VANNES – R80181708

excl. 1x E27 · max. 10W

- **Switch**
- **Wallmounting**
- **IP20**
- **Lamp(s) not included**

Less is more! The luminaires of the VANNES series impress with their simple and timeless design. With the matching filament lamps, the modern living style is ideally complemented and rounded off. Correctly positioned, the luminaire ensures optimum lighting conditions in every part of your home. Be sure to choose the right colour when selecting the light source. In combination with matt brass and black, transparent and smoke-coloured lamps are particularly effective. The use of an LED light source is recommended for energy-saving lighting. These are an excellent alternative to conventional halogen lamps and represent a high quality of light together with energy savings of up to 80%. With LED lighting, you also benefit from a long service life and low heat generation, while at the same time protecting the environment.

Material construction

Metal · Brass mat
