Welcome to the **MEP Hire** Catalogue

We provide mechanical, electrical, press-fitting and low-level access products to the UK's Specialist Building Services and Commercial Fit-out trades.

About MEP Hire

As a member of Vp plc, we are part of a multi-national group with nine operating divisions, providing the rental and sale of specialist products and associated services within the UK and overseas.

With a rich history spanning over 65 years, MEP Hire is uniquely positioned to ensure continued investment in our fleet and network. This allows us to offer our customers the most innovative and quality hire solutions available.

Why Choose Us?

A reputation built-on quality, service and reliability. Our staff are truly experts in what they do, which means they are best-placed to advise you on the right solutions to achieve your goals. Our engineers and examiners are both LEEA and IPAF CAP certified and fully-equipped to carry out on-site repairs.

National network of 13 branches across the UK, making us best placed to deliver your hires when, and where, you need them.

One of the most comprehensive, youngest and best-maintained fleets in the industry; helping you to stay on-track with quality hires, every time.

Champions of innovative products. We bring you access to the latest solutions on the market – all designed to improve your safety and increase your productivity.

Supporting small-scale projects to landmark sites. We provide expert support and guidance from the very start of a project, through to completion. Our on-site Toolbox Talks and familiarisations will ensure you can be proficient using our equipment quickly, allowing you to tackle your tasks confidently and effectively. We can also arrange in-house IPAF and PASMA training on your behalf.

FORS Gold Certification across our entire network. We have demonstrated best practice across several areas of operations and fleet management, including; fuel efficiency, noise reduction, road risk, driver training and wellbeing, as well as communication.

Committed to Net Zero. As part of the Vp Group, we have pledged to achieve our Net Zero goals by 2050. You can find out more at: www.vpplc.com/esg-and-governance/

Our Customer Journey

Adding Value At The Heart Of Your Business...

