QUICK-FIX10MSW

Description

The days when you needed a separate socket for each element of your lighting installation are now finally consigned to history with our patented QuickFix™ system: Using this connector system, multiple branded 230-volt products may be connected together with no problem – and this is also true for 36-volt products. Each QuickFix™ product is individually quality tested to meet the IP67 rating - moisture presents no danger to its continued operation. The QuickFix™ cable is available in the colors white and black; cables for low-voltage products can be ordered in the colors transparent and green.
