The cost-effective **Touchdown** protection system was engineered to protect your floor from foot traffic and light weights such as chairs.

Touchdown can also be installed during structural work. The compact vinyl product is outfitted with a fiberglass support that makes it **highly resistant to wear and tear**.

Touchdown has a **minimum of 26% of recycled content** and is **100% recyclable**.

Touchdown is **100% phthalate free**, has **very low COV emissions rate <100µg/m³** and comes with a **5-year warranty**.
