

Testimonies of Astonishment

“My crew can install all kinds of PEX, but the Viega PureFlow System is by far the easiest.”

- Dan Metcalfe, Owner Taps Plumbing

“We used to use an expandable PEX system, but it’s tough to install in the winter - when you try to expand plastic when it’s cold, it doesn’t want to do it. I started looking at the Viega PureFlow System and realized it would solve a lot of the problems we have been having.”

- James Music, General Manager Anytime Mechanical

“We started having failures in the original buildings - the cold expansion fittings were actually breaking in the wall. We started using Viega PureFlow Press Fittings and since then, it’s been our standard. I believe we’re getting a higher quality piping network for our buildings. We wanted to move to a spec and a standard that will ensure our buildings are 100-year buildings. That’s what brought us to Viega.”

- Darrell Dixon, Construction Manager for Shannex

Viega PureFlow System

The Freakish Performance that is perfect for commercial builders.

Connected in quality.

Better PEX for a better build

Ridiculously Versatile

One of the widest ranges of size and configurations in the industry, installable in many types of multifamily, hospitality, commercial potable or reclaimed water applications

Incredibly Flexible

Flexible, durable tubing that gives more options and easier installation than a rigid pipe

Amazingly Reliable

Vertically integrated manufacturing process for control over every step

Viega PureFlow System Components

PureFlow Press Fittings

- Viega Smart Connect technology for PureFlow Press Polymer helps identify unpressed fittings for more confidence in quality connections
- 100% factory assembled means less components on the job
- Copper to PEX transition fittings use the same tool platform, making multimaterial installations easier

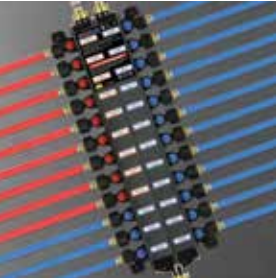

Viega PureFlow Press

- Flexibility eases installation
- Highest rating for chlorine and UV resistance
- 25-year warranty on high-quality tubing made with our in-house resin formula

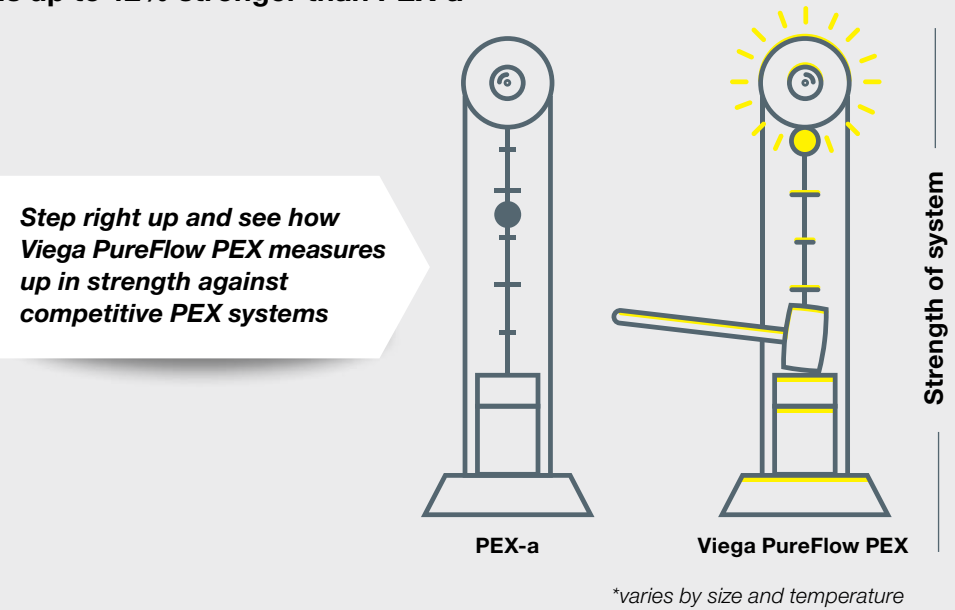

Viega ManaBloc

- Offers quicker hot water delivery and less pressure loss
- Centralized plumbing for easy control, similar to an electric breaker box
- Efficiently utilizes the least number of fittings for a plumbing system, minimizing the opportunity for leaks

