

# Automation Engineer Internship

Looking for a career that offers rapid personal development, a deeper sense of purpose and broader opportunities? Reluctant to work for an organization that **does not care** about the boundaries of our planet?

Since 2012, LightBlue Consulting and The Pledge have been **at the forefront of sustainability** and **food waste prevention**, working with top-tier clients like Marriott, Hyatt, Accor, GIZ (German Development Agency), and Michelin Guide Thailand across **more than 30 countries**.

- **Our passion?** Researching, finding and offering the **best solutions** to make our environments more **viable, sustainable and comfortable**
- **Our mission?** Train and accompany organizations in **integrating circular business models to move towards zero food waste to landfill and low carbon operations**.
- **Our motto?** **Reconciling sustainability with business excellence**.

We're committed to what we do, and we're looking for equally committed people to join our young, dynamic team.

**This offer is not limited in time.** Feel free to apply whenever you need, and we'll get back to you based on current or future availability. To give you the best possible experience with us, **5 to 6-month-long** internships onsite (Bangkok office) are **strongly preferred**.

## Position Overview

We are seeking an Automation Engineer (Intern) to help design and implement workflow automations that reduce manual work and improve data flow across systems. This role is ideal for students, fresh graduates, or early-career engineers who want hands-on experience in automation tools, APIs, and scripting. You will support the team by building integrations between platforms, automating repetitive tasks, and ensuring efficient operations.

## What are we expecting from you?

### Responsibilities :

- ✎ Support the creation of automation workflows using platforms such as Monday.com Automations, Make, n8n, or other workflow automation tools.
- ✎ Write Python/JavaScript scripts to automate data tasks or connect APIs between systems.
- ✎ Assist in integrating data pipelines with automation platforms.
- ✎ Collaborate with different teams to identify repetitive processes and automate them.
- ✎ Monitor and troubleshoot automation workflows to ensure reliability.
- ✎ Document automations, scripts, and integration processes for knowledge sharing.

## Who are we looking for?

- Currently studying or recently graduated in Computer Science, IT, Data Engineering, or related field.
- Basic knowledge of Python or JavaScript for scripting.
- Familiarity with API usage (REST, JSON) and basic data handling.
- Interest in workflow automation tools (e.g., Make, n8n, Zapier, Monday.com Automations).
- Bonus: Exposure to SQL or database knowledge.
- Eagerness to learn new tools and solve problems creatively.

## What to expect from us ?

- ✧ Hands-on experience in workflow automation and system integration.
- ✧ Practical skills in scripting and API connections.
- ✧ Exposure to real-world automation platforms and business use cases.
- ✧ Opportunity to reduce manual workload and create impactful automation solutions.

## Recruitment process for this role

1. Interview with the Talents Acquisition OR Recruiting team
2. Assignment
3. Interview with the Hiring Manager
4. Interview with the CEO

*\*Please kindly note that the interview process could last from 1 to 2 weeks depending on the candidates' availability and promptness with the assignment.*

## Other information

- **Working location:** Sathorn (BTS Chong Nonsi), Bangkok (Mon-Fri, 9am-6pm)
- **Stipend :** 12000THB/month, from 5-6 months of internship with us
- Please email a **cover letter or a short video in English** (which explains **why you are applying for this position, what attracts you to the company** and the **desired start and end dates of your internship**) and your **resume** to [kaewta@lbecinfo.onmicrosoft.com](mailto:kaewta@lbecinfo.onmicrosoft.com)
- *The short video should be in English, 1 to 3-minutes long, and contain these elements :*
- **A quick self-introduction:** your name, your current or most recent experience (this could be a role, internship, group project, university) and what you enjoyed or learned from it ;
- **Three key strengths or skills** that you believe would help you thrive in this role ;
- **What motivates you** about this role, our company and how it connects with your personal or professional growth journey

- The candidate needs to bring his/her own laptop

### **Important :**

**Before applying to our offer, as this is an onsite position, we kindly invite you to consider the prospect of relocating to Bangkok and the associated implications (accommodation, local cost of living, etc.)**

***Ready to take a career leap?***

### **PDPA**

Please note that by applying to this opportunity you consent to the personal data you provide to us to be processed and retained **LightBlue Consulting, The PLEDGE on Food Waste and LightBlue China**. Your details will be kept on our Internal file for as long as is necessary for the purposes of recruitment, which may include your details being shared with the hiring manager(s) and for consideration for potential future opportunities by **LightBlue Consulting** and its affiliate.
