Work Experience

Designer – Leo A Daly

jul 2024 – present | Omaha, NE

- Brought into the team to enhance design quality by introducing fresh perspectives and ideas, while maintaining high productivity and timely delivery of deliverables. Lead design projects and collaborate closely with the design director and managing principal to ensure exceptional client outcomes.
- Design and oversee visualization for projects of all sizes, from multimillion-dollar healthcare developments to boutique office buildings, ensuring consistent design excellence and a cohesive visual direction across all aspects of the projects.

Designer – S9 Architecture

jul 2022 – Jun 2024 | New York, NY

- Led the design of an adaptive reuse project in South Boston, creating a cultural catalyst for the area. Developed an elegant solution for the iconic “Turbine Place” pedestrian and vehicular passageway, connecting the building’s primary wings.
- Oversaw massing and design for a residential and hospitality project in Nashville, creating flexible spaces for residents and visitors. Designed landscapes and facilitated a hotel spanning over retail, becoming a key neighborhood landmark.
- Led the masterplan design for a major Miami sports hub surrounding a future MLS stadium, coordinating space organization, visibility, and user experience for retail, offices, and hotels.
- Conceptualized and designed an office building opposite Ponce City Market in Atlanta, using biomimicry to connect greenways with public buildings and neighborhoods, enhancing community connectivity.
- Executed the design of a lab/office building in Boston, blending historical and modern architecture to create a contextually sensitive and elegant structure.

Designer – SCADpro x Clayco

sep 2021 – nov 2021 | Savannah, GA

- Collaborated with Clayco and Lamar Johnson Collaborative to research and develop concepts for the next generation of architecture and urban design; collaborating with professionals from diverse disciplines, including UX, industrial, and AR/VR design, fostering a multidisciplinary approach to innovation.

Architectural Intern – Leo A Daly

jun 2021 – sep 2021 | Omaha, NE

- Designed, modeled, and rendered winning proposals, including independently finalizing a project with high-quality rendered images and animation walkthroughs, securing client approval and project award.
- Streamlined design workflows to enhance productivity and expedite task turnover, contributing to efficient project delivery.
- Collaborated on construction documentation, producing precise, detailed drawings to support seamless project execution.