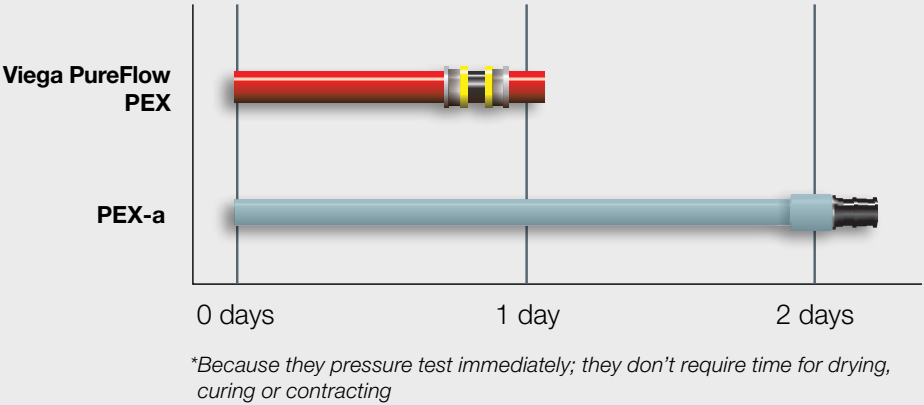

Test Your PEX

Burst Pressure Testing: Viega PureFlow PEX is up to 12% stronger than PEX-a*

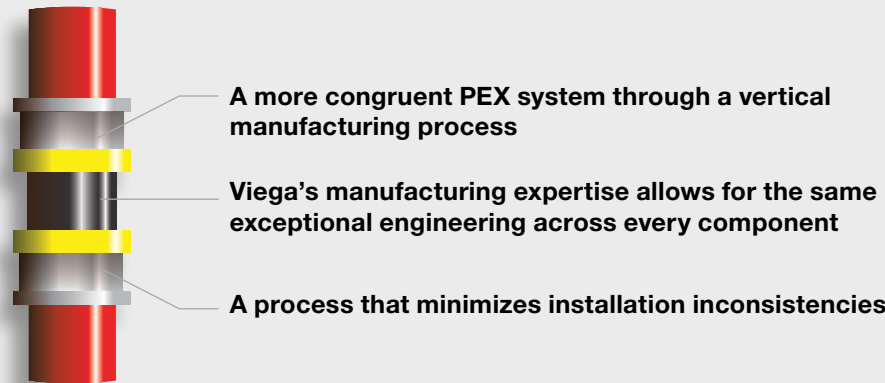

Ready. Set. Go.

