

WATER COASTER

WATER RIDES

Water Ride + Roller Coaster = pure fun!

ADD A NEW LEVEL OF FUN TO YOUR COASTERS!

HIGHLIGHT

Mix the elements of an awesome roller coaster ride with the components of an incredible water ride.

Let's spice up your ordinary boat ride! After the boats gently float through an exciting scenery they are sent on a high-speed trip. Each 8-seater boat is equipped with single lap bars that feature comfortable seating and maximum safety for all situations.

The Water Coaster has it all. The twisted and banked coaster track allows you to determine the speed and thrill the attraction should offer for your guests. The grand finale of our Water Coaster consists of a steep drop with a gentle airtime hill that ends in a big wave and a lot of happy riders.
