

Dear Family and Friends,

We hope your year has been exceedingly blessed. Thank you for your friendship, and for keeping in touch through Holiday Greeting cards and letters.

I (Rodica) am still adjusting to the climate in FL. Weather at the end of fall, winter and spring is very beautiful here. Our raised beds filled with greens are doing great. We are taking little steps to learn about growing trees and other types of gardening. God again protected our area from potentially devastating storms.

We started our year by a bitter surprise. Eric's oldest brother, who had been very health oriented suddenly became sick without doctors finding out what was the cause. Nothing they did helped him, and he finally died biggening of February. We miss him so much. He often called to make sure all of us were doing well. He was a caring person, making sure all of his siblings and families were OK. After we moved to FL he came to visit us to give his stamp of approval for our move.

The highlight of our year was our trip to Herghelia-Romania starting in August after the ASI convention. Eric entered early retirement at the end of November 2023 and therefore we were able to stay for almost 3 months at the health center. Eric started to develop a program for the Lifestyle center that will help with scheduling patients for their sessions and storing their results.

I helped my sister Magdalena with the Herghelia K-12 school. God impressed Magdalena with the idea of developing a NEWSTART health program – to teach students the health principles. After going through this program students were able to teach their families and go to other schools to teach their students. They did health Expos as well and presented the program at the “Pathway to Health” events. Students of all ages are very open and eager to learn about health. It is amazing to see how kids, after learning the health laws, have power to influence parents and grandparents to make changes in their lifestyle and improve their health. The Romanian Ministry of Education considered this program and approved a grant for a Pilot Program. Following is a link with more information if you want to read and see pictures of the students and the above activities. <https://tinyurl.com/hmfletter> Please keep this school in your prayers.

While in Romania we spent a weekend in the beautiful Carpathian Mountains. The pictures at this link: <https://2024-letter.hillis.us> are showing a sunrise and sunset at the Health Center and pictures of the mountains from our weekend trip.

At the end of this year, we are grateful to God for the way He has led us in the past. We can exclaim one more: “We have nothing to fear for the future except as we shall forget the way the Lord has led us in the past.” LS 396.2.

We wish you a very Blessed and Happy New Year 2025!