Save up to 1 day per floor on high-rise installations with Viega PureFlow PEX*

Consistency of Connections

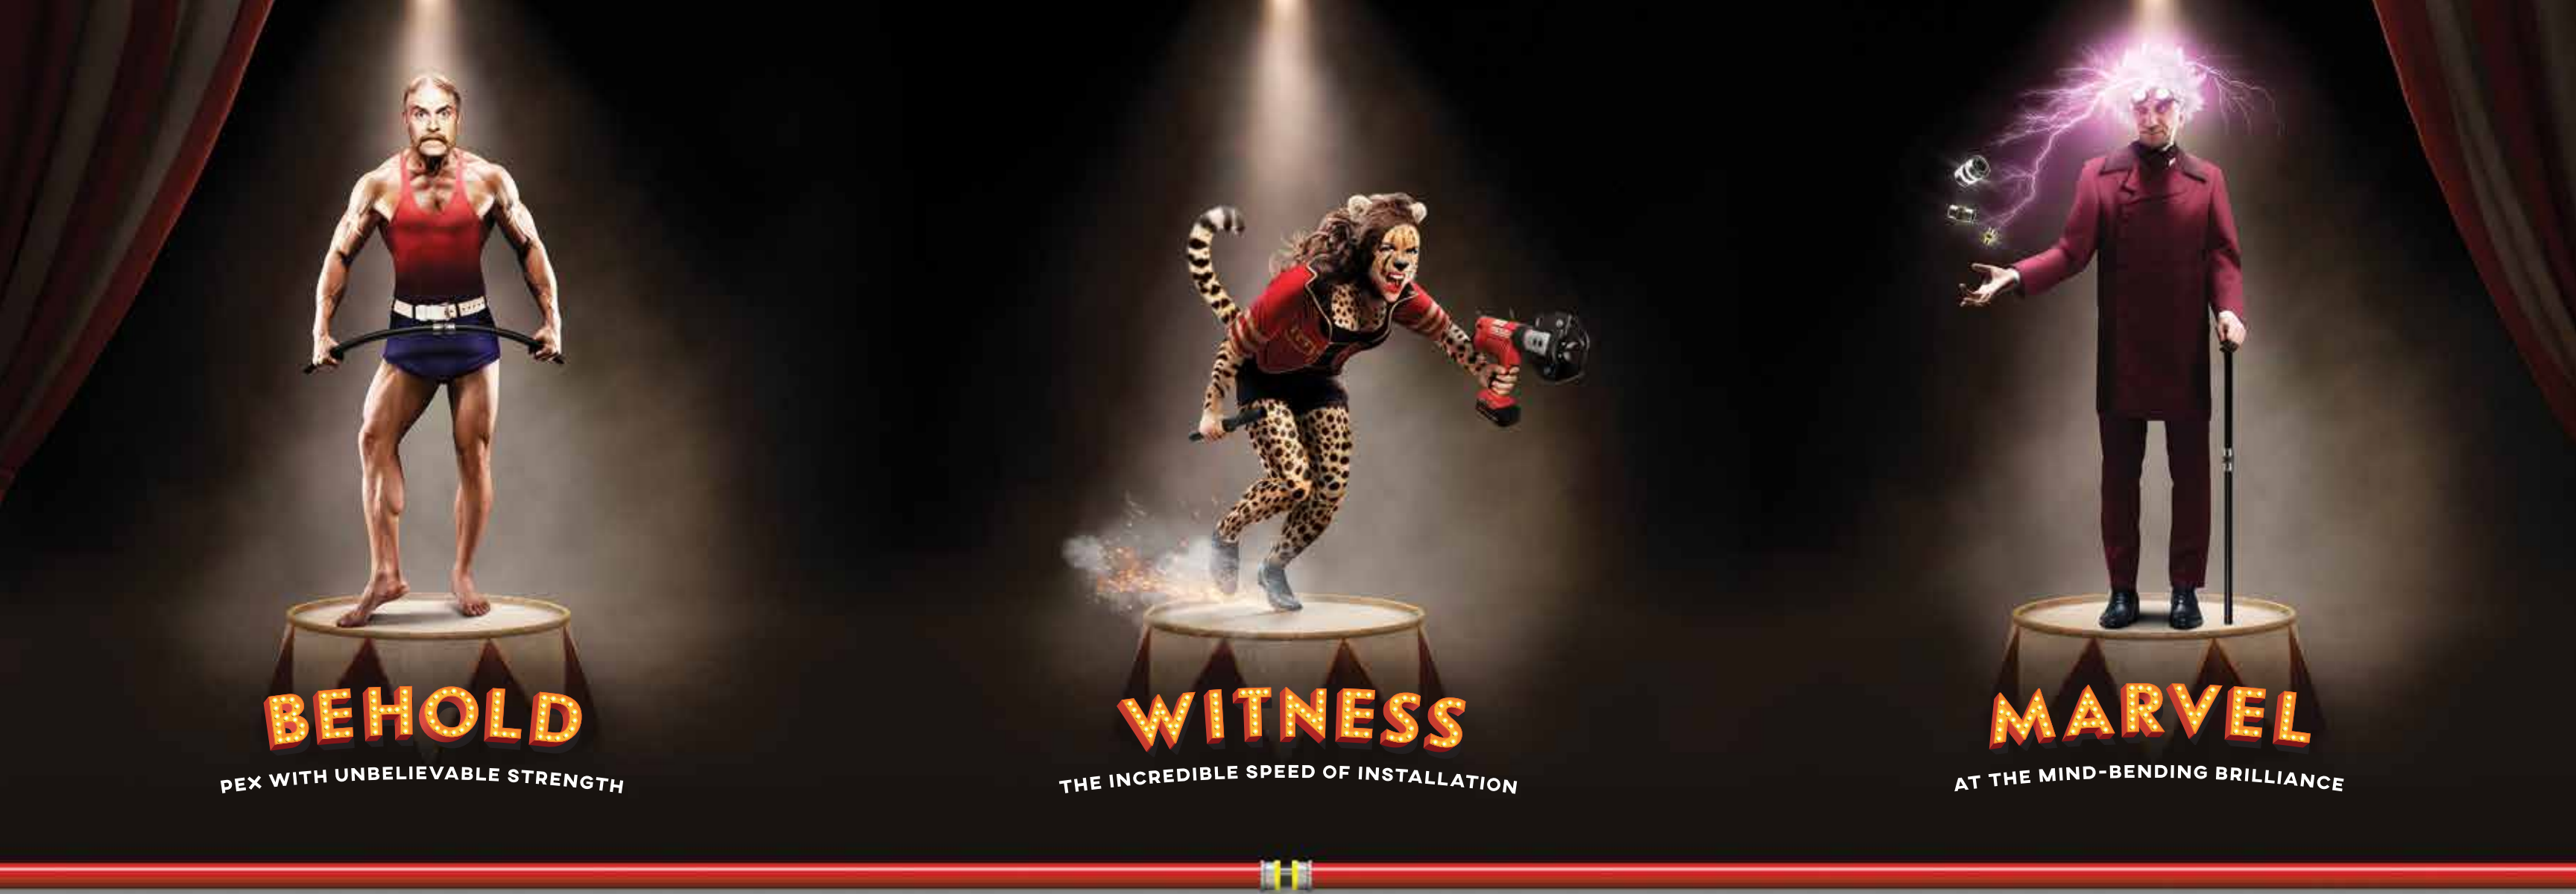

FREAKISH PERFORMANCE

THE AMAZING VIEGA PUREFLOW SYSTEM

Presenting Viega PureFlow System.
Freakish Performance.

This PureFlow PEX is more than meets the eye. It's been specially designed for the commercial builder. It's the amazingly reliable. The incredibly efficient. A modern feat of German engineering. It's the one, the only – Viega PureFlow System.

viega

Step right up, folks. This PureFlow PEX has a lot to flex.

A higher density PEX. The highest possible chlorine/UV resistance rating. And since no tubing alterations are necessary during installation, Viega eliminates the risk of microtears that can occur with cold expansion. Talk about a Titan of Tubing.

Feast your eyes (just don't blink).

Viega PureFlow System installs in a fraction of time compared to alternatives. They pressure test immediately. They don't require time for drying, curing or contracting. In fact they're so efficient, they'll save commercial projects up to 1 day per floor.

Fathom this: more confidence in every PureFlow PEX connection.

With Viega's Smart Connect technology for PureFlow Press Polymer, you can instantly identify unpressed connections. And with factory-assembled sleeves across a vertically integrated manufacturing process, there's consistency in every ounce of ingenuity.
