BENEFITS OF BITMINIGN LTD INVESTORS.

Yield Farming

It is okay for you not to know what 'yield farming' is, how it works, and still enjoy the high return from yield farming. Sit back and relax while BitMining does DeFi liquidity mining for you.

Crypto mining

Crypto mining is the process by which cryptocurrencies are released into circulation. Generally, mining requires the solving of computationally difficult puzzles in order to discover a new block, which is added to the blockchain.

In contributing to the blockchain, mining adds and verifies transaction records across the network. For adding blocks to the blockchain, miners receive a reward in the form of a few cryptos; the reward is halved after every 210,000 blocks.
