

Kabinart™

cabinetry • custom where it counts™

Welcome to Kabinart.

Our company was founded in 1963, based on the core beliefs of building strong personal relationships and creating exceptional quality and value in every product we make.

We've consciously chosen to forgo national home center business and high profile marketing, in favor of investing in the best possible product value, backed by local, independently owned businesses you can count on to guide you through a successful new kitchen project.

Today, supported by more than 150 highly skilled men and women, we've grown to a 170,000 square foot facility in Nashville Tennessee. I'm proud to be joined by my daughter, Carter, two generations committed to the company's original core values.

We invite you to discover the exceptional value of Kabinart . . . plywood construction, quality details, a wide range of specialty finishes, a variety of interior convenience features and the personal attention of your local kitchen specialist.

Thank you for your interest in our company.

Shade Murray, Jr.

Style

Your dreams... refined

Families congregate in the kitchen.

Kabinart has applied this concept to our door offerings, creating 22 families to choose from.

Grouped by construction type and overlay, from simple to elegant, there are 255 possibilities to accentuate your dream space.
