Welcome to the **MEP Hire** Catalogue

We provide mechanical, electrical, press-fitting and low-level access products to the UK's Specialist Building Services trades.

About **MEP Hire**

With a history spanning over 30 years, MEP Hire offer specialist tool hire and access equipment rental to the UK's specialist building services trades.

Our aim is to help our customers to improve their efficiency through innovative products that put safety and compliance first. With unrivalled industry knowledge, delivered through a team of specialist experts, we support our customers to find the right solutions for their needs, no matter what size site or sector they operate in.

Why Choose Us?

A reputation built-on quality, service and reliability. Our staff are truly experts in what they do, which means they are best-placed to advise you on the right solutions to achieve your goals. Our engineers and examiners are both LEEA and IPAF CAP certified and fully-equipped to carry out on-site repairs.

National network of branches across the UK, making us best placed to deliver your hires when, and where, you need them.

One of the most comprehensive, youngest and best-maintained fleets in the industry; helping you to stay on-track with quality hires, every time.

Champions of innovative products. We bring you access to the latest solutions on the market – all designed to improve your safety and increase your productivity.

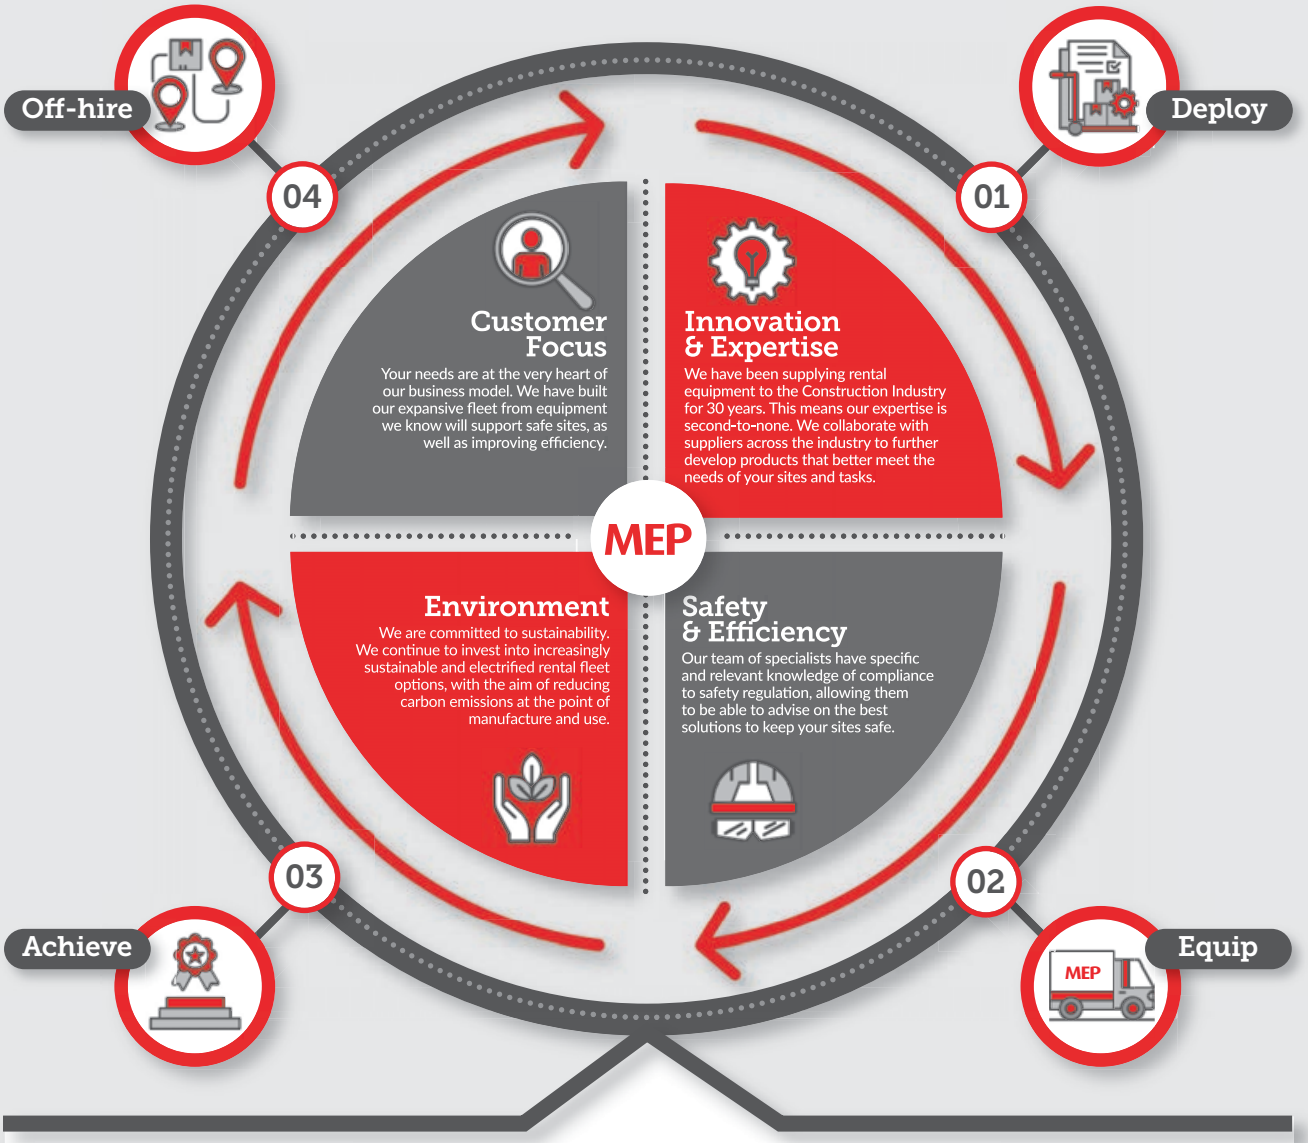

Supporting small-scale projects to landmark sites. We provide expert support and guidance from the very start of a project, through to completion. Our on-site Toolbox Talks and familiarisations will ensure you can be proficient using our equipment quickly, allowing you to tackle your tasks confidently and effectively. We can also arrange in-house IPAF and PASMA training on your behalf.

