PROFESSIONAL SUMMARY

Full-stack software engineer with 5+ years of experience designing, building, and shipping production web applications across the MERN stack, NestJS, and Nuxt.js. Comfortable owning features end-to-end — from API and database design through deployment — and collaborating directly with international clients in Agile teams. Recent work spans a live childcare-compliance platform, an AI-powered visual commerce product, and blockchain-integrated applications, with a consistent focus on clean architecture, reliable releases, and translating business requirements into working software.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Aquila 360 09/2025 - Present | Lahore, Pakistan

- Engineering full-stack features for Child Care Forward, a live platform simplifying compliance and operations for childcare centers.
- Building across the MERN stack, NestJS, and Nuxt.js to deliver production-ready functionality directly to an active paying client.
- Implementing CI/CD pipelines in Azure DevOps with automated test coverage, streamlining releases and reducing manual QA overhead.

Mern Stack Developer

ArhamSoft Pvt 09/2022 - 08/2025 | Lahore, Pakistan

- Delivered end-to-end MERN stack solutions for international client projects, from architecture through deployment.
- Partnered with design, QA, and backend teams to ship features on schedule while maintaining code quality and consistency.
- Strengthened front-end performance and UX consistency across multiple concurrent client engagements.

React Developer

GoOrderz Kft. 01/2023 - 12/2024 | Mór, Hungary (Remote)

- Built and maintained core interface components for a restaurant digitization platform used by operators in Hungary.
- Translated brand and UX requirements into responsive, reusable React components, improving consistency across the product.
- Collaborated directly with a European client team in a fully remote capacity, aligning delivery with business priorities.

Javascript Developer

Fabulous Technology Solutions 06/2020 - 03/2022 | Sialkot City, Pakistan

- Developed application logic and interactive UI features with JavaScript and React.js within an Agile delivery team.
- Integrated REST APIs and managed application state to support dynamic, data-driven interfaces.
- Partnered with backend engineers to keep code clean, well-tested, and maintainable.

PHP Web Developer (Intern)

Datum Code 03/2019 - 01/2020 | Sialkot, Pakistan

- Built foundational PHP web development skills, including dynamic page logic and database-driven functionality.
- Supported senior developers on live website builds, gaining early hands-on development experience.
