

Where to Find Materials

Transitioning from the Social Communication Curriculum to the Integrated Experience

With our latest update, we reorganized our materials to make them **more intuitive and easy to find**.

Based on user research, we streamlined the number of skills, renamed goals, and moved some materials around to make them accessible with fewer clicks and less scrolling.

We know that change is hard. So, we've put together this simple guide that documents all the changes we made to our skills, all the materials that now live within a new skill or goal, and all the new goals and materials we added.

Don't see one of your favorite goal areas listed? That's because it hasn't changed in the integrated experience! You'll still find these materials organized in the same unit structure and goal area as before.

With this update, we aim to support you more effectively as you continue to **empower the students and communities you serve**.

SCC Skill	 NEW Skill
School Rules	
Behaviors	
Hygiene	
Basic Conversation Skills	
Conversation Topics	
Advanced Communication	
Nonverbal Communication
