

Compact, silent and effective.

Wood's

Wood's ELFI 300

Wood's ELFI 300 is a compact, effective and incredibly energy saving air purifier. It is suitable for living rooms, offices and other areas up to 60m². The patented Active ION HEPA filter ensures a very high efficiency combined with a very low power consumption, starting at only 4W.

The Wood's ELFI 300 cleans the air from dust, pollen, bacteria, radon particles and other harmful particles and provides you with a healthier indoor environment. This unit can also be equipped with a carbon filter to clean the air from unpleasant odour and gases (optional accessory).