FORS Gold Certification across our entire network. We have demonstrated best practice across several areas of operations and fleet management, including; fuel efficiency, noise reduction, road risk, driver training and wellbeing, as well as communication.

Committed to Net Zero. As part of the Vp Group, we have pledged to achieve our Net Zero goals by 2050. You can find out more at: www.vpplc.com/esg

Our Customer Journey

Adding Value At The Heart Of Your Business...

01 Deploy

Hire Desk
Monday to Friday, 7.30am-5pm.
0800 587 5121 hire@mephire.co.uk

Online
Set up a Web Account online - Live Chat available 24/7.
www.mephire.co.uk

02 Equip

- **FORS Gold** certified across our entire network
- **Track Your Order** and **SMS Delivery Updates** keep you on track of deliveries to site
- **Viewing POD and POC** information on your Web Account allows you to stay on top of your hires.

03 Achieve

- **High Quality Equipment** – MEP Hire equipment comes checked, calibrated and ready for action
- **Asset Enquiry** – QR code provides quick and easy access to machine information
- **Familiarisations & Tool Box Talks** – delivered on-site by our fully trained experts. We can also direct you to professional training, such as IPAF, LEEA and LOLER certifications
- **Flexible Live Hire Reports** - see all your live hire's across multiple sites, nationwide
- **Simple Electronic Invoicing**
- **Access to Hire Agreements & Pricing**
- **Simple Reporting for Breakdown or Faults**

04 Off-hire

Benefit from the same great service for off-hire's as with initial delivery.

National Coverage

With locations spread across the UK, we have truly national coverage.

Hire With Confidence

Tracking your Hires

Our **Track My Order** system can be used to inform you of status updates on your hire delivery or collection. Accessible through a web link, or via the My Account Area on our website, we provide order details, expected delivery times and user guides for your hire equipment.

You can also sign-up to receive SMS or Email Notifications on delivery updates, if that's what you prefer. Our drivers will provide **Proof of Delivery** and **Proof of Collection** with every hire and off-hire, including providing images and signatures at point of drop-off or collection.

Track Your Hire

Keep You Informed

Track on Multiple Devices

Proof of Delivery/ Collection

Account Management

Live Hire Reports

As part of our account management service to our customers, we can provide you with Live Hire Reports at your chosen frequency. Reports cover all items on hire, as well as details on the next ROTEL date and any scheduled collections.

Safety & Compliance

We put **safety** and **compliance** at the very heart of our business to ensure the equipment we hire out is safe to use and will be compliant with all associated safety checks.

With this in mind, your hire agreement with us covers the following:

- Innovative corerfid process for LOLER Thorough Inspections and Certification
- Trained and accredited inspectors to meet IPAF CAP (Competent Person) and LEEA Standards.

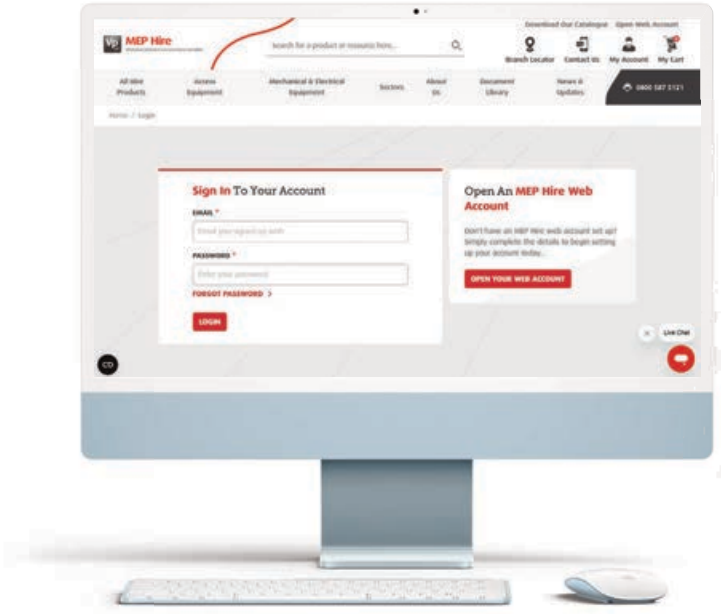

Protect accidental scheme: We provide an accident scheme to give you peace of mind that no additional charges will be made should accidental damage occur to your hire equipment. Further details are available at the point of hire.

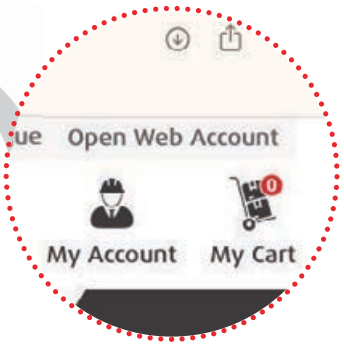

Order Online

Did you know that you can now manage your MEP Hire account online?

Our fully transactional website allows our customers to order hire equipment and manage their account online. Our website offers you 24/7 access to our hire equipment, with **Live Chat** functionality during office hours.

Set Up A Web Account

To set up a Web Account, simply visit: **www.mephire.co.uk** and click **'Open Web Account'**.

You will then be asked to complete a short form. Once you confirm your email address, your Web Account will be set up.

Linking Your Web Account To Your Hire Account

If you already have a Hire Account, we will link this to your Web Account. Once complete, you will be able to access your agreed terms and prices on our website. If you need to set-up a Hire Account, one of our Advisor's will help you to do that.

Scan here to visit our website!

ESG: Environment, Social, Governance

As a member of Vp Group, MEP Hire shares its near-term, long-term and net-zero targets. These were validated by the Science-Based Targets Initiative in 2023.

