Building a Stronger Community Through Partnership

There is nothing more rewarding than seeing dreams take shape and goals become reality. On March 24, 2026, the management team of Ebenezer Healthcare Access met with the leadership of LifeCare Alliance in Columbus, Ohio, for a productive discussion that opened the door to a promising partnership.

LifeCare Alliance is a nonprofit organization dedicated to human services, offering a wide range of health and nutrition programs to residents across central Ohio. Its mission closely aligns with the core values of Ebenezer Healthcare Access, as both organizations are committed to promoting Healthcare access by overcoming language, cultural barriers and other determinants of health and improving the well-being of the communities they serve.

Founded in 1898 as the Instructive District Nursing Association, LifeCare Alliance has a long history of helping communities identify and address evolving health and nutrition needs. In 1987, the organization was renamed Lifecare Alliance to reflect its focus on

supporting individuals throughout the aging process by bringing together healthcare professionals, volunteers, and programs that promote independent living. Similarly, Ebenezer Healthcare Access focuses on improving access to healthcare by helping individuals overcome language and cultural barriers. Together, the two organizations complement each other by combining expanded healthcare access with essential nutrition support.

Since its founding in 2019, Ebenezer Healthcare Access has served thousands of clients across Dayton, Columbus, and Cincinnati. A partnership with LifeCare Alliance would further extend the reach of both organizations, significantly benefiting their clients through shared resources and stronger referral networks.

Looking ahead, as Ebenezer Healthcare Access continues its efforts to educate clients on the prevention of breast and cervical cancer, collaboration with LifeCare Alliance could provide valuable support, including access to facilities and services for screening and testing.

Following these productive discussions, the Ebenezer Healthcare Access team was given a comprehensive tour of the LifeCare Alliance facility. This partnership represents an important step toward building a healthier, more inclusive community.

A Story of Hope and Support Through

Ebenezer Healthcare Access

For more than a year, Françoise Mukundukize and her family struggled to access necessities like food and healthcare. Despite their efforts, they were unable to secure the assistance they needed, leaving them in a constant state of uncertainty.

That changed when she was connected to Ebenezer Healthcare Access and met Aline Mukashyaka, a dedicated Community Health Worker. With compassion and persistence, Aline stepped in to guide Françoise through the process of finding support. In less than two months, Françoise and her family were able to receive food stamps and enroll in Medicaid—something they had been trying to achieve for over a year. Aline’s support went beyond enrollment.

She helped Françoise find a medical doctor and arranged transportation to and from medical appointments,

ensuring she could access the care she needed.

Through this continued support,

Françoise and her family now have reliable access to food, healthcare, and a greater sense of stability. “Now, I have Medicaid, I have food stamps, I can eat—I am doing well,” Françoise shares.

While her situation has greatly improved, Françoise still hopes for the opportunity to learn English, though health challenges make this difficult for now.

Her story reflects the meaningful impact of Community Health Workers and the vital role they play in helping individuals navigate complex systems, access resources, and rebuild their lives with dignity.
