearing capability
- Anchor points 'tie down and tether' for fork lift access slots
- W: 1230mm x D: 600mm x H: 910mm
- Load tested to 500kg
