

Pre-Insulated PEX-a Pipes

MrPEX Systems has recently partnered with Terrendis, a company from Belgium that has been specializing in Pre-Insulated Piping Systems since 1962. MrPEX Systems is now offering their pre-insulated PEX-a pipes in single size from 25mm to 125mm, and double sizes from 25mm to 63mm, along with a full line of accessories and fittings.

The Terrendis Insulated PEX-a pipes are the ideal solution for delivery of hot and chilled water where the energy preservation is key. Terrendis insulated piping provides a superior insulation with the highest bending flexibility in the industry and thus minimizing labor and related costs. To meet project needs, we offer either single or double carrier pipes. Terrendis insulated PEX-a pipes can be delivered in any length required up to full coils of 328 feet. MrPEX Systems provides a cut-to-length quick ship service for your project's needs.
