Node Developer

G7 Light, Sao Paulo, SP, March 2014 - July 2014

I was the lead developer in the Agency and there were many projects in parallel. Hotsites, webapps and many other projects.

Most of my time i was writing javascript/coffescript and carrying about server, scaling and deploying.

Not so much <styles> in this position.

PHP Developer

Tuxxon Medical Systems, Sao Paulo, SP, November 2012 - March 2014

I was part of development team. We had a main project whose goal was creating a management system to help doctors with teleradiology solutions.

In parallel, we contributed to another projects:

- refactoring code in a legacy system
 - wordpress blog to share news about the product and company
 - remote support for users
 - training users
