

# Insulthane® EDGE<sup>2K</sup> 600

## Two-Component Low-Pressure Foam Kit

**INSULTHANE® EDGE 2K 600** is a two-component, low-pressure spray polyurethane foam kit designed for fast, simple touch-ups on the jobsite. This medium-density system is ideal for small service calls, post-inspection corrections, and precision detailing. It delivers reliable performance in a compact, ready-to-use format.

*For professional use only.*

### **FEATURES**

**Compact & Portable**

**Precise Sealing**

**Versatile Performance**

**Efficient Yield**

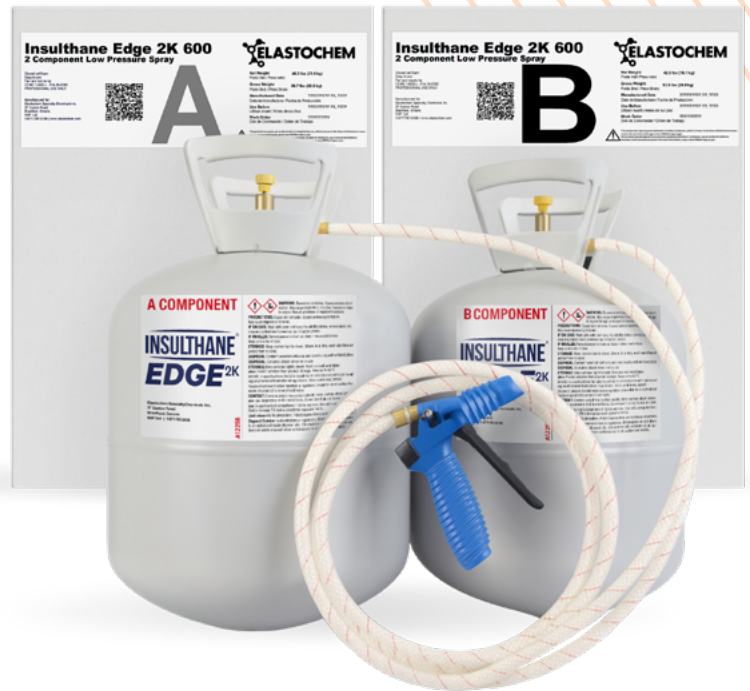

# Insulthane® EDGE

Insulthane® EDGE 2K 600 is a practical solution for small-scale spray foam applications that don't require mobilizing a full rig. Designed for jobsite flexibility, this low-pressure kit provides reliable performance for sealing, detailing, and corrective work. It's well-suited for touch-ups after trimming, post-inspection fixes, or projects in hard-to-reach areas.