You can visit the Vp website for further information at: www.vpplc.com/esg

SCIENCE BASED TARGETS

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

An Environmentally Sound Hire Fleet...

At MEP Hire, we continue to invest in increasingly sustainable and electrified rental fleet options to reduce carbon emissions at the point of manufacture and use.

Our fleet, as of November 2025, is:

71%	9%	17%	3%
NON-POWERED	BATTERY-POWERED	ELECTRIC	FUEL-POWERED

For more details, please visit the ESG page on our website at: mephire.co.uk/about-us/environment-social-governance

We are also pleased to partner with The Inter Group on the creation of this catalogue, who are able to offer carbon balanced paper which has been offset by direct action through the World Land Trust.

Proud To Be A Part Of The

Vp plc Group Of Businesses

Airpac Rentals
Energy Industry Solutions

Airpac Rentals Energy Industry Solutions is an international business supporting a wide range of oil and gas markets, servicing well test, pipeline testing, rig maintenance and LNG markets worldwide.

Brandon Hire Station
The UK's Tool and Equipment Hire Specialist

Brandon Hire Station is a leading provider of tools and specialist rental products to industry and construction across the UK.

ESS
Safety, Survey, Test & Measurement

ESS is a specialist provider of safety, survey, communications and test and measurement equipment.

Groundforce
Specialist Construction Solutions

Groundforce is the market leading rental provider of excavation support systems and specialist products for the water, civil engineering and construction industries.

MEP Hire
Mechanical, Electrical & Low Level Access Specialists

MEP Hire provides mechanical, electrical, press-fitting and low level access products to the UK's specialist building services and trades.

Torrent Trackside
Railway Plant. Railway People.

Specialist suppliers of rail infrastructure, portable plant and related trackside services.

TPA
Temporary Access Solutions

The leading European supplier of temporary access hire solutions, providing portable access equipment such as portable roadways, walkways and ground protection, as well as rapid rail access.

TechRentals

TR is Australasia's leading technical equipment rental group providing test and measurement, communications, calibration and audio visual solutions.

UK Forks
Materials Handling Specialists

UK Forks is one of the UK's leading specialist providers of telescopic handlers and tracked access platforms.

Commercial Fit-out

We truly are specialists in the Commercial Fit-out sector, we've been a key supplier on some of the largest projects in Europe, ensuring construction firms have access to the latest tools and equipment.

Our focus is on safety and productivity and we can support you to identify the best solutions for your projects' requirements. So, whether you need access machinery or innovative ideas for moving materials around site, then we can help with:

- Access equipment
- Lighting and power
- Dust and noise reduction
- Materials handling
- Site storage and security
- HVAC.

Feature Products...

Adaptakart Work Trolley

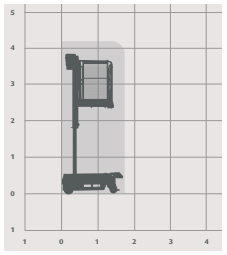

Hire Code: 360198

Take the strain out of loading, lifting and transporting large sheet-type materials with the Adaptakart.

- With Auto-brake technology, this trolley ensures the safe and quick load and transportation of large sheet materials around site
- Features a pivoting rack that can hold and rotate boards through 90°
- In the horizontal position, Adaptakart doubles as a handy workbench
- SafeStop deadman braking system ensures the trolley remains still while loading materials
- 750kg load capacity.

Working Envelope

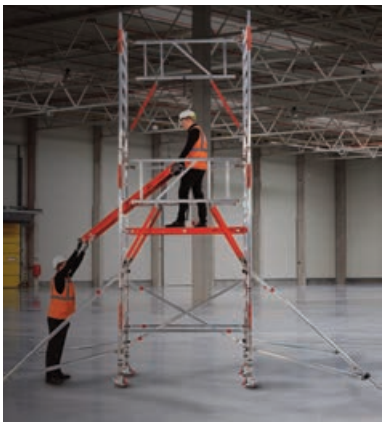

Ecolift With Vertical Handrail

Hire Code: 020034

Simple and effective low level access solution. Reach heights of up to 4.2m with this battery and electric power-free access machine.

- Improves safety, whilst supporting increased productivity
- Suitable for use across site, indoors
- Lightweight and compact for easy manoeuvrability
- Self-propelled - elevated by simple rotation of a handle
- Wind-rated
- Features a vertical handrail fitted as standard alongside a uniquely designed tool and fixings tray, tethering strap and MEWP tags
- Add the anti-climb side-guard to your basket as an additional product for optimum safety.

Safe Quick AGR Alloy Access Tower

Hire Code: see page 30

A versatile and EN1004 compliant scaffold tower, suitable for both internal and external use by up to two people.

- Reach working heights of up to 14.2m
- Easy to use and assemble
- Lightweight and strong
- Compact Advanced Guardrail System (AGR) – safer to use and quicker to assemble
- Single and double width platform options available
- Available in platform lengths of 1.8 and 2.5m
- No ladder frame required
- EN 1004 Class 3 compliant.

MiStairs Alloy Access Tower

Hire Code: see page 28

A quick and easy to assemble alloy tower, providing a safe, strong and robust access option around stair cases. Suitable for one person operation.

- Easy to assemble in just 20 minutes
- Available in four different working height options from 4.2 - 6.7m
- Compact design means it is the ideal scaffold to move into a narrow stairwell
- Circular welded and pinched claw-brace connections make it the strongest, most stable scaffolding of its kind.

Electrical Contractors

We have the right options, no matter what fix you're at.

It's not just about hire tools; we can provide you with guidance, surveys, support, tool familiarisation and training.

We carry all the top brands, in the latest technology, to help you to install, crimp and cut electrical cables. We can also support your access needs to ensure you comply with health and safety obligations.

Klauke Battery Powered Hydraulic Cable Cutting Tool

Hire Code: 220155

A lightweight and effortless way of cutting copper, aluminium and steel cables up to 85mm in diameter.

