LAVTEMPERATUR
RADIATOR

STRADA LAVTEMPERATUR-RADIATOR

DIMENSIONER [cm]

LEVERING

Radiatoren er let at installere for én person. Den leveres i en papæske, der også kan anvendes som beskyttelse af fronten efter installation.

Standard levering:

- Low-H₂O varmeveksler med vægbeslag, monteringskit, luftskrue 1/8" og bundprop 1/2"
- Kabinettet er forberedt for tilslutning i både venstre eller højre side i bunden.
- Det medfølgende dæksel placeres i modsatte side af ventilens placering

Levering med DBE:

- Antal DBE enhed(er) varierer efter længde
- Drift, styring og strømforsyning 12 V
- Monteringsvejledning
- Leveres med radiatoren

FARVER

Miljøvenlig ridsefast og høj UV resistent pulverlakering.

Standardfarver:

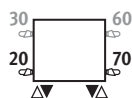

- Hvid RAL 9016 (133), let struktureret satinlak
- Sandblæst grå (001), fin tekstur metallisk lak
- Andre farver: Se farvekortet.

TILSLUTNING

Standard forbindelse:

I bunden til venstre eller højre, mod væggen eller mod gulvet. Forbindes via bunden af kabinettet eller helt skjult indeni kabinettet, afhængig af den valgte ventil eller forbindelsessæt.

Kan bestilles med højtsiddende ventil. Angiv kode "30" for venstre og kode "60" for højre.

FORBINDELSSESSÆT

Helt skjult i kabinettet

Ventil der passer til Danfoss termostathoved:

VENTIL

VVS-nr. 4404843004

Pris 195,-

Der findes forskellige ventilssæt, der bl.a. gør det muligt at tilslutte rørene bag kabinettet. Termostathoveder fås med og uden fjernfølger.

Andre tilslutninger

Se kapitlet "Tilslutningssæt og ventiler" i kataloget for alle tilslutningsmuligheder og tekniske oplysninger.

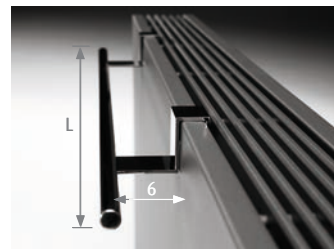

DBE - BLÆSER

DBE skal vælges i henhold til effekt i komfortfunktionen, som anført i pris- og effekttabellen. Overgangen mellem standby (inaktiv) og komfort styres automatisk afhængigt af den målte temperatur og indstillinger.

HÅNDKLÆDEHOLDER

Udført i forkromet aluminium i længderne 56 eller 66 cm.

STRADA

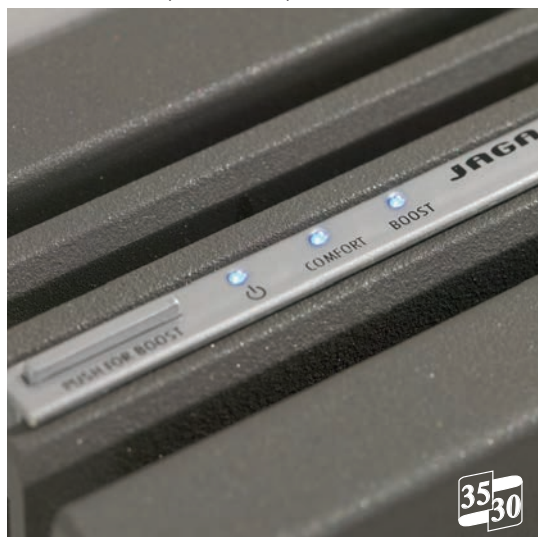

Ren power og banebrydende design

- Energibesparelse på 5-15 % i forhold til traditionelle radiatorer.
- 30 års garanti på varmeveksleren.
- Lav overfladetemperatur på max 42° C uanset fremløbstemperatur.
- Lav vægt – vejer under det halve af en standardradiator.
- DBE-model for superlave vandtemperaturer fra 28° C.
- Low-H₂O teknologi med super ledende og ultrahurtig varmeveksler til lavt energiforbrug og maksimal varmeafgivelse.
- Twin Power for højere ydelse af samme størrelse radiator.
- Egnet til en integreret ventil og skjult tilslutning.
- Diskret slimline design med fladt frontpanel og stilfuldt aluminiumsgitter.

design award
winner

DBE giver mulighed for stor ydelse fra kompakte modeller med super lave temperaturer fra 28° C.
