

SPINNING COASTER

COASTERS

Let's go for a spin!

A UNIQUE EXPERIENCE FOR THE WHOLE FAMILY.

HIGHLIGHT

The Spinning Coasters by MACK Rides combine the classic pace of a roller coaster with the twisting and turning of a carousel ride.

Elevate your twist! Get a new twist on our roller coasters that not only offers speed, sharp turns, or big drops – but also spin! Whether you need high or medium capacity – we offer you the perfectly fitting roller coaster: single cars or a full train with connected gondolas.

The thrilling feeling you get. The latest development for our Spinning Coaster offers the possibility of a combination of controlled and free spinning movements. In a Dark Ride scene you can place your guests in the right direction facing the scenes. But after that – let’s get twisty and speed up that trip!
