ROTATING SANDER - POWE40030

This rotating sander is fitted with a self-adhesive hook and loop system. This allows replacing the sandpaper simply and quickly. This versatile sander has an oscillation speed up to 12000min⁻¹. The adjusting wheel for speed control lets you set the perfect speed for the task.

The POWE40030 has a self dust collect function. The advantages of the dust extraction are: a longer service life of the sandpaper, a better visibility on the sanding surface and a cleaner working environment.

The sander with soft grip comes with an auxiliary handle. Two G80, two G120 and one G240 sandpapers are included.

TECHNICAL SPECIFICATIONS POWE40030		Features	Box content	Symbols
Rated voltage - Frequency	230V~ 50Hz	<ul style="list-style-type: none"> • auxiliary handle • dust extraction • variable speed • hook & loop system • power-ON LED • soft grip 	1x rotating sander
