

Wood's GRAN Air Purifier

Big brother purifies 900 m³ of air per hour

Big brother GRAN 900 is one of the market's most powerful air purifiers. It is designed to tackle large and demanding environments.

The air purifier is equipped with two Active ION HEPA filters and can be optionally equipped with efficient carbon filters, which also remove bad odours and gases. Despite the GRAN 900's many strengths, the air purifier has a very low energy consump-

tion and the sound level is also down to a very low level of 30 dB.

10 year warranty on all Wood's air purifiers

When you register your air purifier and routinely change the filter when used up, you can get an extended warranty of a total of 10 years. Wood's sends a reminder when it is time to change the filter. See more at woodsdenmark.dk

Wood's	GRAN 900
Art. nr.	WAP901-EU
Max. Working area	160 m ²
Recom. Working area	60-80 m ²
Type	Free-standing
Air flow	900 m ³ /h
Power consumption	24-80 W
Sound level	From 30 dB
Purification degree	99,98 %
Power	230/12 V
Levels	4
Number of filters	2 x Active ION HEPA
Exchange filter	WHE901
Ozone output lowest	0,001 ppm
Ozone output highest	0,001 ppm
CADR smoke	552
CADR dust	555
CADR pollen	588
CADR / Watt	7,7
Dimensions	220x565x615 mm
Weight	15,4 kg
Accessories	Carbon filter
EAN no.	7332857000586
