

ATTENTION CUSTOMERS:

AQUA ROBUSTO

BY SWISS KRONO GROUP

The square foot coverage for the Aqua Robusto Adak 12mm Laminate is incorrectly printed as 20.43 on the top of each carton. (sku 55541082)

The correct coverage is **14.2 Square Feet**

(Each carton contains 5 planks which will cover an area of 14.2 Square Feet)

Please keep this in mind when determining your flooring needs

Top of carton

Correct Square Meter Coverage

The diagram shows a rectangular area representing the top of a carton. Inside, the text reads: $5 \times 1380 \times 191 \times 12 \text{ mm}$ followed by the conversion $54.33 \times 7.52 \times 0.472''$. To the right, it shows the calculation $= 1,318 \text{ m}^2$. Below this, the value $= 20.43 \text{ sq.ft}$ is enclosed in a red box. A blue arrow points from the text 'Correct Square Meter Coverage' above to the $1,318 \text{ m}^2$ result. A red arrow points from the text 'Incorrect Square Foot Coverage' below to the boxed 20.43 sq.ft value. A double-headed arrow at the bottom indicates the width of the carton area.

$$5 \times 1380 \times 191 \times 12 \text{ mm} = 1,318 \text{ m}^2$$
$$54.33 \times 7.52 \times 0.472'' = 20.43 \text{ sq.ft}$$

$\approx 15 \text{ kg} / 33 \text{ lbs approx.}$

Incorrect Square Foot Coverage
Correct coverage is **14.2 Square Feet**
