

# FAMILY COASTER

COASTERS

For the young and the young at heart.

## ENDLESS POSSIBILITIES – THEME YOUR RIDE TO YOUR STORY

### HIGHLIGHT

This type of coaster is focused on a younger target group. Real roller coaster fun even for the little ones from four years old or 40 inches height.

**The roller coaster for the whole family.** Our onemeter and more height restriction coaster will probably be the first coaster experience for your 4yearold guests. The single lap bars and ergonomics shaped seats offer the most comfortable way for your little guests to ride a roller coaster.

**Maximum value for your money.** Sharp curves, camel backs, and quick turns make this roller coaster a highlight for your young guests. The magnetic braking system that is used offers you the lowest maintenance effort that is needed to operate this coaster.

**Tell your story!** It's a horse, it's a coyote, it can be everything – each Family Coaster can be themed to your storytelling. Please ask us about your special theme.
