

XTREME SPINNING COASTER

COASTERS

Let physics show its power.

FREE SPINNING CARS: SPINNING – BUT LIMITED

HIGHLIGHT

With an onboard magnetic brake that limits the rotation speed while keeping the free spin. Depending on the load distribution each ride will be unique.

The most beautiful roller coaster car.

Bringing the core values of technology and design to shine on a roller coaster car was our core mission here. All visitors can see the details of work by our team of mechanical engineers

Launch. Lift. Enjoy! The Xtreme Spinning Coaster is available as launch or lift version: Our customized layouts will fit your site perfectly and can include several inversions to get a unique roller coaster experience. Let us show you what options we can include in your ride.

Secure seat. With freedom included.

Known from our Mega Coaster and Launch Coaster line: No shoulder restraints guarantee a maximum of freedom. You never rode a firstclass seat in a roller coaster like that within the highest safety category (class 5).