- All data can be easily read via Bluetooth
- Larger cutting area, with optimum force transmission due to closed head shape
- One-button for all tool functions
- LED light for work area illumination
- Two-stage hydraulic system with fast feed and power stroke
- Automatic retraction when operation is complete.

Cembre B1350-CE Battery Operated Cable Crimping Tool

Hire Code: 220137

The 18V cordless Cembre B1350-CE battery operated crimping tool is suitable for the compression of lugs and connects between 16-400mm^2.

- 18 Volt
- 132 kN crimping force
- Range: 10-400mm^2.

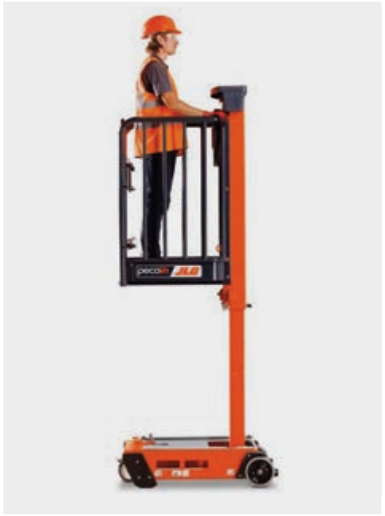

Cable Drum Jacks

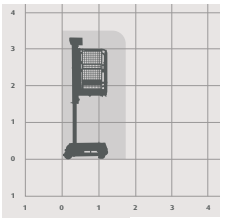

Hire Code: 375600

Pair of jacks perfect for lifting, supporting and distributing low and high voltage cable drums around site. Allows for efficient cable laying.

- Easy to handle
- Simple to operate
- Designed for stability, even on soft ground
- 6 Tonne capacity
- Maximum drum diameter 1900mm.

Working Envelope

Pecolift With Vertical Handrail

Hire Code: 020030

Battery and electric power-free, the Pecolift reaches heights of up to 3.5 metres and is elevated by simply rotating a handle.

- Elevates to 3.5m
- Maximum load of 150kg
- Lightweight and compact for easy manoeuvrability
- Reduces risks from dropped tools
- Eliminates platform clutter from deck, preventing trip and sprain hazards.

Fire Protection

MEP Hire offer an extensive range of specialist products to install, test and maintain complex fire protection and sprinkler systems.

We provide best in class tools and equipment, with the aim of increasing safety and improving your productivity.

We offer a wide range of products that will support you with:

- Passive fire protection
- Fire stopping, including sprinkler systems
- Structural steelwork protection
- Fire compartmentation
- Thermal insulation.

Feature Products...

Mobile Fittings Cabinet With Storage Bins

Hire Code: 310077

This mobile fittings cabinet is an ideal solution for the safe and secure storage of materials on-site that may need to be moved around.

- 150mm rubber tyres with two swivel castors and brakes for easy movement
- Welded steel construction for durability
- Secure anti-theft door with four, 5-lever dead locks
- Three reinforced steel shelves and 10 plastic storage bins included.

Mobile Pipe Rack

Hire Code: 250125

Safely store and move pipes around site with this strong and durable pipe rack.

- Strong, durable and load tested to 2 Tonnes
- Pipe support arms fold flat for storage and transportation
- 150mm rubber tyre wheels with two swivel castor braked wheels.

Roll Groovers

See page 60

No matter whether you are grooving thin wall stainless, copper or thick walled carbon steel pipe, we stock a wide range of Roll Groovers from trusted manufacturers such as RIDGID and Victaulic.

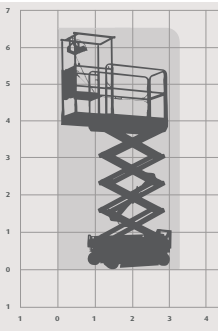

Dingli JCPT0707DC-XD Micro Scissor Lift

Hire Code: 020057

Reaching maximum working heights of up to 6.5m, the 0707DC-XD is ideal for those needing to reach that little higher.

Working Envelope

- Maximum working height of 6.5 metres - extending by another 500mm when using built-in confined space handrail and step
- Features a 600 mm extending platform for additional reach in use
- Drivable at full height, making repetitive tasks at height more efficient
- Can be used both indoors and outdoors by up to two operators
- Innovative oil containment feature eliminates the risk of leaks
- Easy to use with proportional joystick controls
- Self-locking gates for extra safety.

Heating, Ventilation & Refrigeration (HVAC)

We are focussed on delivering solutions that will enable you to become more efficient and productive, whilst giving you confidence that you're creating the right environment for your customers.

Our hire solutions put safety at their heart; supporting your compliance requirements, whilst being easy to use and considerate to the environment.

We offer a complete range of solutions, including:

- Access equipment
- Ductwork testing
- Materials handling
- Site storage and security.

Feature Products...

ALF150 Duct Leakage Tester

Hire Code: 250168

The ALF150 provides you with an all-in-one instrument, covering everything you need to test for air leakage under positive and negative pressure. It's quick, easy to use and weighs just 20kg; offering perfect portability around site.

- Instant results; data can be downloaded to an SD card or USB drive for your records
- Configure parameters to your needs, including; duct size, test pressure, test duration and class
- Fully calibrated with UKAS traceable certificate and user manual
- Power supplied via a 110V 50 / 60Hz AC connection
- Entire measurements range covered by three easy to change nozzles designed to ISO5801:2007
- Capable of generating an airflow of up to 150 litres per second and testing static pressure up to 2500Pa.

ALF225 PDI Duct Leakage Tester

Hire Code: 250169

Compact and intuitive duct leakage tester.

- Lightweight, easily transportable and suitable for one person lift and operation
- Quick and easy test process
- Simple to use - familiarisation takes just a few minutes
- Everything you need for testing is included and results are provided instantly
- Data can be downloaded to an SD card or USB drive for your records.