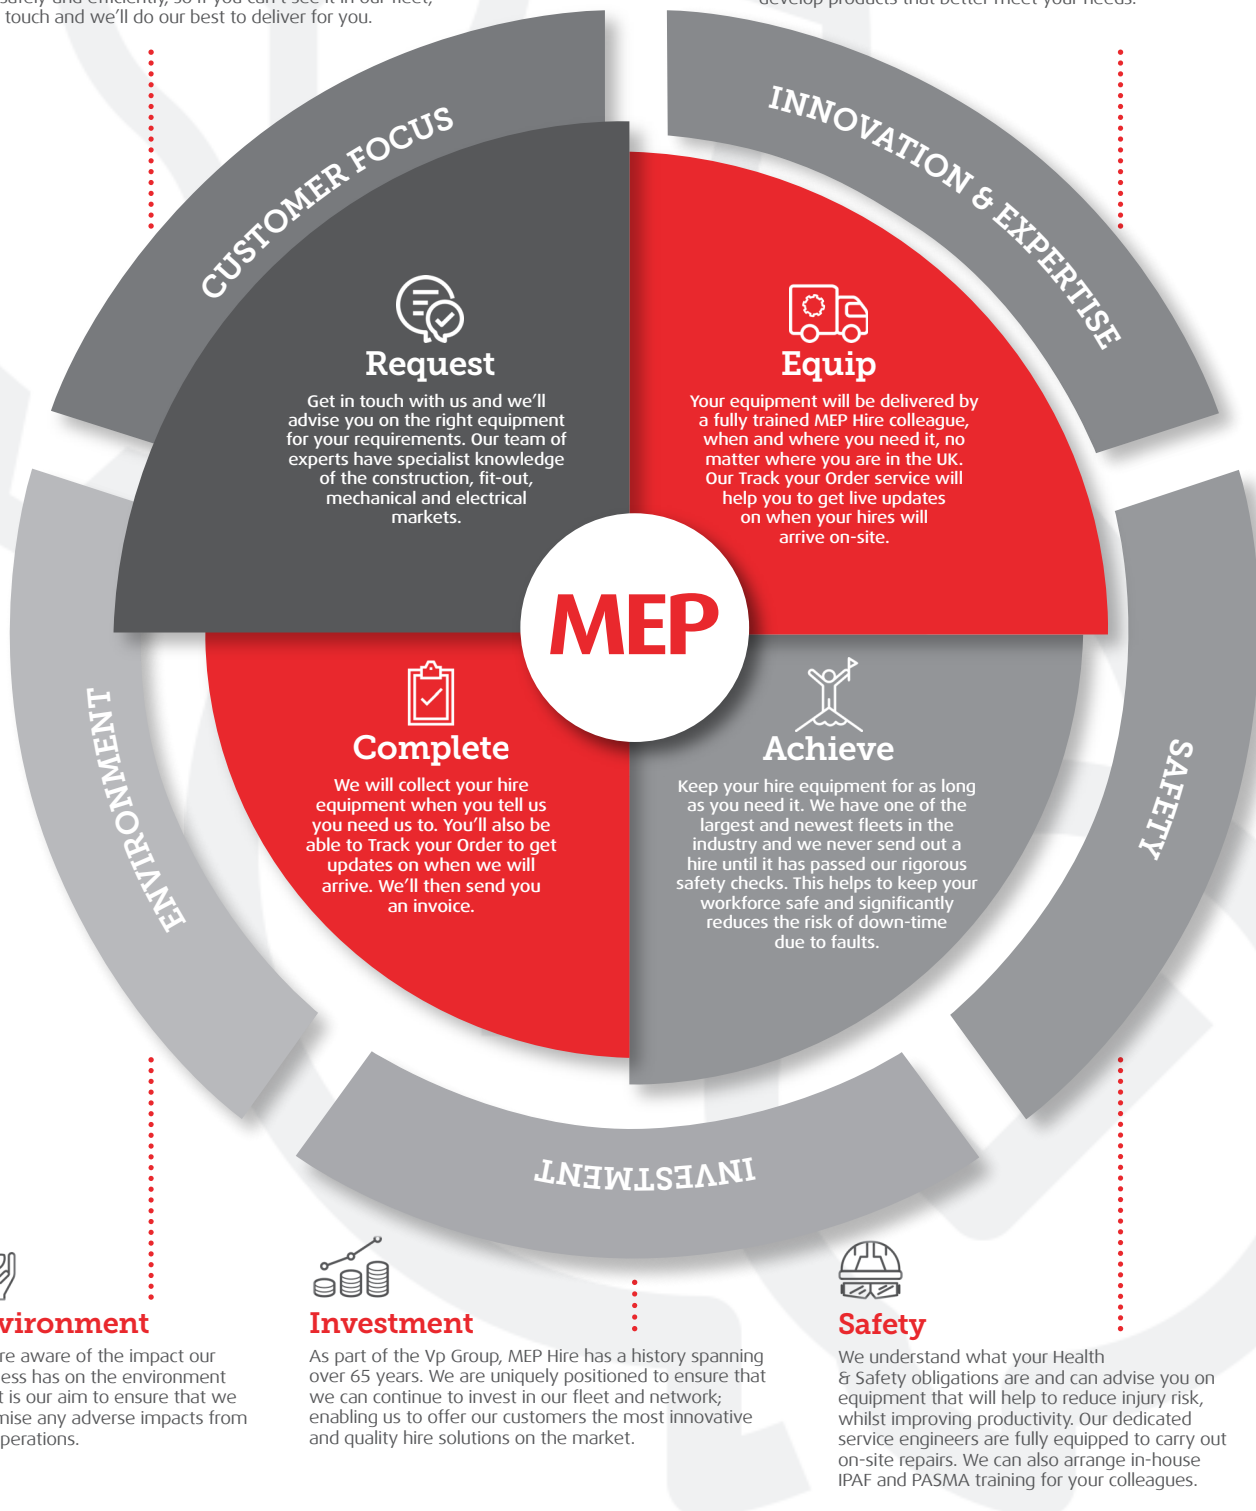

Customer Focus

We have put your needs at the very heart of our business. With coverage across the UK, and one of the largest and best maintained fleets in the industry, we pride ourselves in not only meeting, but exceeding your expectations. We're confident that we can find whatever you need to get the job done safely and efficiently, so if you can't see it in our fleet, get in touch and we'll do our best to deliver for you.

Innovation & Expertise

We pride ourselves in the specialist knowledge, expertise and skills that we have built-up within our business. Our experts can help to ensure you have the right solutions, whatever your needs. We have close partnerships with manufacturers and we listen to what our customers tell us. This enables us to help develop products that better meet your needs.

National Coverage

With 13 locations spread across the UK, we have truly national coverage.

Hire With Confidence

Tracking your Hires

Our **Track My Order** system can be used to inform you of status updates on your hire delivery or collection. Accessible through a web link, or via the My Account Area on our website, we provide order details, expected delivery times and user guides for your hire equipment.

You can also sign-up to receive **SMS** or **Email Notifications** on delivery updates, if that's what you prefer. Our drivers will provide **Proof of Delivery** and **Proof of Collection** with every hire and off-hire, including providing images and signatures at point of drop-off or collection.

Track Your Hire

Keep You Informed

Track on Multiple Devices

Proof of Delivery/Collection

Account Management

Live Hire Reports

As part of our account management service to our customers, we can provide you with Live Hire Reports at your chosen frequency. Reports cover all items on hire, as well as details on the next ROTEL date and any scheduled collections.

