GET ALERTS. GET PEACE OF MIND.

Resideo WiFi Water Leak
& Freeze Detector

Resideo's WiFi Water Leak & Freeze Detector keeps you connected and alerted to potentially costly water leaks and frozen pipes in your home. Whether you're home or away, you'll receive notifications on your smart phone so you can take action and help prevent water damage and costly repairs.

HELP PREVENT A SMALL LEAK FROM BECOMING A BIG PROBLEM.

Detection & Protect

The average water leak causes \$7000 in damage.* The Resideo WiFi Water Leak & Freeze Detector device can potentially reduce water damage risk by sending alerts directly to your smart phone. You will also receive alerts about temperature drops that could result in freezing pipes and temperature spikes which may indicate HVAC system fail. This device will help determine if there's too much or not enough humidity in your home and send you an alert if there's a problem. Additionally, the device has a 100 dBA audible alarm, so you can hear it throughout your home.

Easy WiFi Setup

No extra hub or base station required. Simply install the device near a sump pump, water heater, washing machine, sink or pipe and follow the simple instructions to connect the device to your home WiFi using the Resideo app.

Battery Operated

No wiring required makes it easy to install wherever it will be most effective and out of sight. Battery life up to 3 years without incident, depending on use.

Extended Reach

It includes a 5-ft. water sensing cable. Additional cables can be added for expanded coverage, up to 500 ft. You can cover your entire house without limits on the number of devices you add. For maximum coverage add a device to any room or area that has running water or water pipes.

Reusable

If your device alerts you to a water leak, you can easily reset it. Once your cable is completely dry, plug it back in and it's ready to use again.

*American Insurance Association.

PRODUCT FEATURES	
Battery	3 AA alkaline (included)
Battery life	Up to 3 years w/o incident
Dimensions	3.07" Square x 1.26" Thick
Weight	0.33 LBS
Additional cable sensor accessory	5-FT
Buzzer alarm	100 dBA
Ingress protection rating	IP44
Temperature sensing	32°F - 140°F (0°C - 60°C)
Humidity sensing	0-100% RH (+ / - 3% RH)
Temperature & humidity sensing	Once per hour
Water sensing	Once every 60 seconds
Temperature-alert detection (User adjustable)	Preset at < 45°F and > 100°F
Humidity-alert detection (User adjustable)	Preset at < 20% RH or > 70% RH
Temperature & humidity report	Daily
