With the puristically designed PAROS pendant luminaire, the upward and downward lighting comes to the fore and creates a particularly cosy lighting ambience. The height of the modern luminaire can be changed at any time by simply pushing up or pulling down. Whether for working, playing games or dining with friends - the different settings provide optimum conditions for a suitable lighting scene. Thanks to the integrated SWITCH dimmer, you can comfortably relax in the evening with the light dimmed down or work with full brightness (100%, 50% and 25%). The brushed aluminium PAROS has a modern look and can be easily integrated into any interior. The light also features modern LED technology, which is characterised by excellent lighting quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and are environmentally friendly.
