

# IF IT WERE ANY EASIER, IT WOULD WINTERIZE ITSELF.

Eliminate difficult or missed service calls with the Woodford Model 32 lawn sprinkler supply valve with outside access.

**The Woodford Model 32** provides outside access to the water supply for easy start-up, winterizing and service. Key-operated with a removable drain plug, it's also perfect for ponds and other outside water needs. And since everything is right there on the unit, there's no need for the serviceman to enter the basement or crawl space. Recommend the Model 32 on your next job. It blows other sprinkler supply valves out of the water.

- Easily removable drain plug allows servicing at any time
- Freezeless\* security, key-operated for tamper-resistant protection
- Interfaces with any reduced pressure backflow preventer, double check or pressure vacuum breaker
- 3/4" and 1" inlets/outlets offered
- Can be retrofitted to existing homes and adapted to varying wall thicknesses

**It doesn't get any easier than Woodford. Contact your wholesaler or local rep today.**

\*When properly winterized.

**The choice of professionals.**