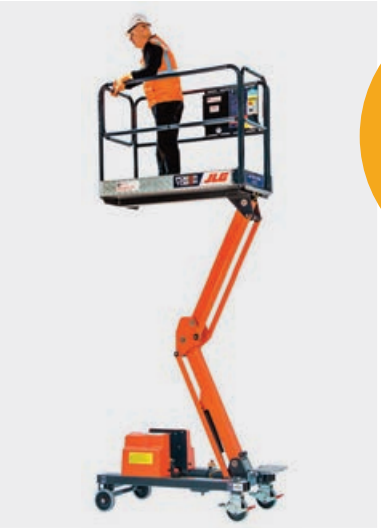

Auto-braked Ductwork Rack

Hire Code: 310130

MEP Hire's Ductwork Rack offers a flexible, moveable, safe and time-saving solution to the problem of on-site ductwork storage. With a mandatory requirement to cover all ductwork stored on-site, this cleverly designed solution does just that; whilst helping you to improve efficiency, prevent accidents and reduce wastage costs.

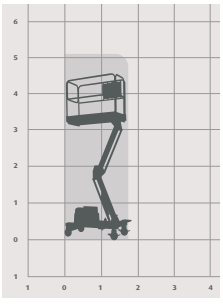

- Wrap-over protective cover sheets – easily secured with bungee cords
- Easy, two person manoeuvrability
- 750g load capacity
- Auto-brake feature for added safety
- Adjustable, two tier storage.

Additional Safety Features Available

Tool Tray and Materials Handling Attachment available to ensure safety whilst using materials and kit at height.

Working Envelope

Power Tower Lift

Hire Code: 020009

A safe and efficient way to reach low level access working heights of up to 5.1m.

- Reach heights of up to 5.1m in just 30seconds
- Suitable for indoor use
- Compact and highly versatile, making it suitable for multiple tasks
- Simple to use and battery operated makes this machine a practical and environmentally sustainable choice
- Maximum load 250kg.

Mechanical & Plumbing

MEP Hire is a trusted name in the industry, offering high quality and innovative tools for all your pipework and plumbing applications. We stock industry leading brands from Novopress, Viega and Geberit to Ridgid, REMS, Victaulic and Rothenberger.

We pride ourselves on being able to support all press-fit systems, sizes and materials with our extensive fleet. We also offer tools using the latest technologies, including Bluetooth, to help make your work more efficient and productive.

No matter what you want to achieve, we can help you with:

- Threading
- Cutting
- Grooving
- Freezing
- Bending
- Welding
- Pressure Testing
- Site storage and materials handling.

Feature Products...

RIDGID Cordless Pipe Threader

Hire Code: 250215

Thread pipe quickly and precisely with this cordless, battery-powered threader.

- Cordless Freedom - complete up to 30, 2 Inch threads on a single charge with the FXP Battery Platform*
- Torque Reaction Shut-off - tool automatically shuts off if kickback is detected
- Workspace LEDs - LED near die head illuminates the work area
- End of Thread Indicator - LEDs indicate when the thread is nearing completion
- Palm Pad - eliminate the need to contact the diehead directly when starting the thread with a conveniently placed palm pad.

*Based on internal testing cutting 2 Inch NPT threads on schedule 40 steel pipe.

Novopress ACO403 Press Tool

Hire Code: 255200

With a pressing force of 120 kN and a working stroke of 60mm, the Novopress ACO403 Press Tool provides sufficient energy for special applications with larger pipe dimensions.

- Powerful and efficient pressgun for cutting stainless steel
- Ergonomic design makes it suitable for use even in tight-spaces
- Compatible with the following press systems Isotubi, SANHA NiroSan & Grinnell
- Suitable for large pipe dimensions from 76.1-168.3mm
- Long battery life with up to 20-30 press cycles per charge.

Novopress 32 Press Tool

Hire Code: 255020

Developed based on the feedback of real engineers, the Novopress 32 Pressing Tool is safer, more efficient and highly durable.

- Comes with 15-35mm M Profile Jaws
- LED light ring, providing 360° light for more accurate pressing
- Light ring uses colours to show successful pressing
- Intuitive display - always be clear on device status
- 180° rotatable head - optimum flexibility when pressing in tight spaces
- Powerful, rechargeable battery - Lithium-Ion battery provides a long charge with fast re-charging
- High configuration via the App - ensures the device works specifically for you and the task in-hand
- Display shows; press status, error messages, maintenance indicator, battery level and more.

Milwaukee 6" Leveling Tripod Chain Vice

Hire Code: 250117

Our 6 Inch Leveling Tripod Chain Vice delivers unmatched portability and steadiness for mechanical, electrical and plumbing tradesmen working with pipe, conduit and other materials.

- Adjustable leg for level alignments
- Multi-material vice, secures up to 6 Inch pipe
- Quick, painless set-up
- Folds flat for storage and transportation.

Working At Height

Improve Safety, Increase Efficiency

We understand that safety is paramount to the prosperity of your business and so we have developed a Low Level Access (LLA) range that will do more than support your compliance and improve safety, it will increase your productivity too!

The Benefits Of LLA

Safe

Our entire range has been designed to be the safest possible way of working at height. Features include: fail-safe mechanisms, 'anti-surf' locking wheels, auto-brakes, safety gates and guards, as well as MEWP tags. Additional options to maximise safety even further are available as add-ons for many of our access machines.

Quick & Simple

MEP Hire's LLA range is easy to use and much faster than traditional ladders or podiums to erect. In fact, the Pecolift takes just 11 seconds to reach full elevation.

Efficient

Our machines will help you to reduce the time it takes to complete tasks; increasing your productivity. Some of our machines can be operated whilst elevated, so are superb at completing repetitive tasks across a large area or site.

Reliable

MEP Hire's machines are tested and calibrated after each hire. This means you only receive equipment that is ready for the job. Many of our non-powered access machines are battery and electric free so avoid any downtime whilst charging batteries.

Versatile

We offer a wide range of machines to suit multiple applications and working heights. Many of our machines are designed to fit through standard doorways and in most passenger lifts and have non-marking tyres, suitable for use on finished floors.

