

EVERFI in Your School District

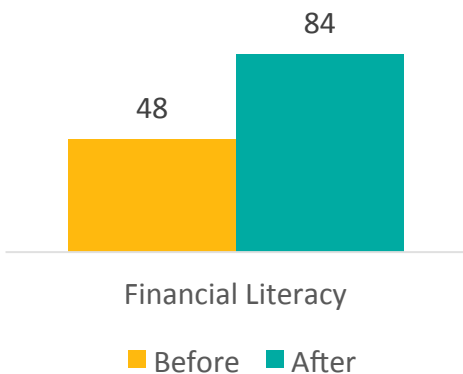

EVERFI provides teachers with the high-quality digital resources they need to address critical skills. In the 2017-2018 school year, 20,000 schools across North America will use EVERFI's courses with their students.

Critical Skills in Your School District

Student Impact in Your School District

Students who took an EVERFI financial capability course increased their scores on knowledge assessments by 75%.

After taking an EVERFI STEM Exploration course,

71%

of students report a desire to pursue a career in STEM.

Nationwide, students start to lose interest in STEM by middle school, and by the time they leave high school 60% of those who were interested in middle school have lost interest.
