

Dual Outlet, Dual Shut-Off Supply Stops

Unlike a standard dual outlet stop, BrassCraft's dual outlet, dual shut-off 1/4 turn ball stop allows you to turn off the water to one source while working on another. For instance, you can still run hot water out of your faucet and turn off the water to your instant hot water dispenser. This means you don't have to install two separate stops. This added convenience is ideal for:

- Dishwashers
- Ice Makers
- Water Filters
- Instant Hot Water Dispensers
