A reduced and simplistic interior design is becoming more and more popular and ensures a harmonious environment. Thanks to its simple design and clear round shape, the GIRONA ceiling lamp is ideal for realising minimalist living. With its integrated SWITCH dimmer, the GIRONA nevertheless ensures optimum lighting conditions. The adjustment of brightness from 100% to 50% or 25% can be controlled via the conventional light switch. In matt black, the lamp provides the right colour contrast in minimalist furnishing concepts. The light also features modern LED technology, which is characterised by excellent lighting quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and are environmentally friendly.