Safety & Compliance

We put **safety** and **compliance** at the very heart of our business to ensure the equipment we hire out is safe to use and will be compliant with all associated safety checks.

With this in mind, your hire agreement with us covers the following:

- Innovative corerfid process for LOLER Thorough Inspections and Certification
- Trained and accredited inspectors to meet IPAF CAP (Competent Person) and LEEA Standards.

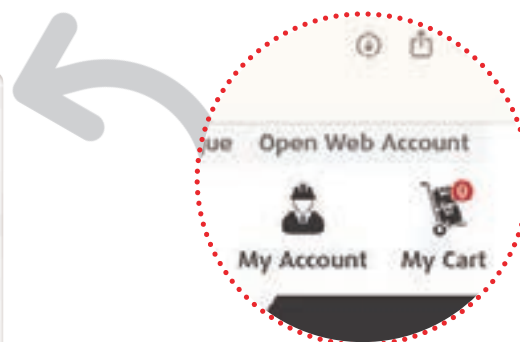

Protect accidental scheme: We provide an accident scheme to give you peace of mind that no additional charges will be made should accidental damage occur to your hire equipment. Further details are available at the point of hire.

Order Online

Did you know that you can now manage your MEP Hire account online?

We recently re-launched our website and now provide our customers with the ability to order hire equipment and manage their account online. Our website offers you 24/7 access to our hire equipment, with **Live Chat** functionality during office hours.

Set Up A Web Account

To set up a Web Account, simply visit: www.mephire.co.uk and click 'Open Web Account'.

You will then be asked to complete a short form. Once you confirm your email address, your Web Account will be set up.

Link Your Web Account To Your Hire Account

If you already have a Hire Account, we will link this to your Web Account. Once complete, you will be able to access your agreed terms and prices on our website. If you need to set-up a Hire Account, one of our Advisor's will help you to do that.

ESG: Environment & Sustainability

Vp Group's near-term, long-term and net-zero targets have been validated by the Science-based Targets Initiative (SBTi).

YOU CAN FIND OUT
MORE AND EXPLORE
OUR INTERACTIVE
ROADMAP TO NET
ZERO BY 2050 HERE

SCIENCE
BASED
TARGETS

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

Here is just some of the key initiatives Vp Group has been working on...

We continue to invest into increasingly sustainable and electrified rental fleet options, with the aim of reducing carbon emissions at the point of manufacture and use.

We have committed to science based emissions reduction targets which were submitted to the Science-based Target initiative for validation in December 2022.

The Group has achieved Gold status with the Plant Charter for excellence in our commitment to reducing carbon emission and air pollution.

We have achieved ISO 50001 – Energy Management System certification across all UK sites.

We have made significant headway in mainstreaming sustainability within our procurement functions through publishing a sustainable procurement policy and integrating new supplier management software.

We are supporting three new nature conservation projects focussed on the restoration of seagrass meadows, agricultural advisor training and the reintroduction of Lynx to the UK.

You can find out more at: www.vpplc.com/esg-and-governance/

We are also pleased to partner with The Inter Group on the creation of this brochure, who are able to offer carbon balanced paper which has been offset by direct action through the World Land Trust.

Proud To Be A Part Of The

Vp plc Group Of Businesses

Vp plc Airpac Rentals
Energy Industry Solutions

Airpac Rentals Energy Industry Solutions is an international business supporting a wide range of oil and gas markets, servicing well test, pipeline testing, rig maintenance and LNG markets worldwide.

Vp plc Brandon Hire Station
The UK's Tool and Equipment Hire Specialist

Brandon Hire Station is a leading provider of tools and specialist rental products to industry, construction and home owners across the UK.

Vp plc ESS
Safety, Survey, Test & Measurement

ESS is a specialist provider of safety, survey, communications and test and measurement equipment.

Vp plc Groundforce
Specialist Construction Solutions

Groundforce is the market leading rental provider of excavation support systems and specialist products for the water, civil engineering and construction industries.

Vp plc MEP Hire
Mechanical, Electrical & Low Level Access Specialists

MEP Hire provides mechanical, electrical, press-fitting and low level access products to the UK's building services and commercial fit-out trades.

Vp plc Torrent Trackside
Railway Plant. Railway People.

Specialist suppliers of rail infrastructure, portable plant and related trackside services.

Vp plc TPA
Temporary Access Solutions

TPA is a leading European supplier of temporary access hire solutions, specialising in providing portable access equipment such as portable roadways, walkways and ground protection, as well as rapid rail access.

TechRentals

TR is Australasia's leading technical equipment rental group providing test and measurement, communications, calibration and audio visual solutions.

Vp plc UK Forks
Materials Handling Specialists

UK Forks is one of the UK's leading specialist providers of telescopic handlers and tracked access platforms.