Cost Effective

Our machines have been designed for versatility and can be used for multiple applications. This helps you to manage your costs and maximise usage of hire equipment. MEP Hire allow you to continue to hire our equipment for as long as you need it.

Sustainable

Our range includes machines that are non-powered, self-propelled, oil free and low noise, making them the sustainable and environmentally friendly choice.

Safety Comes First...

All users must have the appropriate training to operate LLA machines and we can help you to access this training if you need it. Our staff hold IPAF Demonstrator Licences and delivery staff can provide a Machine Familiarisation Service.

Each of the machines in our fleet goes through rigorous safety checks, including the LOLER examination. This ensures our machines are always compliant with the latest regulations to keep operators safe.

MEP Hire offer additional safety features for many of our access machines, making them the safest in the market.

IPAF Rental+ L.O.L.E.R.

Working Safely At Height

Save lives and improve your productivity with our robust, tried and tested range of safe-guarding and tool tethering options.

Working at height remains a significant risk to the UK's construction trades. In fact, falls from height accounted for over half of fatalities in the construction sector in 2025.*

By utilising MEP Hire's extensive LLA fleet, alongside our unparalleled experience and expertise, you can start to reduce the risk of injury and fatalities and the burden this has on your employees, as well as your business.

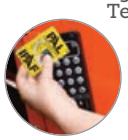

Our range of access equipment comes with pre-fitted or additional optional safety features; all designed to increase the safety of the machine whilst in use. Look for the details on what is available for each machine throughout this catalogue. We also provide access to operator training and MEWP Tags; all designed to increase proper use of machinery.

Additional Safety Features

Tool Trays With Integrated Tool Tethering

MEWP Tags

Safe Rack MHA

Track Unit

Secondary Guarding

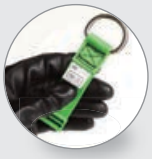

Anti-climb Guard Rails

Panel Attachment

*Construction Management, July 2025

Tool Tethering

Adding tool tethering direct to the access machine is the safest possible way of ensuring tools aren't dropped. MEP Hire offers a full range of tethering solutions from NLG; who engineer the safest tool lanyards available. We have also worked with suppliers to allow tools to be fixed direct to the machine via innovations like tool trays.

Tether Point
Create a secure attachment point on the tool.

Tool Lanyard
Choose the best tool lanyard for your task.

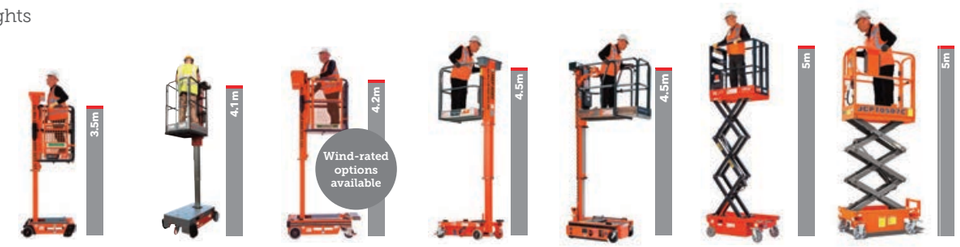

Anchor Point
Select between wristband, belt, harness or fixed point.

Storage
The most advanced tool safety bags and storage equipment designed for working at height.

MEP Hire's LLA Machine Range

We offer a wide range of machines to help you work safely at heights of 3.5 - 7 metres*, here's just a few of them...

Safety features	• Auto-braked on entering basket • Auto-lock on elevation • Dead Man's handle • Fail to safe lifting mechanism	• One hand full length gates • Tool tray with tether facility • Platform travel lock	• Auto-lock on elevation • Dead Man's handle • Fail to safe lifting mechanism	• Fail to safe hydraulic circuit • Heavy-duty auto-lock wheels • Emergency descent from ground level • Audible ascent and descent drive alarm • Tool tray with Nano Plus	• Fail to safe hydraulic circuit • Automatic pot-hole protection on elevation • Tilt sensor complete with alarm and cut-out • Auto basket load sensing and parking brake • Automatic elevated drive-speed reduction	• Saloon safety gates • Anti–surf autobrake • Emergency lowering lever • Intelligent safety and monitoring • Audible descent alarm • Tilt sensor • Fail to safe hydraulic circuit • Hands protected	• Automatic braking • Emergency descent system • Emergency stop button • Multiple warning alarms	• Auto-brake system, tilt sensor • Saloon-door style entry gates • Emergency lowering system	• Self-locking gates • Proportional joystick controls • Automatic braking system • Emergency descent system • Onboard fault diagnostic system • Tilt and motion alarm • Platform load sense system • Emergency stop button	• Fail to safe hydraulic circuit complete with check valve on lift cylinder • Improved heavy-duty auto-lock wheels on elevation • Emergency descent from ground-level • Audible ascent and descent drive alarm • Option to include confined space handrail	• Tilt and overload warning lights, alarm, and interlocks • Overhead obstruction detection with alarm frequency increase and interlocks • Tilt sensor • Single stage emergency descent	• Self-locking gates • Automatic braking • Emergency descent system	• On-board diagnostic system with battery indicator • Dual front wheel electric brakes • Lift connect telematics • Platform load sense system and control guard • Electric horn and alarms	• Direct electric drive system • All motion alarm • Dynamic braking • Horn • Load sensing system • Tilt alarm and light	• Built-in confined space handrail and step provides additional 500mm of working height • Automatic braking • Emergency descent system • Emergency stop button • Multiple warning alarms
Additional safety features available	• Anti-climb guard rails • MEWP tags • Tool tethering • Tool trays	• MEWP tags • Tool tethering	• Anti-climb guard rails • MEWP tags • Tool tethering • Tool trays	• MEWP tags • Telematics • Tool trays • Track unit	• MEWP tags • Telematics • Tool trays • Track unit	• MEWP tags • Telematics • Track unit	• MEWP tags • Track unit	• MEWP tags • Telematics • Track unit	• Secondary guarding • MEWP tags • Telematics • Track unit	• Materials Handling Attachment • MEWP tags • Telematics • Tool Tray • Track unit	• Secondary guarding fitted as standard • MEWP tags • Telematics • Track unit	• MEWP tags • Track unit	• Secondary guarding • Safe rack MHA • Telematics • Track unit	• Telematics • Track unit	• MEWP tags • Secondary guarding • Track unit

*When using step that provides additional 500mm of height

MEP Hire's Alloy Towers

Suitable for use indoors or outdoors, these towers will allow you to access heights up to 32.2m.

