

Table lamp

MARLEY – 512400132

excl. 1x GU10 · max. 5W

- **Switch**
- **IP20**
- **Lamp(s) not included**

The minimalist furnishing trend is becoming more and more popular and provides for a calming and harmonious environment. The clear lines and minimalist design of the MARLEY table lamp focus the light and provide mood-setting lighting accents. The head of the luminaire is movable and can be aligned freely upwards and downwards. Whether used as a reading light on a desk or as an accent light on a chest of drawers, this table luminaire puts special places in the best possible light. The colour scheme in matt black creates stylish contrasts in simple living rooms. The use of an LED light source is recommended for energy-saving lighting. These are an excellent alternative to conventional halogen lamps and represent a high quality of light together with energy savings of up to 80%. With LED lighting, you also benefit from a long service life and low heat generation, while at the same time protecting the environment.