Commercial Fit-out

We truly are specialists in the Commercial Fit-out sector, we've been a key supplier on some of the largest projects in Europe, ensuring construction firms have access to the latest tools and equipment.

Our focus is on safety and productivity and we can support you to identify the best solutions for your projects' requirements. So, whether you need access machinery or innovative ideas for moving materials around site, then we can help with:

- Access equipment
- Lighting and power
- Dust and noise reduction
- Materials handling
- Site storage and security
- HVAC.

MEP Hire is proud to be an accredited member of the FIS, the industry's top representative body for the £10 billion fit-out, finishes and interiors sector.

Feature Products...

Key Features

Adaptakart Work Trolley

Hire Code: 360198

Take the strain out of loading, lifting and transporting large sheet-type materials with the Adaptakart.

- Ensures the safe and quick load and transportation of large sheet materials around site
- Features a pivoting rack that can hold and rotate boards through 90°
- In the horizontal position, Adaptakart doubles as a handy workbench
- SafeStop deadman braking system ensures the trolley remains still while loading materials
- 750kg load capacity.

Working Envelope

Key Features

Monkey Tower Desk Surfer

Hire Code: 010235

An innovative, unfolding scaffolding system ideal for working in a live environment over low level obstructions, such as desks.

- Easily manoeuvrable, weighs just 90kg and fits through standard doorways and in lifts
- Single person operation, easy to set up in just five minutes
- Assembled at ground level with a single piece of equipment
- Reaches a maximum working height of 3.9m
- Minimum load 90kg to a maximum load of 150kg.

Key Features

Safe Quick AGR Alloy Access Tower

Hire Code: see page 33

A versatile and EN1004 compliant scaffold tower, suitable for both internal and external use by up to two people.

- Reach working heights of up to 14.2m
- Easy to use and assemble
- Lightweight and strong
- Compact Advanced Guardrail System (AGR) – safer to use and quicker to assemble
- Single and double width platform options available
- Available in platform lengths of 1.8 and 2.5m
- No ladder frame required
- EN 1004 Class 3 compliant.

Key Features

MiStairs Alloy Access Tower

Hire Code: see page 30

A quick and easy to assemble alloy tower, providing a safe, strong and robust access option around stair cases. Suitable for one person operation.

- Easy to assemble in just 20 minutes
- Available in four different working height options from 4.2 - 6.7m
- Compact design means it is the ideal scaffold to move into a narrow stairwell
- Circular welded and pinched claw-brace connections make it the strongest, most stable scaffolding of its kind.

Electrical Contractors

We have been providing hire tools to the electrical sector for over 20 years.

It's not just about hire tools; we can provide you with guidance, surveys, support, tool familiarisation and training.

We carry all the top brands, in the latest technology, to help you to install, crimp and cut electrical cables. We can also support your access needs to ensure you comply with your health and safety obligations.

Feature Products...

Cable Cutting and Crimping

Hire Code: see pages 48-49

MEP Hire stock a wide range of cable management tools suitable for multiple electrical settings.

- Available in a wide range of sizes, options and applications
- Easily portable
- Designed to maximise efficiency and productivity.

Key Features

Spoolkart

Hire Code: 360199

Store, organise and operate multiple cable spools with this anti-tangle dispensing system with built-in, lockable storage.

- Mobile kart for storing, organising and operating with multiple cable spools
- Puncture proof, solid rubber wheels for easy transportation across multiple terrains
- Robust 2.5mm steel construction with powder coating for maximum durability
- Three easy-to-load spool bars supplied with the unit as standard
- Three anti-tangle cable dispensers supplied as standard for ease of use
- Purpose designed cut out holes for storing pliers, wire cutters, screwdrivers and other hand tools
- A lockable storage box on the back for housing small tools – keeping your equipment accessible and safe.

Key Features

Cable Drum Jacks

Hire Code: 375600

Pair of jacks perfect for lifting, supporting and distributing low and high voltage cable drums around site. Allows for efficient cable laying.

- Easy to handle
- Simple to operate
- Designed for stability, even on soft ground
- 6 Tonne capacity
- Maximum drum diameter 1900mm
- Maximum weight per pair 45kg.

Working Envelope

Key Features

Pecolift With Vertical Handrail

Hire Code: 020030

Battery and electric power-free, the Pecolift reaches heights of up to 3.5 metres and is elevated by simply rotating a handle.

- Elevates to 3.5m
- Maximum load of 150kg
- Lightweight and compact for easy manoeuvrability
- Reduces risks from dropped tools
- Eliminates platform clutter from deck, preventing trip and sprain hazards.

Fire Protection

With a high-level of experience within the fire protection sector, MEP Hire offer an extensive range of specialist products to install, test and maintain complex fire protection and sprinkler systems.