Working height up to 6.7m

MiStairs Alloy Access Tower

A safe, quick and easy to assemble alloy tower, providing a strong and robust access option around staircases. Suitable for one-person operation.

- Easy to assemble in just 20 minutes
- Available in a range of working heights from 4.2 - 6.7m
- Compact design means it is the ideal scaffold to move into a narrow stairwell
- Circular welded and pinched claw-brace connections make it the strongest, most stable scaffolding of its kind.

Platform Height	Hire Code	Platform Height	Hire Code
4.2m	MISTAIR42	6.2m	MISTAIR62
4.7m	MISTAIR47	6.7m	MISTAIR67

Working height up to 6.7m

Bridge Quick Alloy Access Tower

A versatile and high quality mobile tower, offering a safe, yet speedy build. Provides an incredibly stable working platform with a generous working area.

- Fast assembly
- Six options to choose from depending on your desired working height
- Provides platform heights between 1.7 - 4.7m
- Choose working heights of 3.7 - 6.7m
- Suitable for both internal and external use
- Tower components compliant with BS EN 1004-1, bridging components compliant with BS 1139.

Platform Height	Hire Code	Platform Height	Hire Code
1.7m	BQSS37/25	3.7m	BQSS57/25
2.2m	BQSS42/25	4.2m	BQSS62/25
2.7m	BQSS47/25	4.7m	BQSS67/25

Working height up to 8m

MiTower Alloy Access Tower

This quick assembly alloy access tower provides a safe and convenient platform for working at Low Level Access heights for up to two people.

- Reach heights of up to 8m
- 6m supplied as standard, 8m achieved when using 2m extension pack
- Assembles in less than 15 minutes by one person
- Available in two compact platform sizes
- EN 1004 Class 3 compliant
- Suitable for both internal and external use.

Option	Hire Code
One Person 4, 5, 6m Working Height	020111
Two Person 4, 5, 6m Working Height	020112
Two Person Extension Pack 1m	MTPLUSEXTN1
Two Person Extension Pack 2m	MTPLUSEXTN2

