**SHORT TERM SECURITY.
PERMANENT SOLUTION.**

Helps protect PRV from theft and construction debris

Jumper Kit

During the early stages of construction when many areas aren't secure, Pressure Reducing Valves are at risk for theft. Reduce that risk by using the Resideo Braukmann Jumper Kit as the ideal temporary stand-in. You'll be able to test plumbing and piping for leaks and flush the system without worrying about PRVs getting vandalized or stolen.

VERSATILE

Use as a temporary PRV placeholder in both residential and light commercial new construction.

SIZED RIGHT

Jumper Kit options are available for 3/4", 1", 1-1/4" and 1-1/2" pipe sizes.

PEACE OF MIND

Helps eliminate worries about vandalism or theft of Pressure Reducing Valves.

EASY SWAP TO PRV

Resideo Braukmann Jumper Kits are compatible with a variety of PRVs, including Resideo DS06 and FK06 models, making it easy to transition to the final installation.

QUALITY CONSTRUCTION

Made primarily of brass and stainless-steel components, Resideo Braukmann Jumper Kits can be used with confidence while awaiting the PRV installation.

MODEL #	PIPE SIZE	CONNECTION TYPE	LENGTH IN. (MM)	DESCRIPTION	QUANTITY
DSO6-JK-101-LF/B	3/4"	Union Sweat	3.543" (90)	3/4" Jumper Kit; Pipe, Unions, Tailpiece, Strainer	24