We provide best in class tools and equipment, supporting you both on and off-site. Our focus is on increasing safety, whilst improving your productivity.

We offer a wide range of products that will support you with:

- Passive fire protection
- Fire stopping, including sprinkler systems
- Structural steelwork protection
- Fire compartmentation
- Thermal insulation.

Feature Products...

Key Features

Mobile Fittings Cabinet With Storage Bins

Hire Code: 310077

This mobile fittings cabinet is an ideal solution for the safe and secure storage of materials on-site that may need to be moved around.

- 150mm rubber tyres with two swivel castors and brakes for easy movement
- Welded steel construction for durability
- Secure anti-theft door with four, 5-lever dead locks
- Three reinforced steel shelves and 10 plastic storage bins included.

Key Features

Mobile Pipe Rack

Hire Code: 250125

Safely store and move pipes around site with this strong and durable pipe rack.

- Strong, durable and load tested to 2 Tonnes
- Pipe support arms fold flat for storage and transportation
- 150mm rubber tyre wheels with two swivel castor braked wheels.

Roll Groovers

See page 62

No matter whether you are grooving thin wall stainless, copper or thick walled carbon steel pipe, we stock a wide range of manufacturers recommended for roll groovers, including; Victaulic, Grinnel Gruklok, SPF and VSH Shurjoint.

JLG 1530L Micro Scissor Lift

Hire Code: 020055

Reach working heights of up to 6.57 metres safely and efficiently. Lightweight and easily manoeuvrable, this machine fits through standard doorways as well as personnel lifts and is suitable for both indoor and outdoor use.

- Highly manoeuvrable – easily fits through standard doorways and personnel lifts, weighing just 880kg. Load capacity of 227kg
- Direct Electric Drive system ensures improved efficiency through increased run times and reduction in faults
- Unique Variable Lift Technology enables you to work at greater inclines (up to 3%), whilst the machine display offers guidance on what is safe
- Access handling information and guidance directly from the machine; allowing operators to become confident quickly.

Key Features

Heating, Ventilation & Refrigeration (HVAC)

We are focussed on delivering solutions that will enable you to become more efficient and productive, whilst giving you confidence that you're creating the right environment for your customers.

Our hire solutions put safety at their heart; supporting your compliance requirements, whilst being easy to use and considerate to the environment.

We offer a complete range of solutions, including:

- Access equipment
- Ductwork testing
- Materials handling
- Site storage and security.

Feature Products...

Key Features

ALF150 Duct Leakage Tester

Hire Code: 250168

The ALF150 provides you with an all-in-one instrument, covering everything you need to test for air leakage under positive and negative pressure. It's quick, easy to use and weighs just 20kg; meaning it's easy to manoeuvre around site.

- Instant results; data can be downloaded to an SD card or USB drive for your records
- Configure parameters to your needs, including; duct size, test pressure, test duration and class
- Fully calibrated with UKAS traceable certificate and user manual
- Power supplied via a 110V 50 / 60Hz AC connection
- Entire measurements range covered by three easy to change nozzles designed to ISO5801:2007
- Capable of generating an airflow of up to 150 litres per second and testing static pressure up to 2500Pa.

Key Features

ALF225 PDI Duct Leakage Tester

Hire Code: 250169

Compact and intuitive duct leakage tester.

- Lightweight, easily transportable and suitable for one person lift and operation
- Quick and easy test process
- Simple to use - familiarisation takes just a few minutes
- Everything you need for testing is included and results are provided instantly
- Data can be downloaded to an SD card or USB drive for your records.

Key Features

Auto-braked Ductwork Rack

Hire Code: 310130

MEP Hire's Ductwork Rack offers a flexible, moveable, safe and time-saving solution to the problem of on-site ductwork storage. With a mandatory requirement to cover all ductwork stored on-site, this cleverly designed solution does just that; whilst helping you to improve efficiency, prevent accidents and reduce wastage costs.

- Wrap-over protective cover sheets – easily secured with bungee cords
- Easy, two person manoeuvrability
- 750g load capacity
- Autobrake feature for added safety
- Adjustable, two tier storage.

Key Features

Indoor Split Hoist

Hire Code: 365600

Eliminate the risk of drops and injury and speed-up fit times when installing A/C cassette type units with the Indoor Split Hoist. Attaches quickly and easily to M8 and M10 stud, eliminating the need for manual lifting and handling.

- Attaches to M8 and M10 stud
- Portable and lightweight (comes in a carry bag)
- Lifts up to 4 metres in height
- Supports weights of up to 50kg
- Operated by cordless drill; 19mm socket ¼ inch drive adaptor
- One person operation
- Environmentally friendly option
- Outdoor option available, hire code: 365605.

