Mounting Hardware:	Part # 64090010 included for countertops up to 3/4" (19mm) thick
Template Included:	No
Cutout Template #:	1000001257

Template is available for download at elkay.com. CAD software will be required to open the template.

Laboratory testing has shown that when cleaned regularly, CuVerro surfaces kill more than 99.9% of bacteria within 2 hours, and continues to kill 99% of bacteria even after repeated contamination. Testing demonstrates effective antibacterial activity against Methicillin-Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, Vancomycin-Resistant Enterococcus faecalis (VRE) and Escherichia coli O157:H7.

CuVerro copper alloy surfaces have been shown to reduce microbial contamination, but does not necessarily prevent cross-contamination. The use of a copper alloy surface is a supplement to and not a substitute for standard infection control practices; users must follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces.

Copper alloy surfaces are for use only in non-food zone areas.

CuVerro is a registered trademark of GBC Metals LLC, d/b/a Olin Brass. CuVerro antimicrobial alloys are registered with the U.S. Environmental Protection Agency as antimicrobial under product registration #85353-5.
