

Floor lamp

ORSON – R40073508

incl. 1x SMD, 28W · 1x 3200lm, 3000K

incl. 1x SMD, 6W · 1x 600lm, 3000K

- Separately switchable
- Integrated dimmer
- Sensor dimmer
- Memory function
- IP20

The ORSON free-standing floor lamp stands out for its timeless design and offers numerous application and design options. Ideally, the light should be positioned next to the sofa or an armchair, because a flexible reading arm in addition to the uplighter as main light source ensures the best possible lighting result. This can be selectively aligned so that the desired light can be freely selected. The uplighter and reading arm can be switched separately and can be dimmed continuously. Thanks to the built-in memory function, the light starts with the last light setting selected. With its classic colour scheme in matt brass and alabaster-coloured glass, the light can be combined with a variety of furnishing styles. The light also features modern LED technology, which is characterised by excellent lighting quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and are environmentally friendly. ☒ ☒

Material construction

Metal · Brass mat
Glass · alabaster coloured

Product dimensions

Width: 32cm
Height: 180cm
Weight: 7,65kg

Technical data

Light source: SMD – LED (integrated)
Watt: 28W
Lumen: 1x 3200lm
Kelvin: 3000K
Color rendering (CRI): > 80 CRI
Lifetime: 30000H
Switching cycles: 15000x ON/OFF