Mechanical & Plumbing

MEP Hire is a trusted name in the industry, offering high quality and innovative tools for all your pipework and plumbing applications. We stock industry leading brands from Novopress, Viega and Geberit to Ridgid, REMS, Victaulic and Rothenberger.

We pride ourselves on being able to support all press-fit systems, sizes and materials with our extensive fleet. We also offer tools using the latest technologies, including Bluetooth, to help make your work more efficient and productive.

No matter what you want to achieve, we can help you with:

- Threading
- Cutting
- Grooving
- Freezing
- Bending
- Welding
- Pressure Testing
- Site storage and materials handling.

Feature Products...

Key Features

RIDGID Cordless Pipe Threader

Hire Code: 250215

Thread pipe quickly and precisely with this cordless, battery-powered threader.

- Cordless Freedom - complete up to 30, 2 Inch threads on a single charge with the FXP Battery Platform*
- Torque Reaction Shut-off - tool automatically shuts off if kickback is detected
- Workspace LEDs - LED near die head illuminates the work area
- End of Thread Indicator - LEDs indicate when the thread is nearing completion
- Palm Pad - eliminate the need to contact the diehead directly when starting the thread with a conveniently placed palm pad.

*Based on internal testing cutting 2 Inch NPT threads on schedule 40 steel pipe.

Key Features

RIDGID StrutSlayr Press Tool

Hire code: 220262

StrutSlayr attaches to RIDGID 32kN press tools to deliver a fab shop quality, burr-free cut in 5 seconds or less. No grinding or sawing sparks - just a clean, consistent shear cut with a pull of a trigger.

- Fab shop quality: burr-free cuts eliminate the need for extra filing
- Increased efficiency: clean, consistent cuts in 5 seconds or less
- Shear cut: no grinding or sawing sparks
- Portable: easy to move around site and mounts to RIDGID Tristands
- Built-in measuring guide: allows accuracy of cuts on-site
- Two size die heads available; 21x41mm (220265) and 41x41mm (220263).

Key Features

Surelock Pro Cutting Station 900S With Index Table & Saw

Hire Code: 310150

This mobile, multi-purpose work station has been designed to offer maximum safety, accessibility and durability when cutting materials on site. Includes a built-in index table and TCT chop saw, providing you with everything you need to safely cut materials on the job site.

- Manufactured using 85% less welding to create a greener product
- Compact design for sites with limited space
- Includes built-in index table and TCT chop saw
- Durable steel construction
- Internal 110V power source
- Lockable for safe storage of materials.

Key Features

Milwaukee 6" Leveling Tripod Chain Vice

Hire Code: 250117

Our 6 Inch Leveling Tripod Chain Vice delivers unmatched portability and steadiness for mechanical, electrical and plumbing tradesmen working with pipe, conduit and other materials.

- Adjustable leg for level alignments
- Multi-material vice, secures up to 6 inch pipe
- Quick, painless set-up
- Folds flat for storage and transportation.

Utilities & Fabricators

We offer a wide range of tools that will support all of your utilities and fabricator needs.

We have got you covered, no-matter what job you're facing, including:

- Electro-fusion equipment fitted with barcode readers and data download facilities
- Butt-fusion equipment
- Scrapers and squeeze-off tools
- Auxiliary products such as; stands, pipe supports, work benches and cutters.

Feature Products...

Key Features

Cricket Flip Pipe Trolley

Hire Code: 360177

Designed to be flipped on its side and, once pipe is loaded, can be flipped back onto its wheels to reduce manual handling issues.

- Capable of transporting up to 6.1m of pipe weighing up to 450kg
- Welded construction with a powder-coated finish
- Detachable steering arm for ease of storage
- Two heavy duty, solid rubber tyre wheels
- Load tested to 500kg.

Key Features

Wilkinson Star Welding Tent

Hire Code: 340150

Keep welding on-site in all weathers with this quick and easy to erect tent from Wilkinson Star.

- Fast to put up
- Offers greater flexibility for welding on-site
- Water tight and wind-proof
- Flame retardant
- Conforms to EN1598.

Brugg Pipework

See pages 46-47

We offer a range of Brugg Pipework products for various applications in press-fitting, covering press systems including: Brugg, Calpex, Everloc, Jentro, PEX and Rehau.

- Heating
- Industrial systems
- Filling and tank stations
- Cryogenic applications
- Bio Fermenter heating.

Key Features

HDPE Butt Fusion Welder

Hire Code: 256057

Powerful, easy-to-carry high-performance machine. Ideal for sanitary installations and installations of drain pipes, chimney reconstruction with PVDF pipes.

- For butt welding of Valsir, AKatherm, Coes & Wavisolo HDPE pipework in accordance with manufacturers instructions
- Extremely accurate and easy to use - achieves reliable, permanent, leak-free joints.