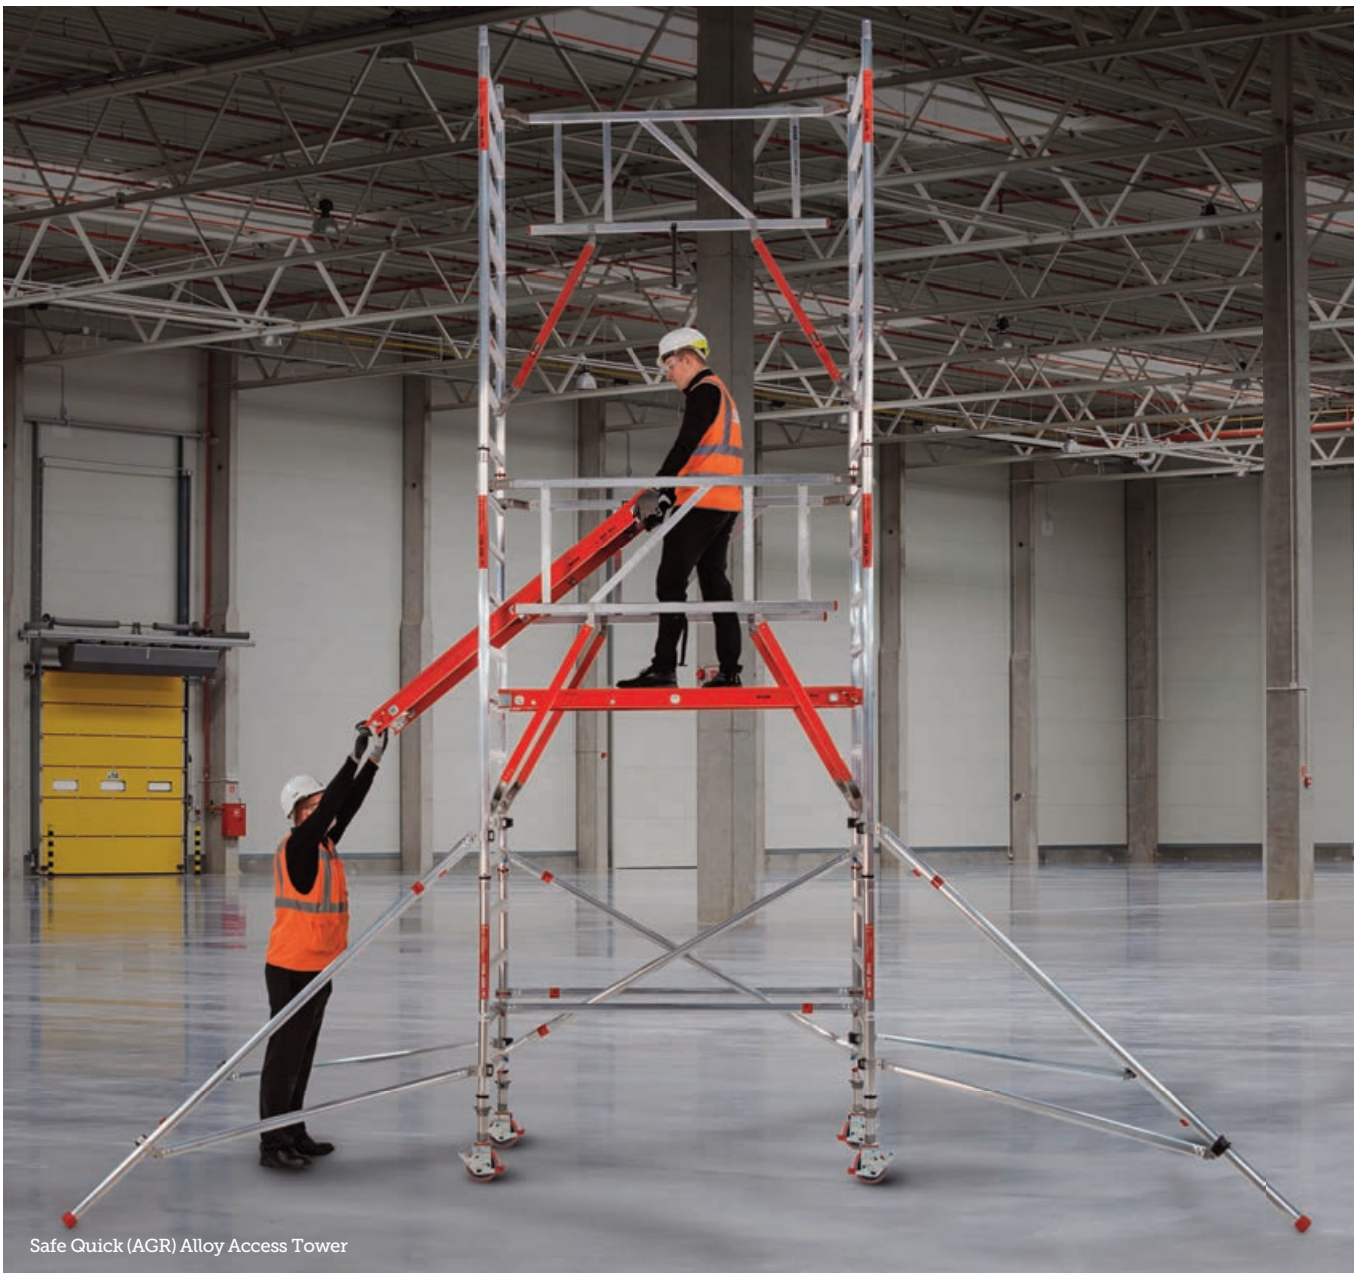

Working height up to 32.2m

MiTower LiftShaft Alloy Access Tower

Reach heights in lift spaces and confined areas safely and quickly. Easy one person build and operation. Multiple size options available from 4.2 - 32.2m.

- Fast and easy set up
- Suitable for one or two people
- Stable, strong and robust
- Small footprint
- EN 1004 Class 3 and EN 1139-6 compliant.

Safe Quick (AGR) Alloy Access Tower

Working height up to 14.2m

Eiger 250 and Safe Quick (AGR) Alloy Access Towers

Versatile and EN1004 compliant LLA scaffold towers, suitable for both internal and external use by up to two people. **Choose our Safe Quick (AGR) option for added safety features, in a new lighter and easier to assemble construction.**

- Quick and easy to assemble
- Reaches working heights of up to 14.2m
- Compact advanced guardrail system
- Single and double width options
- Easy to use and assemble
- Lightweight and strong
- No ladder frame required
- Suitable for use by up to two people
- EN 1004 Class 3 compliant
- Please see the following pages for size options and Hire Codes.

Surelock Pro Eco Patented Technology

Our Cutting Stations feature Surelock Pro Eco* patented technology. Produced using 85% less welding, this has significant environmental benefits. On average, there is approximately four metres of welding saved in the manufacture of each storage vault. MEP Hire has contributed to saving over 23,000 kg of CO^2 and 19,550+ kWh in electricity since 2021.

**Please note that some cutting stations in our fleet do not feature SLP Eco technology.*

Health & Safety Guidance

Our in-house experts can guide you through your safety obligations; helping you to be compliant and keep your workforce safe...

Risk Assessment

As an employer, you are required by law to protect your employees, and others, from harm.

Identify your risks:

- Pin-point what could cause injury or illness in your business (hazards)
- Decide how likely it is that someone could be harmed and how seriously (the risk)
- Take action to eliminate the hazard, or if this isn't possible, control the risk.

You can find more information on the HSE website: www.hse.gov.uk/simple-health-safety/risk

MEP Hire can offer you guidance and support around better managing your risks, such as falling from heights.

Noise Reduction

There are many ways of reducing noise and noise exposure - often a combination of methods works best.

First think about how to remove the loud noise altogether. If that is not possible, do all you can to control the noise at source, consider taking measures to protect individual workers where needed.

Further information can be found on the HSE website at: www.hse.gov.uk/noise

MEP Hire can support you with innovative solutions for noise reduction on your sites, including our cutting stations and Personal Protective Equipment (PPE).

Hand Arm Vibration (HAVS)

HAVS can be a significant health risk wherever powered hand tools are used for significant lengths of time.

A serious and disabling issue, nearly 2 million people are thought to be at risk. Damage from HAVS can include the inability to do fine work and can trigger painful finger blanching attacks. It is preventable, but once the damage is done, it is permanent. Under the Control of Vibration at Work Regulations 2005, employers must assess and identify measures to eliminate or reduce risks from exposures to harmful vibration.

There are steps that you can take to manage the risk of HAVS in your workplace and more information is available on the HSE website at: www.hse.gov.uk/vibration/hav

MEP Hire can offer support and guidance on the best machinery to use to reduce the risks of HAVS.

Dust

Dust is tiny, dry particles in the air that are produced when materials are cut, drilled, demolished or sanded etc.

Dust is not always an obvious health hazard, as the particles which cause the most damage are often invisible to the naked eye. The health effects of exposure can take many years to develop.

Information on controlling exposure to dust in the workplace can be found on the HSE website at: www.hse.gov.uk/dust

If you are unsure what solutions you could implement to reduce the risk of exposure to dust then ask the experts at MEP Hire.

MEP Hire a trusted and recognised hire partner...
