

Viega Eco Plus® WC Carrier

A sleek, modern look to
water savings

Welcome to the next evolution of toilet systems with in-wall flushing technology from Viega. Through precise German engineering, Viega offers a concealed flushing system that's simple to install, easy to maintain and reliable enough to withstand the test of time. By teaming up with world-renowned designers to develop a wide range of award-winning flush plates, Viega provides multiple options to create beautiful, functional bathroom spaces. Architects, builders and interior designers appreciate the space-saving minimalism and contemporary lines. Choose in-wall flushing technology from Viega, the industry-leading company you already know and trust.

Part 52712

Viega's Water Carrier Systems enable builders, architects and designers the opportunity and the freedom to create a signature bathroom. See why Viega Flushing Technology is the best choice:

- More efficient water use than traditional systems – exceeds EPA Water Sense standards
- Easier to clean by eliminating messy, hard-to-clean spaces around the tank and bowl
- Adaptable options, simple assembly and tools/guidance from Viega make installation easy
- Simple to maintain – the tank and interior can be accessed through the faceplate, making it convenient to maintain the system
- Durable, reliable performance guaranteed – highest-quality manufacturing, coupled with the industry's best warranty: 10-year warranty for parts and lifetime warranty for the frame and tank
- Enables the toilet to fit into tight spaces
- Provides six inches or more of space to use in design by moving the tank inside the wall
- Choose from more than 45 flush plate options in various finishes and materials, plus Viega systems work with many bowl designers and manufacturers