Working At Height

**Minimise Your Risks;
Improve Your Productivity**

Why Choose Low Level Access (LLA)?

The Working at Height Regulations 2005 aims to prevent death or injury caused by falls from height. Choosing the right equipment to support compliance, whilst improving productivity is easy with MEP Hire's comprehensive LLA range.

The Benefits Of LLA

Safe

Our entire range has been designed to be the safest possible way of working at height. Features include: fail-safe mechanisms, 'anti-surf' locking wheels, auto-brakes, safety gates and guards, as well as MEWP tags. Additional options to maximise safety even further are available as add-ons for many of our access machines.

Quick & Simple

MEP Hire's LLA range is easy to use and much faster than traditional ladders or podiums to erect. In fact, the Pecolift takes just 11 seconds to reach full elevation.

Efficient

Our machines will help you to reduce the time it takes to complete tasks; increasing your productivity. Some of our machines can be operated whilst elevated, so are superb at completing repetitive tasks across a large area or site.

Reliable

MEP Hire's machines are tested and calibrated after each hire. This means you only receive equipment that is ready for the job. Many of our non-powered access machines are battery and electric free so avoid any downtime whilst charging batteries.

Versatile

We offer a wide range of machines to suit multiple applications and working heights. Many of our machines are designed to fit through standard doorways and in most passenger lifts and have non-marking tyres, suitable for use on finished floors.

Cost Effective

Our machines have been designed for versatility and can be used for multiple applications. This helps you to manage your costs and maximise usage of hire equipment. MEP Hire allow you to continue to hire our equipment for as long as you need it.

Sustainable

Our range includes machines that are non-powered, self-propelled, oil free and low noise, making them the sustainable and environmentally friendly choice.

Safety Comes First...

All users must have the appropriate training to operate LLA machines and we can help you to access this training if you need it. Our staff hold IPAF Demonstrator Licences and delivery staff can provide a Machine Familiarisation Service.

Each of the machines in our fleet goes through rigorous safety checks, including the LOLER examination. This ensures our machines are always compliant to the latest regulations and will keep your operators safe.

MEP Hire offer additional safety features for many of our access machines, making them the safest in the market.

Working Safely At Height

Save lives and improve your productivity with our robust, tried and tested range of safe-guarding and tool tethering options.

Working at height remains a significant risk to the UK's construction trades. In fact, falls from height account for 51% of fatalities in the construction sector.*

By utilising MEP Hire's extensive LLA fleet, alongside our unparalleled experience and expertise, you can start to reduce the risk of injury and fatalities and the burden this has on your employees, as well as your business.

Our range of access equipment comes with pre-fitted or additional optional safety features; all designed to increase the safety of the machine whilst in use. Look for the details on what is available for each machine throughout this catalogue. We also provide access to operator training and MEWP Tags; all designed to increase proper use of machinery.

Additional Safety Features

Tool Trays With Integrated Tool Tethering

MEWP Tags

Safe Rack MHA

Track Unit

Anti-entrapment Secondary Guarding

Anti-climb Guard Rails

Telematics

Tool Tethering Saves Lives...

Adding tool tethering solutions direct to the access machine is the safest possible way of ensuring tools aren't dropped. MEP Hire offers a full range of tethering solutions from NLG; who engineer the safest tool lanyards available. We have also worked with suppliers to allow tools to be fixed direct to the machine via innovations like tool trays.

Tether Point

Create a secure attachment point on the tool.

Tool Lanyard

Choose the best tool lanyard for your task.

Anchor Point

Select between wristband, belt, harness or fixed point.

Storage

The most advanced tool safety bags and storage equipment designed for working at heights.

Full range available at: www.mephire.co.uk

For our full access range, please go to pages 34-37.

MEP Hire's Alloy Towers

Suitable for use indoors or outdoors, these towers will allow you to access heights up to 32.2m.

Working height up to 6.7m

MiStairs Alloy Access Tower

A safe, quick and easy to assemble alloy tower, providing a strong and robust access option around staircases. Suitable for one-person operation.

- Easy to assemble in just 20 minutes
- Available in a range of working heights from 4.2 - 6.7m
- Compact design means it is the ideal scaffold to move into a narrow stairwell
- Circular welded and pinched claw-brace connections make it the strongest, most stable scaffolding of its kind.

Platform Height	Hire Code	Platform Height	Hire Code
4.2m	MISTAIR42	6.2m	MISTAIR62
4.7m	MISTAIR47	6.7m	MISTAIR67

Working height up to 6.7m

Bridge Quick Access Tower

A versatile and high quality mobile tower, offering a safe, yet speedy build. Provides an incredibly stable working platform with a generous working area.

