

Keys To Your Future: College and Career Readiness

FREE DIGITAL LESSONS

Critical Career and College Readiness Skills for High School Students

According to the U.S. Chamber of Commerce Foundation (2016), there are essential skills that are valued by employers and post-secondary institutions...critical thinking, teamwork, problem solving, professionalism, and creativity can differentiate a good candidate from a great one.¹ Career readiness education provides soft skill development, financial guidance, and transferable skills to help students plan and achieve personal goals, for success now and in the future.

Developed in collaboration with UBS, EVERFI's digital course, **Keys To Your Future: College and Career Readiness**, prepares students for a variety of post-secondary options and the workforce. The lessons allow students to explore various pathways and highlight important skills and characteristics that can help them find success in academic settings as well as the workplace.
