

## Tankless Accessories

### MANIFOLD CONTROL SYSTEMS

**Allow multiple identical RTG or RTGH tankless water heaters to be connected in a manifold. These kits allow multiple heaters to communicate and operate as a single system when one unit is not enough.**

#### Connect **TWO** Units

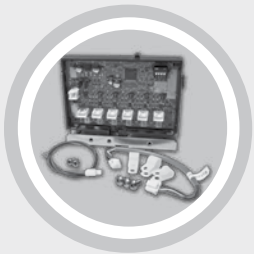

Connecting 2 units together requires just one (1) Cable.

| MODEL NUMBER | DESCRIPTION  | COMPATIBLE WITH                          |
|--------------|--|--|
| RTG20040     | <b>EZ-Link™ Cable</b><br>6-ft. cable with connectors and wire support clamps | RTG and RTGH models excluding -RH models |
| SP20892      | <b>Quick Connect Cable</b>   | RTGH-RH models only                      |

#### Connect up to **SIX** Units

Connecting up to 6 units together requires one (1) MIC-6 Manifold Controller for the system, plus one (1) Type Q Manifold Control Cable for each tankless unit connected.

| MODEL NUMBER | DESCRIPTION   | COMPATIBLE WITH                          |
|--------------|---|--|
| RTG20213A    | <b>MIC-6 Manifold Controller System</b><br>Controller mounts inside a single tankless unit and connects to up to 5 additional units via Type Q cable for a total of 6 | RTG and RTGH models excluding -RH models |
| RTG20213B*   | <b>1-ft. MIC Control Cable (Type Q)</b>   |  |
| RTG20213C*   | <b>6-ft. MIC Control Cable (Type Q)</b>   |  |
| RTG20213D*   | <b>18-ft. MIC Control Cable (Type Q)</b>  |  |

\*NOTE: These cables will not fit the MIC-185/MICS-180 System.

#### Connect up to **TWENTY** Units

Connecting up to 20 units together requires one (1) MIC-185 Manifold Controller, and one (1) MICS-180 Manifold Expansion Card for the system, plus one (1) Type K Manifold Control Cable for each tankless unit connected.

| MODEL NUMBER | DESCRIPTION   | COMPATIBLE WITH                          |
|--------------|---|--|
| RTG20126A    | <b>MIC-185 Manifold Controller System</b><br>Controller mounts in included installation cabinet indoors or outdoors with connection points for 6 units via Type K cables. Requires MICS-180 Expansion Card for 7-20 units | RTG and RTGH models excluding -RH models |
| RTG20126B    | <b>MICS-180 Manifold Controller Expansion Card</b><br>Add to the MIC-185 for connection points for 7-20 units via Type K cables   |  |
| RTG20126W    | <b>Replacement Manifold Control Board</b><br>For the MICS-180 or MIC-185 boards   |  |
| RTG20126C    | <b>16-ft. MIC Control Cable (Type K)</b>  |  |
| RTG20126D    | <b>32-ft. MIC Control Cable (Type K)</b>  |  |
| RTG20126E    | <b>65-ft. MIC Control Cable (Type K)</b>  |  |