- Fast assembly
- Six options to choose from depending on your desired working height
- Provides platform heights between 1.7 - 4.7m
- Choose working heights of 3.7 - 6.7m
- Suitable for both internal and external use
- Tower components compliant with BS EN 1004-1, bridging components compliant with BS 1139.

Platform Height	Hire Code	Platform Height	Hire Code
1.7m	BQSS37/25	3.7m	BQSS57/25
2.2m	BQSS42/25	4.2m	BQSS62/25
2.7m	BQSS47/25	4.7m	BQSS67/25

Working height up to 8m

MiTower Alloy Access Tower

This quick assembly alloy access tower provides a safe and convenient platform for working at Low Level Access heights for up to two people.

- Reach heights of up to 8m
- 6m supplied as standard, 8m achieved when using 2m extension pack
- Assemble in less than 15 minutes by one person
- Available in two compact platform sizes
- EN 1004 Class 3 compliant
- Suitable for both internal and external use.

Option	Hire Code
One Person 4, 5, 6m Working Height	020111
Two Person 4, 5, 6m Working Height	020112
Two Person Extension Pack 1m	MTPLUSEXTN1
Two Person Extension Pack 2m	MTPLUSEXTN2

Working height up to 32.2m

MiTower LiftShaft Alloy Access Tower

Reach heights in lift spaces and confined areas safely and quickly. Easy one person build and operation. Multiple size options available from 4.2 - 32.2m.

- Fast and easy set up
- Suitable for one or two people
- Stable, strong and robust
- Small footprint
- EN 1004 Class 3 and EN 1139-6 compliant.

Safe Quick (AGR) Alloy Access Tower

Working height up to 14.2m

Eiger 250 and Safe Quick (AGR) Alloy Access Towers

Versatile and EN1004 compliant LLA scaffold towers, suitable for both internal and external use by up to two people. Choose our Safe Quick (AGR) option for added safety features, in a new lighter and easier to assemble construction.

- Quick and easy to assemble
- Reaches working heights of up to 14.2m
- Compact advanced guardrail system
- Single and double width options
- Easy to use and assemble
- Lightweight and strong
- No ladder frame required
- Suitable for use by up to two people
- EN 1004 Class 3 compliant.

Surelock Pro Eco Patented Technology

Our Cutting Stations feature Surelock Pro Eco* patented technology. Produced using 85% less welding, this has significant environmental benefits. On average, there is approximately four metres of welding saved in the manufacture of each storage vault. MEP Hire has contributed to saving over 23,000 kg of CO² and 19,550+ kWh in electricity since 2021.

**Please note that some cutting stations in our fleet do not feature SLP Eco technology.*

Health & Safety Guidance

Our in-house experts can guide you through your safety obligations; helping you to be compliant and keep your workforce safe...

Risk Assessment

As an employer, you are required by law to protect your employees, and others, from harm.

Identify your risks:

- Pin-point what could cause injury or illness in your business (hazards)
- Decide how likely it is that someone could be harmed and how seriously (the risk)
- Take action to eliminate the hazard, or if this isn't possible, control the risk.

You can find more information on the HSE website: www.hse.gov.uk/simple-health-safety/risk

MEP Hire can offer you guidance and support around better managing your risks, such as falling from heights.

Noise Reduction

There are many ways of reducing noise and noise exposure - often a combination of methods works best.

First think about how to remove the loud noise altogether. If that is not possible, do all you can to control the noise at source, consider taking measures to protect individual workers where needed.

Further information can be found on the HSE website at: www.hse.gov.uk/noise

MEP Hire can support you with innovative solutions for noise reduction on your sites, including our cutting stations and Personal Protective Equipment (PPE).

Hand Arm Vibration (HAVS)

HAVS can be a significant health risk wherever powered hand tools are used for significant lengths of time.

A serious and disabling issue, nearly 2 million people are thought to be at risk. Damage from HAVS can include the inability to do fine work and can trigger painful finger blanching attacks. It is preventable, but once the damage is done, it is permanent. Under the Control of Vibration at Work Regulations 2005, employers must assess and identify measures to eliminate or reduce risks from exposures to harmful vibration.

There are steps that you can take to manage the risk of HAVS in your workplace and more information is available on the HSE website at: www.hse.gov.uk/vibration/hav

MEP Hire can offer support and guidance on the best machinery to use to reduce the risks of HAVS.

Dust

Dust is tiny, dry particles in the air that are produced when materials are cut, drilled, demolished or sanded etc.

Dust is not always an obvious health hazard, as the particles which cause the most damage are often invisible to the naked eye. The health effects of exposure can take many years to develop.

Information on controlling exposure to dust in the workplace can be found on the HSE website at: www.hse.gov.uk/dust

If you are unsure what solutions you could implement to reduce the risk of exposure to dust then ask the experts at MEP Hire.
